FIRM BROCHURE**

This brochure provides information about the qualifications and business practices of Wealth Intelligently Navigated, LLC. If you have any questions about the contents of this brochure, please contact us at (864) 375-4031. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Wealth Intelligently Navigated, LLC is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for Wealth Intelligently Navigated, LLC is 340998.

Wealth Intelligently Navigated, LLC is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Material Changes

Annual Update

The Material Changes section of this brochure will be updated annually or when material changes occur since the previous release of the Firm Brochure. Each year, we will ensure that you receive a summary of any material changes to this and subsequent brochures by April 30th. We will further provide you with our most recent brochure at any time at your request, without charge. You may request a brochure by contacting us at (864) 375-4031.

Material Changes since the Last Update

Wealth Intelligently Navigated, LLC was established as a new Registered Investment Advisor in March 2026 with the Securities and Exchange Commission ("SEC"), under the rules and regulations of the US Investment Advisers Act of 1940, as amended (the "Advisers Act"). The following material changes have occurred since that initial filing:

- Anthony Mahfood became a principal owner of WIN on July 1, 2026.

Advisory Business

Wealth Intelligently Navigated, LLC (hereinafter called "WIN") is a Registered Investment Adviser based in Spartanburg, South Carolina, and incorporated under the laws of the State of South Carolina. WIN is owned by Steven Tolleson and Anthony Mahfood. WIN is registered with the SEC and subject to the rules and regulations of the Advisers Act. Founded in March 2026, WIN provides investment advisory services, which may include, but are not limited to, the review of client investment objectives and goals, recommending asset allocation strategies of managed assets among investment products such as cash, stocks, mutual funds and bonds, annuities, and/or preparing written investment strategies. Our investment advice is tailored to meet our clients' needs and investment objectives. Clients may impose restrictions on investing in certain securities or types of securities (such as a product type, specific companies, specific sectors, etc.) by providing a signed and dated written notification, of which an e-mail is also an acceptable form of notification. WIN also provides financial planning consulting services including, but not limited to, risk assessment/management, investment planning, financial organization, or financial decision making/negotiation.

WIN provides investment advisory and other financial services through its Investment Advisory Representatives ("IAR") to accounts opened with WIN. Managed Accounts are available to individuals and high net worth individuals.

WIN provides discretionary and non-discretionary investment advisory services to some of its clients through various managed account programs. WIN will assist clients in determining the suitability of the Managed Account Programs for the client. The IAR is compensated through a comprehensive single fee and the account may be assessed other charges associated with conducting a brokerage business. WIN and its IAR, as appropriate, will be responsible for the following:

- Performing due diligence
- Recommending strategic asset and style allocations
- Providing research on investment product options, as needed
- Providing client risk profile questionnaire
- Obtaining investment advisory contract from client with required financial, risk tolerance, suitability and investment vehicle selection information for each new account
- Performing client suitability check on account documentation, review the investment objectives and evaluate the investment vehicle selections
- Providing Firm Brochure (this document)

Estate Planning

WIN provides estate planning services, including, but not limited to, general estate tax education and guidance, general trust guidance – types and features, general explanation of estate planning structures/documents, general explanation of estate planning and gifting strategies, general explanation of taxation issues of trusts and estates, general explanation of types and treatment of trust income, general guidance on sources of estate liquidity, general guidance on ownership

titles and titling of assets, general guidance on the impact of account and trust beneficiary designations, and assistance with gathering information to input in to the third-party vendor's software.

The general nature of the matters for which the third-party vendor will be compensated pursuant to the Agreement includes preparation of estate planning documents, preparation and recordation of real estate deeds into trust, and review of information transmitted by Clients to make certain estate planning goals are adequately met.

Representatives of WIN are not licensed attorneys and will be giving no legal advice, creating no legal documents, and are not acting in the capacity of attorneys as part of the engagement. Clients should understand that the third-party vendor enables Clients to create their own legal documents through the third-party vendor's interactive software. Clients should also understand that the third-party vendor is not their attorney.

Third-Party Money Managers

WIN, in providing the services agreed upon with the client, may recommend a third-party money manager (the "Sub-Advisor"), an unaffiliated investment adviser registered under applicable securities laws, as a Sub-Advisor to manage all or a portion of the managed assets in the Client's account. WIN offers these services based on the individual goals, objectives, time horizon, and risk tolerance of each client. If it is determined that the portfolio management services offered by a Sub-Advisor are in the best interest of the client, WIN will utilize the Sub-Advisor to manage the client assets. If this occurs, WIN will be responsible for the continuing supervision of the Client's account, and the actions of the Sub-Advisor in connection with the Client's account and the managed assets. Use of unaffiliated investment advisory firms as Sub-Advisor are recommended to assist us with the development and recommendation of appropriate investment options for your account(s). The Agreement of the Sub-Advisor will grant the Sub-Advisor discretionary authority to manage the assets. The Sub-Advisor recommended by WIN is an investment adviser registered under applicable securities laws, and they may manage all or a portion of the managed assets in the client's account. WIN also will be responsible for the payment of any advisory fee or other charges of the Sub-Advisor with respect to the managed assets unless or except as specifically authorized in advance by the Client.

The firm currently has \$530,330,000 in discretionary assets under management and \$2,590,068 in non-discretionary assets under management as of July 16, 2026.

Form ADV, Part 2A, Item 5

Fees and Compensation

The following types of fees will be assessed:

Asset Management – Fees are charged quarterly in advance and are based primarily on asset size and the level of complexity of the services provided. In individual cases, WIN has the sole discretion to negotiate fees that are lower than the standard fee shown or to waive fees. Fees are

not based on the share of capital gains or capital appreciation of the funds or any portion of the funds. Comparable services for lower fees may be available from other sources. Fees for the initial quarter will be prorated based upon the number of calendar days in the calendar quarter that the advisory agreement is in effect. Fees are based on the market value of the assets on the last business day of the previous quarter. Annual fees are a maximum of 2.00%. If applicable, the asset management fee for any “held away” 401K accounts will be a maximum of 1.00%. Consulting services are included in these fees for asset management services with the exception of unique circumstances that may require a separate agreement for financial planning services (description and fees are discussed below). If the situation warrants separate financial planning fees, it will be discussed upfront, and a separate agreement will be negotiated.

For clients utilizing a Sub-Advisor for asset management services, the fee stated above will include the Sub-Advisor’s fee. Clients will receive the Sub-Advisors’ Form ADV Part 2A reflecting such fees. As authorized in the client agreement, the account custodian withdraws WIN’s advisory fees directly from the clients’ accounts according to the custodian’s policies, practices, and procedures. The custodian will send the client a statement at least quarterly which includes the amount of any fees paid to WIN for advisory services. You should carefully review the statement from your custodian/broker-dealer’s statement and verify the calculation of fees. Your custodian/broker-dealer does not verify the accuracy of fee calculations. Clients are urged to compare the account statements received from the custodian with any reports received from WIN and notify the firm promptly of any discrepancies.

Fees are charged in advance on a quarterly basis, meaning that advisory fees for a quarter are charged on the first day of the quarter. Clients may terminate investment advisory services obtained from WIN, without penalty, upon written notice within five (5) business days after entering into the advisory agreement with WIN. The client is responsible for any fees and charges incurred by the client from third parties as a result of maintaining the account such as transaction fees for any securities transactions executed and account maintenance or custodial fees. Thereafter, the client may terminate advisory services upon written notice delivered to and received by WIN. Clients who terminate investment advisory services during a quarter are charged a prorated advisory fee based on the date of WIN’s receipt of client’s written notice to terminate. Any earned but unpaid fees are immediately due and payable, and any prepaid and unearned fees will be immediately refunded. All funds under management shall be liquidated or transferred at market value as of the date of liquidation or transfer.

Financial Planning – Financial planning services are charged in advance through a fixed fee or in arrears through an hourly arrangement as agreed upon between the client and Wealth Intelligently Navigated, LLC. There will never be an instance where \$1,200 or more in fees is charged six or more months in advance. Hourly fees are generally charged when the scope of services cannot be determined or if the services are limited to one meeting. Fixed fees are generally quoted to the client for longer term consulting projects. Fees are negotiable and vary depending upon the complexity of the client situation and services to be provided. Hourly fees range from \$250 - \$500 per hour, depending on what is negotiated between WIN and the client. Similar financial planning services may be available elsewhere for a lower cost to the client. Fixed fees for longer-term consulting projects range from \$1,200 to \$20,000 per project. An estimate for total hours and charges is determined at the start of the advisory relationship.

Typically, clients will be invoiced quarterly for all time spent by WIN as agreed upon by client or upon completion of the services if less than a quarter. Clients who wish to terminate the planning process prior to completion may do so with written notice. The client may obtain a refund of a pre-paid fee if the advisory contract is terminated before the end of the billing period by contacting Steven Tolleson at (864) 375-4031. Upon receipt of written notification, any earned fee will immediately become due and payable, and any prepaid and unearned fees will be immediately refunded. A client may terminate an advisory agreement without being assessed any fees or expenses within five (5) days of its signing.

Estate Planning – Estate planning services are charged in advance through a fixed fee as agreed upon between the client and Wealth Intelligently Navigated, LLC. There will never be an instance where \$1,200 or more in fees is charged six or more months in advance. Fees are negotiable and vary depending upon the complexity of the client situation and services to be provided. Similar financial planning services may be available elsewhere for a lower cost to the client. Fixed fees for estate planning projects range from \$1,000 to \$3,000 per project.

Additional Fees and Expenses

In addition to advisory fees paid to WIN as explained above, clients may pay custodial service, account maintenance, transaction, and other fees associated with maintaining the account. These fees vary by broker and/or custodian. Clients should ask WIN for details on transaction fees or other custodial fees specific to their account, as these fees are not included in the annual advisory fee. WIN does not share any portion of such fees. Additionally, for any mutual funds purchased, the client may pay their proportionate share of the funds' distribution, internal management, investment advisory and administrative fees. Such fees are not shared with WIN and are compensation to the fund manager. Clients are urged to read the mutual fund prospectus prior to investing.

Mutual fund companies impose internal fees and expenses on clients. These fees are in addition to the costs associated with the investment advisory services as described above. Complete details of such internal expenses are specified and disclosed in each mutual fund company's prospectus. Clients are strongly advised to review the prospectus(es) prior to investing in such securities.

Mutual funds purchased or sold in broker-dealer accounts may generate transaction fees that would not exist if the purchase or sale were made directly with the mutual fund company. Mutual funds held in broker-dealer accounts also charge management fees. These mutual fund management fees may be more or less than the mutual fund management fees charged if the client held the mutual fund directly with the mutual fund company.

Clients may purchase shares of mutual funds directly from the mutual fund issuer, its principal underwriter, or a distributor without purchasing the services of WIN or paying the advisory fee on such shares (but subject to any applicable sales charges). Certain mutual funds are offered to the public without a sales charge. In the case of mutual funds offered with a sales charge, the prevailing sales charge (as described in the mutual fund prospectus) may be more or less than the applicable advisory fee. However, clients would not receive WIN's assistance in developing an

investment strategy, selecting securities, monitoring performance of the account, and making changes as necessary.

Please refer to Item 12 “Brokerage Practices” of this brochure for additional information.

Form ADV, Part 2A, Item 6

Performance-Based Fees and Side-By-Side Management

Wealth Intelligently Navigated, LLC does not charge performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or appreciation of the assets of a client. Our fees are calculated as described in Fees and Compensation section above and are not charged on the basis of performance of your advisory account.

Form ADV, Part 2A, Item 7

Types of Clients

WIN offers investment advisory services to individuals and high net worth individuals. There is no minimum account size to open and maintain an advisory account.

Form ADV, Part 2A, Item 8

Methods of Analysis, Investment Strategies, and Risk of Loss

WIN’s methods of analysis and investment strategies incorporate the client’s needs and investment objectives, time horizon, and risk tolerance. WIN is not bound to a specific investment strategy for the management of investment portfolios but rather consider the risk tolerance levels pre-determined at the account opening, as well as on an on-going basis. Examples of methodologies that our investment strategies may incorporate include:

Asset Allocation – Asset Allocation is a broad term used to define the process of selecting a mix of asset classes and the efficient allocation of capital to those assets by matching rates of return to a specified and quantifiable tolerance for risk.

Dollar-Cost Averaging – Dollar-cost averaging is the technique of buying a fixed dollar amount of securities at regularly scheduled intervals, regardless of the price per share. This will gradually, over time, decrease the average share price of the security. Dollar-cost averaging lessens the risk of investing a large amount in a single investment at the wrong time.

Technical Analysis – involves studying past price patterns and trends in the financial markets to predict the direction of both the overall market and specific stocks.

Long-Term Purchases – securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.

Short-Term Purchases – securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short term price fluctuations.

Our strategies and investments may have unique and significant tax implications. Regardless of your account size or other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Investing in securities involves risk of loss that clients should be prepared to bear. Although we manage your portfolio with strategies and in a manner consistent with your risk tolerances, there can be no guarantee that our efforts will be successful. You should be prepared to bear the risk of loss.

All investments involve the risk of loss, including (among other things) loss of principal, a reduction in earnings (including interest, dividends, and other distributions), and the loss of future earnings. These risks include market risk, interest rate risk, issuer risk, and general economic risk. Regardless of the methods of analysis or strategies suggested for your particular investment goals, you should carefully consider these risks, as they all bear risks.

WIN's primary goal for investing is to help the client maintain purchasing power over the long term. This may result in short term variability and loss of principal. Time horizon and risk tolerance are key determinates of the proper asset allocation. WIN's approach focuses on taking appropriate risks for which clients are compensated (i.e. market risk) and seeking to limit or eliminate risks that do not provide compensation over the long term (i.e. individual stock risk or lack of portfolio risk).

Below are some more specific risks of investing:

Market Risk. The prices of securities in which clients invest may decline in response to certain events taking place around the world, including those directly involving the companies whose securities are owned by the client or an underlying fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. Investors should have a long-term perspective and be able to tolerate potentially sharp declines in market value.

Management Risk. WIN's investment approach may fail to produce the intended results. If our perception of the performance of a specific asset class or underlying fund is not realized in the expected time frame, the overall performance of client's portfolio may suffer.

Equity Risk. Equity securities tend to be more volatile than other investment choices. The value of an individual mutual fund or ETF can be more volatile than the market as a whole. This

volatility affects the value of the client's overall portfolio. Small- and mid-cap companies are subject to additional risks. Smaller companies may experience greater volatility, higher failure rates, more limited markets, product lines, financial resources, and less management experience than larger companies. Smaller companies may also have a lower trading volume, which may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies.

Fixed Income Risk. The issuer of a fixed income security may not be able to make interest and principal payments when due. Generally, the lower the credit rating of a security, the greater the risk that the issuer will default on its obligation. If a rating agency gives a debt security a lower rating, the value of the debt security will decline because investors will demand a higher rate of return. As nominal interest rates rise, the value of fixed income securities is likely to decrease. A nominal interest rate is the sum of a real interest rate and an expected inflation rate.

Municipal Securities Risk. The value of municipal obligations can fluctuate over time, and may be affected by adverse political, legislative and tax changes, as well as by financial developments that affect the municipal issuers. Because many municipal obligations are issued to finance similar projects by municipalities (e.g., housing, healthcare, water and sewer projects, etc.), conditions in the sector related to the project can affect the overall municipal market. Payment of municipal obligations may depend on an issuer's general unrestricted revenues, revenue generated by a specific project, the operator of the project, or government appropriation or aid. There is a greater risk if investors can look only to the revenue generated by the project. In addition, municipal bonds generally are traded in the "over-the-counter" market among dealers and other large institutional investors. From time to time, liquidity in the municipal bond market (the ability to buy and sell bonds readily) may be reduced in response to overall economic conditions and credit tightening.

Investment Companies Risk. When a client invests in open end mutual funds or ETFs, the client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the client will incur higher expenses, many of which may be duplicative. In addition, the client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. WIN has no control over the risks taken by the underlying funds.

Artificial Intelligence and Machine Learning Risk. Certain service providers utilized by the Firm to service client accounts have artificial intelligence components. The use of artificial intelligence and machine learning includes increased risk of data inaccuracies and security vulnerabilities. Due to the rapid advancement of machine learning technologies, future risks related to artificial intelligence are unpredictable. As a measure to mitigate these risks to our clients, the Firm performs periodic due diligence of our service providers for assurance that the

service providers have appropriate controls in place to protect our clients' information and to limit data inaccuracies when artificial intelligence is used by the service provider.

Form ADV, Part 2A, Item 9

Disciplinary Information

Wealth Intelligently Navigated, LLC or its Principal Executive Officers have not had any reportable disclosable events in the past ten years.

Form ADV, Part 2A, Item 10

Other Financial Industry Activities and Affiliations

Steven Tolleson and Anthony Mahfood, owners of WIN, are not currently registered with any broker dealer.

Neither WIN nor its representatives are registered as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor.

Some representatives of WIN are also licensed insurance agents. From time to time, they will offer clients advice or products from those activities. Clients should be aware that these services pay a commission and involve a possible conflict of interest, as commissionable products can conflict with the fiduciary duties of a registered investment adviser. WIN always acts in the best interest of the client, including the sale of commissionable products to advisory clients. Clients are in no way required to implement the plan through any representative of WIN in their capacity as an insurance agent. Not more than 30% of representative's time is spent on this activity.

Form ADV, Part 2A, Item 11

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

WIN's Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect client interests at all times and to demonstrate our commitment to fiduciary duties of honesty, good faith, and fair dealing. All of WIN's Associated Persons are expected to strictly adhere to these guidelines. Persons associated with Wealth Intelligently Navigated, LLC are also required to report any violations to the Code of Ethics. Additionally, the firm maintains and enforces written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about our clients or client accounts by persons associated with our firm.

WIN and its employees may buy or sell securities that are also held by clients. It is the expressed policy of the advisor that no person employed by our firm purchase or sell any security prior to the

transaction being implemented for an advisory account; therefore, preventing such employees from benefiting from transactions placed on behalf of the advisory clients.

The advisor may have an interest or position in a certain security, which may also be recommended to the client. As these situations may present a conflict of interest, the advisor has established the following restrictions in order to ensure its fiduciary responsibilities should this issue ever arise:

1. A director, officer or employee of the advisor shall not buy or sell a security for their personal portfolio(s) where their decision is substantially derived, in whole or part, by reason of his or her employment, unless the information is also available to the investing public. No owner/employee of WIN shall prefer their own interest to that of the client.
2. The advisor maintains a list of all securities held by the company and all directors, officers, and employees. These holdings are reviewed on a quarterly basis by the principal of the firm.
3. The advisor requires that all employees must act in accordance with all applicable Federal and State regulations governing registered investment advisors.
4. The advisor may block personal trades with those of clients but will ensure that clients are not at a disadvantage.

WIN's Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting Steven Tolleson at (864) 375-4031.

Form ADV, Part 2A, Item 12

Brokerage Practices

In order for WIN to provide asset management services, we request you utilize the brokerage and custodial services of Charles Schwab & Co., Inc. ("Schwab"), for which we have an existing relationship. WIN and Schwab are not affiliated companies. In considering which independent qualified custodian will be the best fit for WIN's business model, we are evaluating the following factors, which is not an all-inclusive list:

- Financial strength
- Reputation
- Reporting capabilities
- Execution capabilities
- Pricing, and
- Types and quality of research

While you are free to choose any broker-dealer or other service provider, we recommend that you establish an account with a brokerage firm with which we have an existing relationship. Such relationships may include benefits provided to our firm, including, but not limited to research, market information, and administrative services that help our firm manage your account(s). We believe that recommended broker-dealers provide quality execution services for our clients at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by the recommended

broker-dealers, including the value of research provided, the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm.

You may direct us in writing to use a particular broker-dealer to execute some or all of the transactions for your account. If you do so, you are responsible for negotiating the terms and arrangements for the account with that broker-dealer. We may not be able to negotiate commissions, obtain volume discounts, or best execution. In addition, under these circumstances a difference in commission charges may exist between the commissions charged to clients who direct us to use a particular broker or dealer and other clients who do not direct us to use a particular broker or dealer.

WIN does not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

WIN does not have any formal soft dollar arrangements.

When WIN buys or sells the same security for two or more clients (including our personal accounts), we may place concurrent orders to be executed together as a single "block" in order to facilitate orderly and efficient execution. Each client account will be charged or credited with the average price per unit. We receive no additional compensation or remuneration of any kind because we aggregate client transactions. No client is favored over any other client. If an order is not completely filled, it is allocated pro-rata based on an allocation statement prepared by WIN prior to placing the order. Because of an order's aggregation, some clients may pay higher transaction costs, or greater spreads, or receive less favorable net prices on transactions than would otherwise be the case if the order had not been aggregated.

Participant Account Management (Discretionary)

We use a third-party platform to facilitate management of held away assets such as defined contribution plan participant accounts, with discretion. The platform allows us to avoid being considered to have custody of Client funds since we do not have direct access to Client log-in credentials to affect trades. We are not affiliated with the platform in any way and receive no compensation from them for using their platform. A link will be provided to the Client allowing them to connect an account(s) to the platform. Once Client account(s) is connected to the platform, Adviser will review the current account allocations. When deemed necessary, Adviser will rebalance the account considering client investment goals and risk tolerance, and any change in allocations will consider current economic and market trends. The goal is to improve account performance over time, minimize loss during difficult markets, and manage internal fees that harm account performance. Client account(s) will be reviewed at least quarterly, and allocation changes will be made as deemed necessary.

Review of Accounts

Client accounts are reviewed at least quarterly by Steven Tolleson, Principal Executive Officer of the firm. Steven Tolleson reviews clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at WIN are assigned to this reviewer.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Steven Tolleson, Principal Executive Officer of the firm. There is only one level of review and that is the total review conducted to create the financial plan.

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

Each client will receive at least quarterly a written report that details the clients' account which may come from the custodian. Clients are encouraged to review these statements to verify accuracy and calculation correctness.

Clients are provided a one-time financial plan concerning their financial situation. After the presentation of the plan, there are no further reports. Clients may request additional plans or reports for a fee.

Client Referrals and Other Compensation

WIN does not compensate any individual or firm for client referrals. In addition, WIN does not receive compensation for referring clients to other professional service providers.

Custody

WIN does not have physical custody of any client funds and/or securities and does not take custody of client accounts at any time. Client funds and securities will be held with a bank, broker dealer, or other independent qualified custodian. However, by granting WIN written authorization to automatically deduct fees from client accounts, WIN is deemed to have limited custody. You will receive account statements from the independent, qualified custodian holding your funds at least quarterly. The account statement from your custodian will indicate the amount of advisory fees deducted from your account(s) each billing cycle. Clients should carefully review statements received from the custodian.

Investment Discretion

Before WIN can buy or sell securities on your behalf, you must first sign our discretionary management agreement, a limited power of attorney, and/or trading authorization forms. By choosing to do so, you may grant the firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. Clients may impose limitations on discretionary authority for investing in certain securities or types of securities (such as a product type, specific companies, specific sectors, etc.), as well as other limitations as expressed by the client. Limitations on discretionary authority are required to be provided to the IAR in writing. Please refer to the “Advisory Business” section of this Brochure for more information on our discretionary management services.

Voting Client Securities

We do not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Security Claims Class Action Litigation

Wealth Intelligently Navigated, LLC (WIN) has engaged a third-party service provider, Chicago Clearing Corporation (CCC), to monitor and file securities claims class action litigation paperwork with claims administrators on behalf of the Firm’s clients. When a claim is settled and payments are awarded to Maple Capital Management clients, it may be necessary to share client information, such as name and account number, with CCC in connection with this service.

Wealth Intelligently Navigated, LLC (WIN) does not receive any fees or remuneration in connection with this service nor does it receive any fees from the third-party provider(s). CCC earns a fee based on a flat percentage of all claims it collects on behalf of firm’s clients. This fee is collected and retained by CCC out of the claims paid by the claim administrator. Clients may opt out of this service at any time. If a client opts out, Wealth Intelligently Navigated, LLC (WIN) does not have an obligation to advise or take any action on behalf of a client with regard to class action litigation involving investments held in or formerly held in a client’s account.

Class Action Claims

In May of 2026, we began providing class action litigation monitoring and securities claim filing services through an independent third party, Chicago Clearing Corporation ("CCC"). You are included in this service unless you choose to opt out. You may change your opt-out election at any time by notifying us in writing. If you participate in this service, CCC will retain 15% of each claim recovery you receive. We have the right to change the provider of this service. If we do, we will notify you and send you another opt-out election form.

Because we are providing this service through CCC, we no longer monitor class action suits or process claim forms on your behalf (whether or not you participate in the service CCC provides). We are not responsible or liable for: (a) any assistance we provide to CCC concerning monitoring or processing class action claims or (b) any CCC act in monitoring or processing such claims.

Form ADV, Part 2A, Item 18

Financial Information

WIN is not required to provide financial information to our clients because we do not require or solicit the prepayment of more than \$1,200 six or more months in advance.

Form ADV, Part 2A, Item 19

Requirements for State-Registered Advisers

This section is not applicable as WIN is SEC registered and not state registered.
