PROFESSIONAL SUMMARY

Microsoft Certified Data Analyst (PL-300) and BI Consultant with 15+ years across data and business operations — including 8+ years focused on Power BI, DAX, data modelling, and executive reporting — delivering analytics solutions that drive strategic decision-making and operational excellence.

- Expert in Power BI (DAX, advanced data modelling, Power Query, performance optimisation), advanced Excel, and SQL, with a strong record in KPI frameworks, dynamic dashboards, and automated reporting.
- Translates complex data into decision-ready insights for C-suite and senior stakeholders; equally effective working independently and leading cross-functional collaboration.
- Experienced people leader — mentoring analysts, setting reporting standards, and supporting team performance, guidance, and development.
- Strong cross-cultural communicator; fluent in English; German A1 certified and progressing toward A2 following relocation to Switzerland.

CORE EXPERTISE

Data Analysis & BI: Advanced Excel (PivotTables, Power Query) · Power BI (DAX, Data Modelling, Power Query) · SQL

Visualisation & Communication: Data Storytelling · Executive Presentations · KPI Development

Business Operations: Automated Reporting · Stakeholder Collaboration · Operations Reporting

TOOLS & TECHNOLOGIES

Core: Power BI · Microsoft Excel · PowerPoint · SQL

Developing: Python · Microsoft Fabric

PROFESSIONAL EXPERIENCE

Data Analytics & BI Consultant | Freelance / Contract · Remote — Bülach, Zurich, Switzerland **Jan 2026 – Present**

Delivering Business Intelligence solutions for clients across the Real Estate and Manufacturing sectors, with a focus on report design and data accuracy.

- Designed visually compelling Power BI dashboards with clean layouts, intuitive navigation, and consistent branding — ensuring reports are both executive-ready and end-user friendly.
- Built and validated semantic models with rigorous cross-checking of table relationships, calculated columns, and measures to guarantee data integrity across reports.
- Performed thorough numbers validation — reconciling Power BI outputs against source data and Excel references to ensure 100% accuracy before client delivery.
- Developed complex DAX measures for dynamic KPIs and business logic across real estate and manufacturing reports.
- Built Power Query transformations with multi-step verification, ensuring error-free data pipelines before client delivery.

Career Development & Independent Projects | Zurich, Switzerland

Jun 2025 – Dec 2025

- Relocated to Switzerland; combined cultural and language integration (structured A1–A2 German coursework) with continuous technical upskilling in SQL, Microsoft Fabric, and modern analytics tools.
- **Product-building:** designed and built **Chromix.app** (AI-powered colour-palette generator used by designers and data professionals) and **HowToSwiss.app** (relocation-guidance platform), applying end-to-end data and product skills.

Manager, Operations | Brillio (IT Consulting & Digital Transformation), Bangalore, India **Mar 2023 – May 2025**

- Cut manual reporting time by 60% by building interactive Power BI dashboards that unified invoicing, SLA, and operational KPIs, enabling real-time executive decisions.
- Reduced monthly close cycles by 40% and minimised errors by automating complex Excel consolidation workflows using advanced formulas, PivotTables, and Power Query.
- Integrated Power BI with Power Automate to monitor SLA compliance across 100+ engineers' Jira tickets, improving on-time resolution by 15%.
- Ensured a 99%+ first-pass invoice approval rate through rigorous Jira data validation and strict data normalisation and standardisation rules.
- Delivered monthly leadership presentations, translating complex performance metrics into concise summaries for strategic discussions.
- Mentored operations team members, reviewed analytical deliverables, established reporting standards, and supported performance-improvement initiatives.

Associate Director, Delivery Strategy, Planning & Operations | Movate (CSS Corp), India **Apr 2022 – Mar 2023**

- Produced weekly and monthly executive performance reports for top management, tracking key operational levers including predictive DBE, utilisation, and manpower planning to support strategic decision-making.
- Partnered with senior leadership to translate operational data into forward-looking insights, enabling proactive planning around resourcing, delivery performance, and margin.
- Set the reporting cadence and standards that gave leadership a single, reliable view of delivery-strategy performance across the portfolio.

Manager, Delivery Strategy, Planning & Operations | Movate (CSS Corp), India **Aug 2017 – Mar 2022**

- Standardised and built 10+ Power BI / Excel KPI dashboards, reducing manual reporting effort by 40% while boosting data accuracy and audit readiness.
- Authored and presented executive-ready decks for QBRs and company-wide events, turning complex analytics into decision-driving visuals for C-suite stakeholders.
- Produced weekly and monthly performance packs uniting financial, utilisation, and SLA data into a single view of productivity and margin trajectory.
- Partnered with delivery leads to safeguard contract revenue realisation, consolidating manpower plans for real-time insight into resource allocation and bench strength.

Senior Presentation Specialist | JP Morgan (Financial Services), Bangalore, India **Sep 2011 – Aug 2017**

- Designed and delivered high-quality, client-branded presentations and business documents, ensuring corporate compliance and meticulous proofreading for clarity and accuracy.

Document Specialist | Williams Lea (BPO), Chennai, India **Apr 2008 – Sep 2011**

- Produced high-stakes investment-banking documents (pitchbooks), maintaining strict client branding and corporate style across complex Word and PowerPoint formats.

Process Expert | Siemens Technologies, Chennai, India **Jun 2006 – Apr 2008**

- Executed a high-volume data-entry and historical data-migration project, converting scanned documents into an operational online database with rigorous verification and quality control.
