WHY THE ALLSEASON CERTAINTEED PREMIER SYSTEM WINS

1 Heaviest Asphalt Density

Contains up to 15% more asphalt weight per square than competitors, preventing shingle curling, tear-offs, and degradation.

2 True 6-Layer Engineering

No mixed or cut-corner materials. Built using full perimeter WinterGuard® Ice & Water shield and DiamondDeck® heavy synthetic underlayment.

3 Direct Factory-Backed Warranty

As a Select ShingleMaster, our 25-year labor coverage is paid directly by CertainTeed—not third-party insurance or contractor promises.

4 Resale & Transfer Value

Unlike competitor warranties that cancel or strictly limit transfer terms after 10 years, CertainTeed's 5-STAR warranty protects home resale value.

AllSeason Solar & Roofing is a credentialed **CertainTeed Select ShingleMaster Premier Contractor**. 5-STAR warranties are registered directly with CertainTeed.
