2. PURPOSE OF A CONFLICT OF INTEREST MANAGEMENT POLICY

Within Novare a diverse range of financial services are offered, including but not limited to implemented consulting and alternative investments. Given the nature of the business, conflicts of interest might be inherent to the business of a particular FSP or its related parties.

Novare and its representatives are committed towards acting within the best interests of our clients and to avoid all conflict of interests in relation to the provision of financial services. Where we are unable to avoid a conflict of interest, we will take all necessary precautions to ensure that any actual or potential conflict of interest is mitigated and adequately disclosed to our clients.

Management has adopted a Conflict of Interest Management policy to provide for the effective management of any actual or potential conflicts of interest that may arise wholly or partially, in relation to the provision of financial services.

The purpose of the Conflict of Interest Management Policy is therefore to:

- establish internal controls and mechanisms towards the identification of conflicts of interest
- establish measures to avoid conflicts of interest, and where avoidance is not possible, to provide the reasons therefore
- establish measures to ensure that any unavoidable conflicts of interest are mitigated
- establish measures to ensure the proper disclosure of any conflicts of interest
- establish processes, procedures and internal controls to facilitate compliance with the policy
- communicate the consequences of non-compliance with the policy

3. IDENTIFYING A CONFLICT OF INTEREST

3.1 INDIVIDUAL IDENTIFICATION

The primary responsibility for the identification of a conflict of interest rests with the representatives, employees and individual members of the governing body of Novare.

Throughout the process of rendering a financial service to a client, a representative must apply his or her mind to answering the following questions:

- is there any situation that exists that influences the objective performance of my obligations to my client?
- is there any situation that exists that prevents me from rendering an unbiased and fair financial service to my client?
- is there any situation that exists that prevents me from acting in the best interest of my client?

If the answer to all three questions is “no”, then there is no conflict of interest associated with the financial service and the representative may proceed.

If the answer to any one of the three questions is “yes”, the representative must proceed to answer the following additional questions:

- is the situation caused because of an actual or potential relationship with a third party? (see definition of “third party”)
- is the situation caused by an actual or potential financial or ownership interest? (see definition of “financial interest” and “ownership interest”)

If the answer to any one of these questions is “yes”, an actual or potential conflict of interest will have been identified.

3.2 FURTHER GUIDANCE ON IDENTIFYING A CONFLICT OF INTEREST

The definition of a Conflict of Interest incorporates the following terminology:

- influence the “**objective performance**” of his, her or its obligations to that client....
- prevent a provider or representative from rendering an “**unbiased and fair financial service**” to that client
- including but not limited to a “**financial interest**”

It is generally understood that the word “objective” refers to a situation where an individual’s personal feelings or opinions are completely removed from the equation. The “objective performance” of an FSP or representative’s obligations therefore implies a situation where financial services are rendered without any untoward influences.

The word “bias” or “biased” is understood to mean a form of prejudice towards a particular person or viewpoint, whereas the word “fair” or “fairness” indicates a situation of just circumstances or being treated on an equal footing. An unbiased financial service therefore implies a financial service that does not lend itself to a particular persuasion, where no reasonable justification for such persuasion can be found. Similarly, a fair financial service implies a situation where the same conclusion or outcome will consistently present itself given the exact same set of circumstances.

Subject to section 3A(1)(c) of the General Code of Conduct, Novare and its representatives may only receive or offer the following “financial interest” from or to a “third party”:

- **commission** authorised under the Long-term Insurance Act, Short-term Insurance Act or under the Medical Schemes Act
- **fees** authorised under the Long-term Insurance Act, the Short-term Insurance Act or the Medical Schemes Act, if those fees are reasonably commensurate to a service being rendered
- **fees** for the rendering of a financial service in respect of which commission or fees referred to above is not paid, if those fees:
 - are specifically agreed to by a client in writing; and
 - may be stopped at the discretion of that client
- **fees or remuneration** for the rendering of a service to a third party, which fees or remuneration are reasonably commensurate to the service being rendered
- an **immaterial financial interest** (subject to any other law)
- a **financial interest, not referred to above** for which a consideration, fair value or remuneration that is reasonably commensurate to the value of the financial interest, is paid by that FSP or representative at the time of receipt thereof

Novare will not offer any financial interest to its representatives for:

- giving preference to the **quantity of business** secured for Novare to the exclusion of the quality of the service rendered to clients; or
- giving preference to a **specific product supplier**, where a representative may recommend more than one product supplier to a client; or
- giving preference to a **specific product of a product supplier**, where a representative may recommend more than one product of that product supplier to a client.
