

May 27, 2026
Mr. Joshua Joiner
Hunt the Front's Southern Raceway

Subject: Tire Analysis on samples submitted on May 22, 2026 by Hunt the Front's Southern Raceway. Blue Ridge Race Lab, LLC received four tire samples for Tire Analysis on tire samples identified by evidence bag number, tire compound number, and tire manufacturer and two fuel samples identified by evidence bag number and type of fuel. The samples were received in good condition in sealed sample vials contained in sealed evidence bags. The evidence bag seals were intact upon arrival.

Summary of Race Tire and Fuel Analysis:

BRRL LSID	Customer ID Tire Date Code	Tire Manufacturer Tire Compound Number Fuel ID	Result
26-0832	MN204831005/ T22M	Hoosier Crate D21	Conforms to the benchmark
26-0833	MN204831005	Base R85	No illegal fuel additives detected
26-0834	MN204831006/ 4M2W	Hoosier Crate D21	Conforms to the benchmark
26-0835	MN204831006	E85	No illegal fuel additives detected
26-0836	MN204831007/ B29U	Hoosier Crate D21	Conforms to the benchmark
26-0837	MN204831007	VP X85	No illegal fuel additives detected
26-0838	MN204831010/ 3J1V	Hoosier Crate D21	Conforms to the benchmark

All method specified quality assurance/quality control standards met method defined acceptance limit criteria during the analysis of this sample batch. If you have any questions concerning this analysis report, please feel free to contact me. I appreciate your business and the opportunity to provide tire analysis for your raceway.

Sincerely,

Kim Johnson
