GIS and Environmental Consultant

Savannah Environmental | Woodmead, Johannesburg

Permanent Position | Salary Negotiable

Savannah Environmental is seeking to appoint a motivated GIS and Environmental Consultant to join its Johannesburg team. This is an exciting opportunity for an individual with a background in GIS and environmental science to contribute to a wide range of project-related environmental work, including environmental screenings, environmental authorisation applications, public participation processes, GIS analysis, mapping, and data visualisation, within the renewable energy sector.

The successful candidate will support the delivery of environmental consulting services across a variety of renewable energy development and infrastructure projects, working within a dynamic and experienced team. The role is office-based at our Woodmead, Johannesburg offices.

Key responsibilities

- Assist with environmental screening and desktop environmental assessments
- Support and manage the preparation of environmental authorisation applications
- Assist with public participation processes
- Undertake GIS analysis, project-related mapping, and spatial data visualisation
- Provide GIS support for environmental projects and reporting
- Assist with compiling spatial outputs, figures, and maps for submissions and presentations
- Support broader environmental consulting tasks as required

Minimum requirements

- A relevant qualification in Environmental Science, Environmental Management, GIS, or a related field
- 1–2 years' experience preferred in GIS application and/or the environmental sector
- Strong interest in environmental consulting and project support work
- Good written and verbal communication skills
- Ability to work accurately, manage deadlines, and contribute effectively within a team

Preferred requirements

- Working knowledge of ArcGIS Pro
- Familiarity with the Environmental Impact Assessment Regulations
- EAPASA candidacy or membership will be an advantage

To apply

Please upload your CV (2–3 pages) and cover letter to the Savannah Environmental website.

Closing date for applications: 07 April 2026

If you do not receive a response by 14 April 2026, please consider your application unsuccessful.

Expected start date: April–May 2026

Savannah Environmental is a specialist environmental consulting company providing a holistic environmental management service, including environmental assessment and planning to ensure compliance and evaluate the risk of development, as well as the development and implementation of environmental management tools. Savannah Environmental benefits from the pooled resources, diverse skills, and experience in the environmental field held by its team.

The Savannah Environmental team has considerable experience in environmental authorisation processes and environmental management, and has been actively involved in undertaking environmental studies for a wide variety of projects throughout South Africa, including those associated with renewable electricity generation.
