Good projects.
Strong local partners.

A straightforward way to bring each other business.

YOU EARN
10%
On court sales you bring us

WE EARN
5%
On contractor jobs we bring you

01 What we do

Coast to Coast Courts supplies custom modular court tiles for basketball, pickleball and combination courts. We help homeowners connect with local contractors to prepare their space and complete installation work.

02 When we bring you a project

We send the project details for you to review and quote. Your team handles the agreed local work. Coast to Coast Courts earns 5% of the eligible revenue from the referred job.

03 When you bring us a customer

Simply introduce the interested customer to us. We handle court questions, design, quoting and closing the sale. Your business earns 10% of the eligible revenue from the referred court sale.

A SIMPLE EXAMPLE

$10,000 contractor job: $500 to us | $10,000 court sale: $1,000 to you

From introduction to installation.

Keep this overview handy when a court opportunity comes up.

01 Share the opportunity

Send the customer introduction, project address, court dimensions and available site photos by replying to your Coast to Coast Courts contact. Confirm the referral with us before the sale; existing leads and duplicate referrals should be resolved before a commission is agreed.

02 Confirm the job and payment setup

We agree on the work, quote, contracting responsibilities, commission basis and payment timing before proceeding. For installation arranged through Coast to Coast Courts, the homeowner pays us and we pay the contractor for the agreed work. Any direct homeowner arrangement is confirmed separately.

03 Complete the work and settle the commission

We earn 5% on contractor jobs we refer; partners earn 10% on court sales they refer. Both are based on agreed scope and revenue collected, excluding sales tax, refunds and credits. Commissions are payable after full customer payment. Confirm the payout date and exclusions per job; canceled or unpaid sales earn no commission.

LOCAL WORK WE MAY NEED

Concrete or asphalt pads; clearing, excavation and grading; base preparation and drainage; retaining walls; cleanup and restoration; basketball hoop installation; and court tile assembly. Partners quote only the services they offer.

COURT & PAD INSTALLATION

Tiles snap together and arrive in numbered boxes, with a step-by-step guide in box one. We provide the court layout and project-specific pad requirements before quoting or construction. This overview is not a concrete specification.

GETTING STARTED

Share your business name, service area, specialties and best contact details. Applicable licenses, insurance and payment paperwork can be coordinated when a specific project requires them.

PARTNERSHIP BASICS

Participation is nonexclusive and does not guarantee project volume. Each business remains independently operated. This is a program overview; confirm referral acceptance and project terms in writing before work begins. Any rate changes apply only to future referrals agreed by both parties.
