

ENTIRE IRE System

Revolutionizing Tissue Ablation in ENT

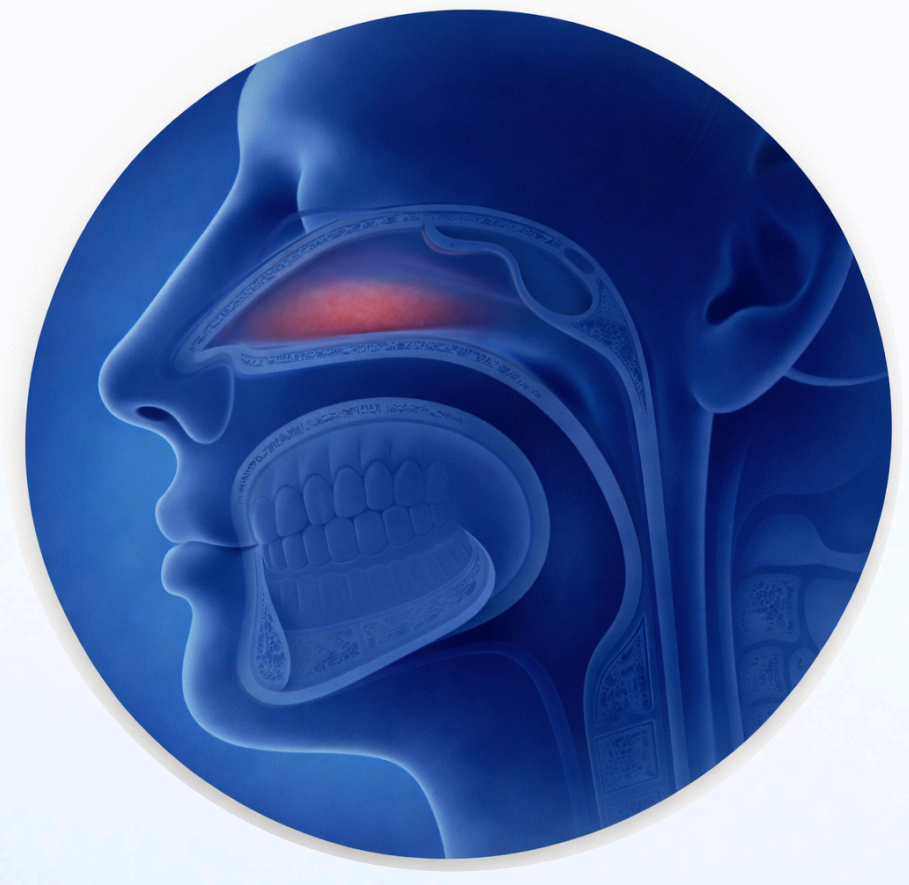

Irreversible Electroporation (IRE / PFA*) is delivered through a bipolar handpiece using ultra-short electrical pulses that trigger delayed cell apoptosis, resulting in the ablation of soft tissue.

**Adult
Tonsillar
Hypertrophy**

**Pediatric
Adenotonsillar
Hypertrophy**

**Inferior
Turbinate
Hypertrophy**

Clinical Benefits:

- ✓ Non-Invasive
- ✓ No Bleeding
- ✓ Minimal Pain
- ✓ Minimal Inflammation
- ✓ Short Procedure
- ✓ Fast Recovery
- ✓ Improved Wound Healing
- ✓ No Thermal Damage

*Pulsed Field Ablation
