WHAT IS REVS?

Australia's First National Property-Services Marketplace

EVERY PROPERTY TRANSACTION CREATES MULTIPLE OPPORTUNITIES

REVS is Australia's first national property-services marketplace.

It connects people, opportunities and transactions before, during and after a property sale or lease.

Every property transaction creates a range of needs. Open homes, inspections, photography, gardening, cleaning, conveyancing, finance, relocation assistance and dozens of other services all arise from the simple act of buying, selling or renting property.

REVS (Real Estate Valet Service) brings those opportunities together in one national marketplace.

THE FOUNDER STORY

WHY I BUILT REVS

ANDREW BLACHUT

Founder, REVS

Pioneer of Agent Assisted Private Sales

“ I love dismantling limitations and rebuilding possibilities. ”

MY STORY

I've spent my career challenging the status quo. Traditional real estate has always had the same problems: inefficiency, outdated systems, high costs and limited opportunities for everyday Australians.

So I built Agent Assisted Private Sales — a model that put more control back into the hands of property owners while still delivering professional support.

It worked. Thousands of Australians benefited from a smarter, fairer way to sell.

But I saw a bigger opportunity — one that could create value for far more people.

That's why I built **REVS**: a national property-services marketplace that connects people, opportunities and transactions across Australia.

REVS is the next evolution — and we're just getting started.

THE OPPORTUNITY

EVERY PROPERTY TRANSACTION CREATES MULTIPLE OPPORTUNITIES

Every property transaction creates a range of opportunities.

Before, during and after a property is sold or leased, people require services, assistance, expertise and local support.
