ENVIRONMENTAL PROTECTION ACT 1990
Section 37

NOTICE OF MODIFICATION OF WASTE MANAGEMENT LICENCE

To C H Middleton Limited
65/71 Sprotbrough Road
DONCASTER
DN5 8BW

WHEREAS on 11 July 1984 the South Yorkshire County Council

granted to you a Waste Disposal Licence (now to be treated as a Waste Management Licence) (Reference WD20 D423) relating to a Transfer Station situated at the depot/yard, 65/71 Sprotbrough Road, Doncaster, DN5 8BW.

Ordnance Survey Grid Reference: SE 5640 0390

subject to the conditions set out therein

~~[AND WHEREAS on 19 you applied to the to modify the said conditions]~~

NOTICE is HEREBY GIVEN that the Environment Agency ("the Agency") modifies the said conditions as follows:-

The Schedule of Conditions, Waste Management Licence Reference Number WD20 D423, Modification 4, shall be deleted and the attached Schedule of Conditions, Waste Management Licence Reference Number WD20 D423, Modification 5, shall be substituted.

Such modification shall take effect on 1 September 1997 at 1200 hours.

~~*[In the opinion of the Agency it is necessary for the purpose of preventing pollution of the environment or harm to human health that Section 43[4] of the Environmental Protection Act 1990 should not apply.]~~

DATED 28th August 1997 (Signed) [signature]

(Designation) Waste Regulation Manager - Ridings Area

N.B. - The person served with this notice may appeal against the Agency's decision to the Secretary of State within six months or such longer period as the Secretary of State may allow. (See notes overleaf.)

*[The person on whom this notice is served may also make application to the Secretary of State for a ruling as to whether the Agency has acted reasonably in including the above statement as to the non-application of Section 43[4] of the Act. - [See notes overleaf.]

S37 NOTES

Appeals

If a licence holder is aggrieved by the decision of the Agency in modifying conditions specified in a Waste Management Licence he may appeal to the Secretary of State in accordance with Section 43 of the Environmental Protection Act 1990. Appeals must be notified within 6 months of the date of this notice to The Planning Inspectorate, Room 12/03D, Tolgate House, Houlton Street, Bristol, BS2 9DJ.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of an appeal.

Where a notice giving the Agency's decision to modify a Waste Management Licence includes a statement that for the purpose of preventing pollution of the environment or harm to human health Section 43[4] of the Environmental Protection Act 1990 should not apply to the decision, the notification of an appeal against the decision will not of itself render the decision ineffective pending determination of the appeal.

If you consider that such a statement has been unreasonably included in the notice of decision you may apply, under Section 43(7) of the Environmental Protection Act 1990 to the Secretary of State to determine whether the Agency's action was unreasonable or not, (the address to write to is as given above). If the Secretary of State determines that the Agency acted unreasonably in including such a statement, the Agency's decision will become ineffective while an appeal is pending and you will be entitled to recover compensation from the Agency in respect of any loss you have suffered in consequence of the statement. Any dispute as to your entitlement to compensation or its amount shall be determined by arbitration.

S37 NOTES

Appeals

If a licence holder is aggrieved by the decision of the Waste Regulation Authority in modifying conditions specified in a Waste Management Licence he may appeal to the Secretary of State in accordance with Section 43 of the Environmental Protection Act 1990. Appeals must be notified within 6 months of the date of this notice to Department of the Environment, Room A222, Romney House, 43 Marsham Street, London, SW1P 3PY.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of an appeal.

Where a notice giving the Authority's decision to modify a Waste Management Licence includes a statement that for the purpose of preventing pollution of the environment or harm to human health Section 43[4] of the Environmental Protection Act 1990 should not apply to the decision, the notification of an appeal against the decision will not of itself render the decision ineffective pending determination of the appeal.

If you consider that such a statement has been unreasonably included in the notice of decision you may apply, under Section 43 of the Environmental Protection Act 1990 to the Secretary of State to determine whether the Authority's action was unreasonable or not, (the address to write to is as given above). If the Secretary of State determines that the Authority acted unreasonably in including such a statement, the Authority's decision will become ineffective while an appeal is pending and you will be entitled to recover compensation from the Authority in respect of any loss you have suffered in consequence of the statement. Any dispute as to your entitlement to compensation or its amount shall be determined by arbitration.

THE ENVIRONMENT AGENCY

ENVIRONMENTAL PROTECTION ACT 1990
Part II (Section 37)

WASTE MANAGEMENT LICENCE
SCHEDULE OF CONDITIONS

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 5

The decision by The Environment Agency

to modify the Waste Management Licence issued to

C H Middleton Limited
65/71 Sprotbrough Road
Doncaster
DN5 8BW

to operate a Transfer Station

situated at The Depot/Yard at:
65/71 Sprotbrough Road
Doncaster
DN5 8BW

Ordnance Survey Grid Reference: SE 5640 0390

is subject to the operation of the above facility in accordance with this Schedule of Conditions consisting of 5 pages and 26 conditions.

WASTE MANAGEMENT LICENCE
SCHEDULE OF CONDITIONS

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 5

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

---

1. The modification of this Waste Management Licence is subject to the accuracy of the information supplied in the application form, statement of intent and supporting documents.

   Any deliberate falsification of information may invalidate the licence and render the operator subject to legal action.

2. The conditions attached to this Waste Management Licence take precedence over any operational statements made in the application. Where anomalies are noted or contradictions occur, it shall be the duty of the licence holder to seek written clarification by the Environment Agency ("the Agency") before implementation.

Site Plan

3. This licence relates to the land shown edged purple on drawing number WML D423/3, a copy of which is annexed hereto; ("the site").

4. The type of waste for which the deposit or storage, is authorised, and any limitation as to quantity shall be as specified in the attached Appendix.

5. The site shall be operated in accordance with the details provided on drawing number WML D423/3a and that contained within the working plan CHM/1 dated 17th February 1995 as amended, by prior written agreement of the Agency.

6. The licence holder shall notify the Agency of any proposed change in the actual conduct of operations from the information disclosed on drawing numbers WML D423/3a and that contained within the working plan CHM/1 as altered by any previously notified changes, at least one month before the proposed implementation of that change, and shall not implement that change without the prior written agreement of the Agency.

Operational Requirements

7. A site control office shall be designated for the site, and a copy of the site licence and any associated plans/statements and agreements shall be kept at this office.

8. A site identification board of durable material, and finish, shall be displayed at the site entrance, showing the hours when the site is open and giving the name of the site, the name, address and telephone number of the operator and of the Agency together with the Waste Management Licence number. The board must be maintained in a legible condition.

WASTE MANAGEMENT LICENCE
SCHEDULE OF CONDITIONS CONTINUED

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 5

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

9. The terms of the site licence shall be made known to any person who is given responsibility for the management, or control, of the site.

   The site shall be adequately manned during operational hours.

10. Measures shall be taken to ensure that, at any one time, no persons other than employees of the licence holder, or persons otherwise entitled to be present, shall be permitted on the site.

11. Measures shall be provided for the effective cleansing of the wheels, and bodies, of vehicles leaving the site and the operator shall ensure that the equipment so provided is used, as necessary, so as to prevent the deposit of mud, or waste, on the highway as a result of the operations hereby permitted and that such equipment is properly maintained for that purpose.

12. The site shall be provided with a 2 metre high chain-link fence, surmounted by three strands of barbed wire on an angled top, or in such a manner as to afford a similar degree of security to present unauthorised pedestrian/vehicular access. Any damage that impairs the effectiveness of these security measures shall be repaired as soon as is practicable.

    The lockable gates provided at the access to the depot from Sprotbrough Road shall be padlocked closed when the site is unmanned. Any damage that impairs the effectiveness of these gates shall be repaired as soon as is practicable.

13. No material of any kind whatsoever shall be burned within the boundaries of the site and a fire in this area shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the Agency.

14. Screens shall be provided as necessary, to ensure that any windblown material is contained within the site. Materials arrested by such screens shall be removed and disposed of at the end of each working day to maintain the efficiency of the screens and the tidiness of the site.

15. Effective precautions shall be undertaken to suppress the emission of dust from the site.

WASTE MANAGEMENT LICENCE
SCHEDULE OF CONDITIONS CONTINUED

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 5

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

16. Any loose waste, which may be lying on the site as a result of operations hereby permitted, shall be collected and contained on a daily basis in such a manner as to keep the site tidy.

17. Operations shall not take place during the hours of darkness, covered by official lighting-up times (ie half an hour after sunset and half an hour before sunrise), unless effective lighting has been provided and used.

Record Keeping

18. A record shall be kept of all wastes received and of all materials (wastes and recovered materials) removed from the site. The records shall include the following for each vehicle load of waste/materials:

a) origin of waste by local authority district
b) time and date received
c) quantities in tonnes received and waste type - as specified by the Agency
d) time and date removed
e) quantities in tonnes removed and waste type - as specified by the Agency
f) destination of materials removed by local authority district.

19. A summary of the information specified in condition 18 above shall be submitted to the Agency, in a format and at a frequency as required by the Agency.

This summary shall be submitted within fourteen days of the end of the accounting period specified by the Agency.

20. The hours of operation of the site shall be:

Mondays to Fridays	0700 hours to 1800 hours
Saturdays	0700 hours to 1400 hours

Except in an emergency the use of plant or equipment for the purposes of waste handling/treatment outside these hours is strictly forbidden.

21. Any temporary cessation of operations, for a period in excess of one month, shall be notified to the Agency in writing.

WASTE MANAGEMENT LICENCE
SCHEDULE OF CONDITIONS CONTINUED

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 5

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

22. No polluting matter shall be allowed to enter any watercourse, surface water drain, foul sewer, or to pollute any underground resource. All surface water shall drain through an interceptor which is of the full retention type, and sized so as to provide at least 3 minutes retention at a rainfall of 50mm/hour over the drainage area. The minimum size of any interceptor should be one cubic metre and the inlet, outlet baffles and internal pipework should be such as to prevent turbulence and short circuiting.

23. Any fuel, oil or chemical storage tanks situated at the site shall be located within a bund engineered so as to have a capacity of least 110% of the largest tank stored therein. The walls and floor of the bund shall be impervious to water and to the tank's contents, and all inlet/outlet/vent pipes, gauges or vents shall be located within the bunded area.

Any tap or valve shall be arranged so as to discharge vertically downwards, and shall be locked shut when the site is unmanned.

Satisfactory arrangements should be agreed for the proper disposal of contaminated surface water from within the bund. There should be no uncontrolled discharge from the bunded area.

24. All Chemical drums (storage containers) should be stored within a compound provided with an impervious base with the floor graded in such a manner that the contents of the largest drum (containers) are retained in the event of a spillage.

25. Sound enclosed skips are to be assigned for the storage of bonded asbestos cement, whose integrity shall be maintained at all times.

26. The transfer of bonded asbestos cement products from one skip to another shall only be undertaken manually. Under no circumstances shall the contents be discharged directly by mechanical means from one vessel to another.

Advisory Notes

1. (a) Any liquid discharge into watercourses requires the approval of the Agency.

(b) Discharge to public drainage systems requires the approval of the relevant Water Services Company.

(c) Highly polluting substances may be produced during the combustion of waste materials in particular tyres. Any discharge to controlled waters of such pollutants can result in prosecution by the Agency.

2. Any atmospheric emissions are subject to the provisions of appropriate legislation administered by the Agency and Doncaster Metropolitan Borough Council.

3. Certain conditions may require planning approval before they are implemented. If in doubt, it is advised that contact be made with Doncaster Metropolitan Borough Council's Directorate of Planning and Design Services.

4. Any plant or machinery activity on the site should be in accordance with the Mines and Quarries Safety Circular Number 257 (this relates to overhead electric power cables) and Health and Safety Executive Guidance Note GS6 entitled 'Avoidance of danger from overhead lines'.

5. It should be noted that controlled waste may be deposited only on the area of land for which planning permission, or deemed planning permission, is in force for such deposit.

6. Any treatment for vermin or insects shall be in accordance with the requirements for approval under the Control of Pesticides Regulations 1986 (SI 1986-1510) issued by the Ministry of Agriculture, Fisheries and Food and made under the Food and Environment Protection Act 1985.

7. The Department of the Environment's Waste Management Paper Number 18 on Asbestos Waste is published by Her Majesty's Stationery Office (ISBN 0 11 751384 9).

8. The Department of the Environment's Waste Management Paper Number 6 on Polychlorinated Biphenyls is published by Her Majesty's Stationery Office (ISBN 0 11 752952 4).

9. Any process which may be carried out or is intended to be carried out involving incineration, and/or recovery of scrap material using heat or any process which may require an authorisation under the Environmental Protection Act 1990 Part I, shall be notified to the Director of Environmental Services, Doncaster Metropolitan Borough Council.

WASTE MANAGEMENT LICENCE

SCHEDULE OF CONDITIONS APPENDIX

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 5

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

Condition Number 4

The types, and quantities, of waste for which temporary storage is authorised, and any limitation as to type or quantity, shall be as follows:

1.	Solid, non-putrescible domestic waste (U10)	52 tonnes/week
2.	Solid, non-putrescible and non-hazardous commercial waste (U20)	225 tonnes/week
3.	Solid, non-hazardous wastes from the building trade (J70)	195 tonnes/week
4.	Tyres (L30) [See Advisory Note 1(c)]	4 tonne/week
5.	Scrap Metal:	
	a. Ferrous (J61)	4 tonne/week
	b. Non-ferrous (J62)	8 tonne/week
6.	Bonded Asbestos (J14)	10 tonne/week

Waste Categories 1 - 6 shall not exceed 24,999 tonnes/annum in total.

For the purposes of the Waste Management Licensing (Fees & Charges) Scheme 1997, the site is referenced: 2/E/d/2

Note:

1. The deposit of liquids and sludges at the site is not permitted.

It should be noted that in complying with the licensing provisions of the Environmental Protection Act 1990, the site occupier is not absolved from his responsibilities under other requirements of the Act and any other relevant legislation.

---

1. The modification of this Waste Management Licence is subject to the accuracy of the information supplied in the application form, statement of intent and supporting documents.

   Any deliberate falsification of information may invalidate the licence and render the operator subject to legal action.

2. The conditions attached to this Waste Management Licence take precedence over any operational statements made in the application. Where anomalies are noted or contradictions occur, it shall be the duty of the licence holder to seek written clarification by the Waste Regulation Authority before implementation.

Site Plan

3. This licence relates to the land shown edged purple on drawing number WML D423/3, a copy of which is annexed hereto; ("the site").

4. The type of waste for which the deposit or storage, is authorised, and any limitation as to quantity shall be as specified in the attached Appendix.

5. The site shall be operated in accordance with the details provided on drawing number WML D423/3a and that contained within the working plan CHM/1 dated 17th February 1995 as amended, by prior written agreement of the Waste Regulation Authority.

6. The licence holder shall notify the Waste Regulation Authority of any proposed change in the actual conduct of operations from the information disclosed on drawing numbers WML D423/3a and that contained within the working plan CHM/1 as altered by any previously notified changes, at least one month before the proposed implementation of that change, and shall not implement that change without the prior written agreement of the Waste Regulation Authority.

Operational Requirements

7. A site control office shall be designated for the site, and a copy of the site licence and any associated plans/statements and agreements shall be kept at this office.

8. A site identification board of durable material, and finish, shall be displayed at the site entrance, showing the hours when the site is open and giving the name of the site, the name, address and telephone number of the operator and of the Waste Regulation Authority together with the Waste Management Licence number. The board must be maintained in a legible condition.

9. The terms of the site licence shall be made known to any person who is given responsibility for the management, or control, of the site.

   The site shall be adequately manned during operational hours.

WASTE MANAGEMENT LICENCE
SCHEDULE OF CONDITIONS CONTINUED

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 3

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

10. Measures shall be taken to ensure that, at any one time, no persons other than employees of the licence holder, or persons otherwise entitled to be present, shall be permitted on the site.

11. Measures shall be provided for the effective cleansing of the wheels, and bodies, of vehicles leaving the site and the operator shall ensure that the equipment so provided is used, as necessary, so as to prevent the deposit of mud, or waste, on the highway as a result of the operations hereby permitted and that such equipment is properly maintained for that purpose.

12. The site shall be provided with a 2 metre high chain-link fence, surmounted by three strands of barbed wire on an angled top, or in such a manner as to afford a similar degree of security to present unauthorised pedestrian/vehicular access. Any damage that impairs the effectiveness of these security measures shall be repaired as soon as is practicable.

    The lockable gates provided at the access to the depot from Sprotbrough Road shall be padlocked closed when the site is unmanned. Any damage that impairs the effectiveness of these gates shall be repaired as soon as is practicable.

13. No material of any kind whatsoever shall be burned within the boundaries of the site and a fire in this area shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the Waste Regulation Authority.

14. Screens shall be provided as necessary, to ensure that any windblown material is contained within the site. Materials arrested by such screens shall be removed and disposed of at the end of each working day to maintain the efficiency of the screens and the tidiness of the site.

15. Effective precautions shall be undertaken to suppress the emission of dust from the site.

16. Any loose waste, which may be lying on the site as a result of operations hereby permitted, shall be collected and contained on a daily basis in such a manner as to keep the site tidy.

17. Operations shall not take place during the hours of darkness, covered by official lighting-up times (ie half an hour after sunset and half an hour before sunrise), unless effective lighting has been provided and used.

Record Keeping

18. A record shall be kept of all materials deposited at or removed from the site. The information shall include:

    (i) Date of deposit/removal;
    (ii) Origin/producer of waste;
    (iii) Type and quantity of waste;
    (iv) Contractor/haulier of waste;
    (v) The ultimate destination of such waste;

Such record shall be open to inspection by the Waste Regulation Authority at any reasonable time.

19. A summary of the information recorded in accordance with Condition 18 above shall be provided for the twelve months proceeding 31st December, in every calendar year, to the Waste Regulation Authority before 31st January, of the succeeding year.

20. The hours of operation of the site shall be:

Mondays to Fridays	0700 hours to 1800 hours
Saturdays	0700 hours to 1400 hours

Except in an emergency the use of plant or equipment for the purposes of waste handling/treatment outside these hours is strictly forbidden.

21. Any temporary cessation of operations, for a period in excess of one month, shall be notified to the Waste Regulation Authority in writing.

22. No polluting matter shall be allowed to enter any watercourse, surface water drain, foul sewer, or to pollute any underground resource. All surface water shall drain through an interceptor which is of the full retention type, and sized so as to provide at least 3 minutes retention at a rainfall of 50mm/hour over the drainage area. The minimum size of any interceptor should be one cubic metre and the inlet, outlet baffles and internal pipework should be such as to prevent turbulence and short circuiting.

23. Any fuel, oil or chemical storage tanks situated at the site shall be located within a bund engineered so as to have a capacity of least 110% of the largest tank stored therein. The walls and floor of the bund shall be impervious to water and to the tank's contents, and all inlet/outlet/vent pipes, gauges or vents shall be located within the bunded area.

Any tap or valve shall be arranged so as to discharge vertically downwards, and shall be locked shut when the site is unmanned.

Satisfactory arrangements should be agreed for the proper disposal of contaminated surface water from within the bund. There should be no uncontrolled discharge from the bunded area.

24. All Chemical drums (storage containers) should be stored within a compound provided with an impervious base with the floor graded in such a manner that the contents of the largest drum (containers) are retained in the event of a spillage.

Bonded Asbestos Cement

25. Bonded asbestos cement products shall only be considered acceptable for storage at the site provided that;

It has been proven by recognised chemical analysis of a representative sample of the waste that it contains only chrysotile (white) asbestos fibres within the cement matrix. Such analyses are to obtained in advance of acceptance for storage, and are to be made available for inspection by the Waste Regulation Authority at any reasonable time.

Sound enclosed skips are to be assigned for the storage of bonded asbestos cement, whose integrity shall be maintained at all times.

26. The transfer of bonded asbestos cement products from one skip to another shall only be undertaken manually. Under no circumstances shall the contents be discharged directly by mechanical means from one vessel to another.

Advisory Notes

1. (a) Any liquid discharge into watercourses requires the approval of the National Rivers Authority.

(b) Discharge to public drainage systems requires the approval of the relevant Water Services Company.

(c) Highly polluting substances may be produced during the combustion of waste materials in particular tyres. Any discharge to controlled waters of such pollutants can result in prosecution by the National Rivers Authority.

2. Any atmospheric emissions are subject to the provisions of appropriate legislation administered by Her Majesty's Inspectorate of Pollution and Doncaster Metropolitan Borough Council's Directorate of Environmental Services.

3. Certain conditions may require planning approval before they are implemented. If in doubt, it is advised that contact be made with Doncaster Metropolitan Borough Council's Directorate of Planning and Design Services.

4. Any plant or machinery activity on the site should be in accordance with the Mines and Quarries Safety Circular Number 257 (this relates to overhead electric power cables) and Health and Safety Executive Guidance Note GS6 entitled 'Avoidance of danger from overhead lines'.

5. It should be noted that controlled waste may be deposited only on the area of land for which planning permission, or deemed planning permission, is in force for such deposit.

6. Any treatment for vermin or insects shall be in accordance with the requirements for approval under the Control of Pesticides Regulations 1986 (SI 1986-1510) issued by the Ministry of Agriculture, Fisheries and Food and made under the Food and Environment Protection Act 1985.

7. The Department of the Environment's Waste Management Paper Number 18 on Asbestos Waste is published by Her Majesty's Stationery Office (ISBN 0 11 751384 9).

8. The Code of Practice for the disposal of asbestos waste is published by the Institute of Wastes Management (ISBN 0 90 294417 7) a copy of which is obtainable from: 9 Saxon Court, St Peter's Gardens, Northampton NN1 1SX. Telephone: 01604 20426, Facsimile: 01604 604467.

9. It is an offence to deposit waste obtained from the commercial processing (other than for retail sale) of certain imported root vegetables on land other than land approved for that purpose by the Ministry of Agriculture, Fisheries and Food.

10. Any process which may be carried out or is intended to be carried out involving incineration, and/or recovery of scrap material using heat or any process which may require an authorisation under the Environmental Protection Act 1990 Part I, shall be notified to the Director of Environmental Services, Doncaster Metropolitan Borough Council.

SCHEDULE OF CONDITIONS APPENDIX

WASTE MANAGEMENT LICENCE REFERENCE NUMBER: WD20 D423

MODIFICATION: 3

SITE: C H MIDDLETON LIMITED, 65 - 71 SPROTBROUGH ROAD, DONCASTER, DN5 8BW.

Condition Number 4

The types, and quantities, of waste for which temporary storage is authorised, and any limitation as to type or quantity, shall be as follows:

1.	Solid, non-putrescible domestic waste (U10)	52 tonnes/week
2.	Solid, non-putrescible and non-hazardous commercial waste (U20)	225 tonnes/week
3.	Solid, non-hazardous wastes from the building trade (J70)	195 tonnes/week
4.	Tyres (L30) [See Advisory Note 1(c)]	0.3 tonne/week
5.	Scrap Metal:	
	a. Ferrous (J61)	0.15 tonne/week
	b. Non-ferrous (J62)	1 tonne week
6.	Asbestos (Bonded) (J16) [asbestos waste: comprising bitumastic; cement; plastic; resinous or rubber binders]. (See Condition No. 25)	10 tonnes/week

Waste Categories 1 - 6 shall not exceed 24,999 tonnes/annum in total.

Note:

1. The deposit of liquids and sludges at the site is not permitted.

It should be noted that in complying with the licensing provisions of the Environmental Protection Act 1990, the site occupier is not absolved from his responsibilities under other requirements of the Act and any other relevant legislation.
