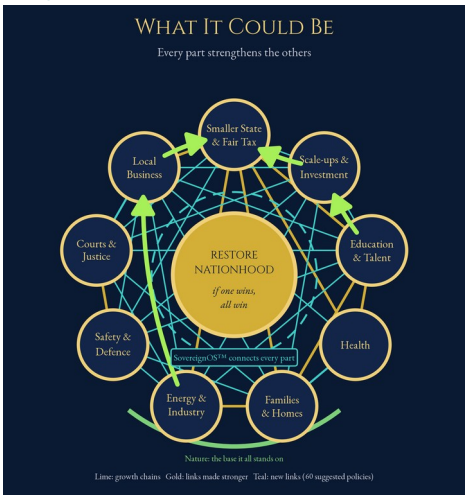
Restoring Britain: Before and After

*Building on Restore Britain's policies through a systems lens. A one-page summary of **A Policy on the Policies** and its companion papers: Owning Yourself, A Smaller State and a Flat Tax, Learning & Earning, Rooted in British Soil, A Healthy Nation, Restoring the British High Street and The Grandparent Renaissance (27 November 2026).*

'British Government Budgets Are No Longer Opportunistic Looks into the Future; They Are Simply Autopsies of Past Mistakes.' — Stuart M. Williams

'We are not adding new plays to a broken playbook; we are creating a new playbook for a British future.'



Before: strong on borders, benefits and tax, with the parts ready to be joined up.

After: 70 suggested policies join the parts, from nature up, so each strengthens the rest.

In plain words

- **Close the borders, deport illegal immigrants and stop the leaks:** Restore's own policy and the catalyst for everything else (P5, P17); pause foreign aid, end benefits for illegal migrants and shrink the civil service.
- **A smaller state over ten years:** from 45.6% of GDP towards about 30%, closing the deficit in two to three years.
- **One simple income tax for people and companies,** falling to nothing on the first £40,000 and 20% at most; no inheritance tax.
- **Pensioners protected:** the state pension and triple lock are kept, and no pensioner pays more tax.
- **One standard of justice for everyone,** with faster courts that keep juries.
- **Keep British scale-ups and capital in Britain,** with cheaper energy so they grow and list here.
- **Own yourself:** your name, face and data become your property, to license or withhold.
- **Education from age 8 as a long-term investment,** with SovereignOS™ building talent and founders.
- **Learning & Earning:** paid national service for Britons able to work, and training to a wage with no UC top-up.
- **Taxpayers vote on any surplus,** with every department's spending and the live tally on a public Civic Ledger.
- **Nature is the base:** natural wealth on the national balance sheet, rewarding those who grow it.
- **Feed Britain from British soil:** healthy soil, thriving farms, food security and clean food for children (P35–P39).
- **A healthy nation:** a free NHS Core, a legal 18-week maximum with the money following the patient, and British-trained first (P40–P48).
- **Save the high street and the pub:** no rates on small shops and pubs from April 2029, 12.5% hospitality VAT, and one standard for every business (P49–P60).
- **Grandparents organised:** Grandparent Circles in every town, paid direct, never a pyramid (P61–P70).

OUTCOME: **one connected Britain, where if one wins, all win.**

36/100

Severe strain

Britain's Systemic Friction Score (SFS)

It measures how much a country spends managing problems instead of solving them, with its debt and deficit. The 36 uses Stuart's working assumption of **7 million illegal immigrants**; lower published estimates give 45–46. Even with none, Britain scores 48: the catalyst is the first step, and the solutions do the rest.

Try it yourself: go to **sovereignos.world/sfs**, choose United Kingdom, enter your number.
