Our Options for a Wedding

We offer several options to celebrate your dream wedding, it depends on the number of people, how long they want to be there, whether they want a reception with food or just lunch or dinner. We have prepared modules where you can choose or prepare a completely customized wedding.

With a Wedding, only the entire restaurant is rented to give complete privacy to the new couple and their Family without having anyone outside the wedding.

To have the restaurant completely private we ask for a rent of €3000 which is paid upon reservation of the date. The rental includes the privacy of the restaurant for a whole day from 10 a.m. to 1 a.m.

Wedding Options

For the wedding we work with several options that you can choose from.

1 Ceremony:

In the restaurant. We offer the couple the possibility of celebrating the ceremony in our restaurant, which can be done on one of the 3 small terraces we have.

There, some chairs will be set up, a small altar and some Roman chairs for the Couple.

The price of preparing the terrace and chairs starts at €500 depending on the number of chairs to be prepared. At the ceremony we can offer all types of drinks, but we suggest only fresh water with mint and lime flavor included in the price.

2 Cocktail Parties:

To continue after the ceremony we can offer a cocktail party that is held on the 3 small terraces, which have their respective umbrellas, tables and chairs.

The cocktail party is the welcome for guests where you can offer anything from just a glass of cava to a complete reception with drinks and Tapas.

The menu does not include drinks and we also have modules from 36 euros per person for our recommended wines, serving a white wine (rueda) and a red wine (rioja or Ribera del Duero).

4 Decoration and Accessories:

We leave the couple completely free to choose their trusted people for decoration, flowers, photographers, music and or DJ.

But if you prefer, we can offer all these services with the people we usually work with.

The prices are very competitive and market-specific and the good thing is that they know the restaurant.

We put you in contact with the professionals you choose and talk everything with them or if you prefer, we offer the complete service.

For music it is important to know that you can catch live music or a DJ but it has a maximum time limit of 1am in the morning maximum if you are inside the place where we usually set up the music and the DJ.

Outside, due to noise reasons, you can only play live music or a DJ until 10:30 p.m.

5 Parking and Transportation.

As the restaurant is located right on the beach, we do not have parking for the restaurant and it is always better to hire a bus to drop off the guests right on the promenade and have a bus or taxi service reserved for the trip.
