Protect Your Home from Water Damage and Skyrocketing Bills with Flo by Moen!

Water damage is one of the most common and expensive headaches for homeowners. A tiny drip behind a wall or a burst pipe while you're at work can lead to thousands of dollars in repairs and the loss of irreplaceable items.

At **Connect Plumbing & HVAC**, we are proud to recommend the **Flo by Moen™ Smart Water Monitor and Shutoff**—a comprehensive system designed to give you total control over your home's water, all from the palm of your hand.

Why Flo is a Game-Changer for Your Home:

24/7 Proactive Monitoring: Unlike traditional sensors that only alert you *after* a floor is wet, Flo monitors the pressure, flow, and temperature of your entire plumbing system in real-time.

Daily MicroLeak™ Tests: The system runs an automated "health check" every day to identify leaks as small as a single drop per minute. It catches the "silent killers"—those tiny leaks behind walls or in the foundation that often go undetected for years.

Automatic Shutoff: If the system detects a catastrophic event (like a burst pipe), it can automatically shut off your water supply to prevent flooding, even if you're miles away from home.

Smart AI Learning: Using **FloSense™ technology**, the device learns your home's unique water habits. It can distinguish between a long shower and a leaking toilet, ensuring you only get alerts that matter.

Conservation & Savings: Track your daily water usage and set conservation goals right in the app. Homeowners using Flo often see a noticeable decrease in their monthly water bills!

Professional Installation Makes the Difference

Ready to upgrade your home's safety?

Call Connect Plumbing & HVAC at (732) 610-6767 today to schedule your professional Flo by Moen installation!

Protect Your Peace of Mind

Don't wait for a "surprise" on your water bill or a puddle in your basement. Empower your home with the smartest leak detection on the market.

Save on Your Homeowners Insurance!

Did you know that many insurance providers in New Jersey offer discounts of 3% to 10% on your premiums when you have an automatic water shutoff system installed? We can provide you with an official Insurance Verification Letter once your Flo device is active to help you start saving immediately.
