

Helping People Get Out of Debt Faster, Smarter, and with the Right Support

Jubilee Relief Hub is a financial connection platform that matches individuals to the right debt relief resources based on their real situation not guesswork.

WHO WE ARE

Jubilee Relief Hub is a financial information and referral platform. We do not provide financial services directly; instead, we connect users to trusted, vetted partners. Our primary focus is on helping people navigate and exit debt with absolute clarity.

WHY THIS MATTERS

- Most people don't fail because they lack options, they fail because the options don't fit.
- Too often, solutions are generic, overwhelming or misaligned with their needs and behavior.
- As a result, many drop off before every getting the help they need.

People Don't Need More Debt Relief Options. They Need the Right **Solution**.

OUR APPROACH

- Jubilee evaluates multiple factors about a user's financial situation.
- We align users with relevant, eligible support options.
- We prioritize quality over quantity.
- Better alignment leads to stronger engagement and higher conversion potential.

Not More Options. Better Matches.
