

More Corporate Video. Less Production Friction.

A professional production environment in Kingston 5 for marketing, communications, HR, product and executive teams that need polished video output — without rebuilding production from scratch every time.

MORE OUTPUT PER SHOOT

One planned session captures hero videos, cutdowns, leadership messages, demos and internal updates.

LOWER AVERAGE COST

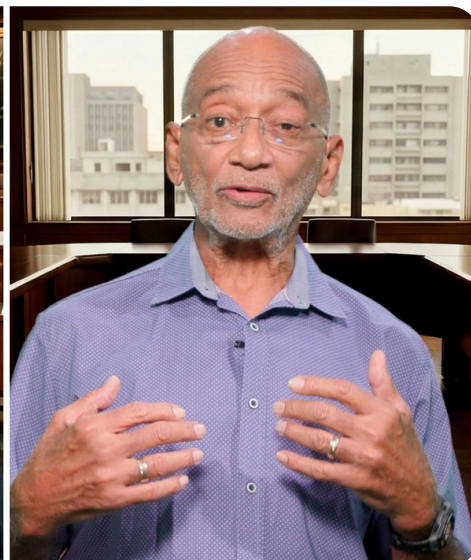

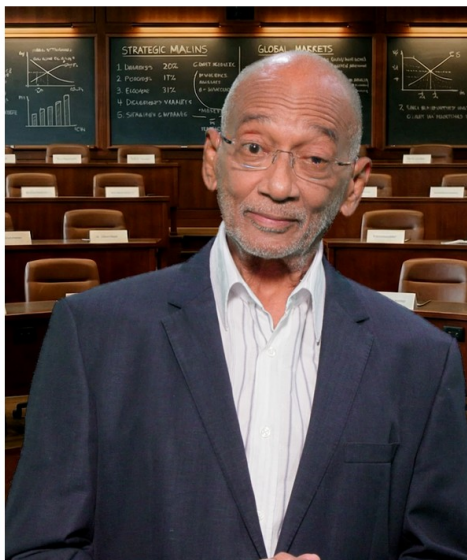

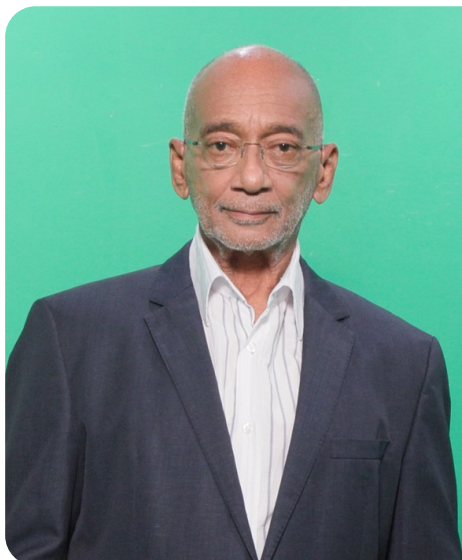

Batch production and repeatable formats can bring down the average cost of each finished video over time.

EASIER APPROVALS

Five client seats, live direction and a controlled setup make reviews less chaotic.

COMFORTABLE SHOOTS

A private studio flow removes location, weather, travel and set-build friction.

On the blue screen

On screen

Who this is for: Marketing managers, brand managers, communications leads, HR and internal comms teams, and executives — any company with a content calendar to feed and a brand to protect.

High-value corporate formats

CEO & leadership messages

Executive updates recorded comfortably, approved live, delivered everywhere.

Campaign videos & cutdowns

Hero film plus platform-specific versions from the same session.

Product demos & launches

Launch content on virtual sets — no location scout required.

Training & onboarding

Repeatable presenter formats that keep every module consistent.

Town halls, AGMs & livestreams

Studio 1 with audience capacity, switched and streamed live.

Podcasts & executive interviews

Thought-leadership series from the dedicated podcast room.

Testimonials & case studies

Customer stories shot in a controlled, professional setting.

Annual report & investor video

Stakeholder presentations that match the quality of the numbers.

The facility

Studio 1

Large white cyc main stage for panels, town halls, launches and ceremonies. Fits 6+ talent with live audience capacity. Flexible colour lighting; converts for green screen.

Studio 2

Dedicated green-screen studio for 1–2 presenters. Virtual sets, spokesperson videos and efficient repeatable formats.

Podcast Room

Intimate audio/video podcasts, interviews, executive conversations and thought-leadership series.

Control Room

Live switching, streaming, live editing and technical direction — with 5 client seats so your team approves looks and takes in real time.

Hero ads: the big campaign, brought down to size

THE LOCATION WAY

10 location sets · 20-person crew · 1 production bus

Permits, travel, weather and weeks on the road — for one finished cut.

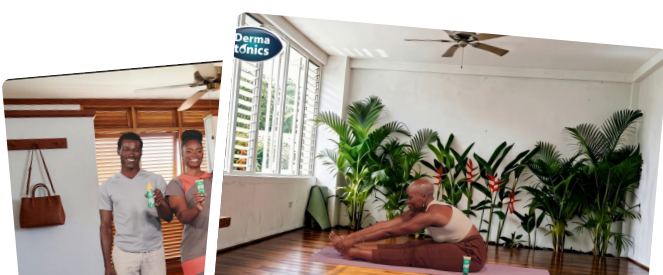

\$ \$ \$ \$

THE ADTELLIGENT WAY

1 studio · lean crew · 10 virtual sets

Every location built as a virtual set, shot in days — the hero film plus cutdowns from one session.

More output · lower cost

All of these were shot at Adtelligent Studios

Real client campaigns produced on our virtual production stage — here, Dermatonics in a family lifestyle set and a wellness studio, each built and composited live in-house.

Quick answers

Where is the studio?	Adtelligent Studios, 4 Sylvan Avenue, Kingston 5.
When can we tour?	Tours are scheduled individually based on availability — duration is confirmed tour by tour.
Can we make multiple videos in one shoot?	Yes, depending on scope. The studio is built for batch production and content repurposing.
Do we need a finished idea first?	No. The tour helps identify useful formats, next steps and possible packages.
Can we bring our own creative team?	Yes. The studio supports internal teams and agency teams with space, equipment, virtual production, live stream and technical support.
What does it cost?	Pricing and packages are quoted after the production scope is understood — the tour is the fastest way to get there.

Multi-platform output

TV | radio | social media | YouTube | Zoom | internal channels | live stream

Content built for websites, YouTube, LinkedIn, Meta, TikTok, internal channels, sales presentations, training and live events.

On the green screen

Composited live

On the finished set

Turn one shoot day into a month of content.

Tours are scheduled individually based on availability. Give your marketing team a faster, more comfortable way to produce high-quality video without the usual production stress.
