

WEIRS

AVOID BEING STUCK

Not all weirs look the same.

Some have steps
Some have slopes
Some have rocks

What is a weir?

A barrier across the river used to change or stop the flow of a river.

Stay clear of a weir.

Check your route for weirs before paddling.

Get out well above the weir and walk around it , getting back on well below.

**If you get into trouble,
call 999 and ask for
fire & rescue.**
