

— HANDS-ON MASTERCLASS

Get your HR team fluent in AI in half a day.

A practical, no-jargon session built around the tools and workflows your team already uses. Less theory, more doing. Everyone leaves knowing exactly where AI fits and how to use it well.

What your team walks away with

- A clear map of where AI fits across your current HR tools and processes
- Live demos run on your team's real scenarios, not generic examples
- Practical use cases for compliance, admin and people workflows
- Group exercises so the whole team levels up together, not just the keen ones
- A simple action plan your team can apply the very next morning

Choose your format

HALF DAY

CHF 2,500

Three hour masterclass. Focused, hands-on, ideal for getting a team moving quickly.

FULL DAY, CUSTOMISED

CHF 4,800

Tailored to your team after a prep call. Deeper coverage and time for your own use cases.

Delivered on site or remotely within Europe. Other locations subject to further discussion. Sessions delivered in English or Spanish. Prices exclude VAT and are invoiced in CHF from a Swiss entity. Travel and expenses are billed separately.
