CUSTOM PAINT COLLECTION

Your Color - Your Way

Cabinet Depot offers customized colors.

STOCKED CABINET

At Cabinet Depot, efficiency starts with our fully stocked warehouse and extensive on-site inventory. By maintaining a wide selection of cabinets, accessories, and components in stock, we eliminate the long lead times often associated with special orders and backordered products. This allows our team to process orders quickly, maintain consistent production schedules, and deliver products to customers with exceptional speed. Our inventory management system ensures that popular styles, finishes, and materials are readily available, enabling faster project completion and minimizing delays. The result is a streamlined operation that provides contractors, builders, and homeowners with shorter turnaround times, reliable availability, and seamless experience from order placement to delivery.

FINEST FINISHES

We believe in selecting the finest raw materials, ensuring consistent quality and uniformity of appearance.

At Cabinet Depot, when it comes to our cabinet finishes, we pride ourselves by using the best technology and workmanship to ensure high quality cabinetry. Our finishes

consist of stained and painted options in various colors and styles.

Our Staining Process

Our stained cabinet doors and face frames are made using the finest quality solid wood.

We begin by using a combination of automatic sanding machines and hand detailing to ensure a smooth finish.

Application of equalizers and toners are used to balance the color of the wood and ensure a uniform color throughout.

Automatic spraying machines ensures the stain is embedded deep into the cabinet, which highlights the natural wood grain.

All stained surfaces are then hand-rubbed and wiped down to remove excess stain. Then left to air dry.

Once the stain has dried, a wood sealer is applied to provide even protection.

We then sand the surfaces to provide a smooth and consistent finish.

Our final protective coat is applied to maximize resistance to scuffing, moisture, fading and most household chemicals.

The cabinets are then placed through a color consistency examination where additional touch-ups are made where needed.

Our Painting Process

Our painted cabinets doors are made with high density fiberboard (HDF)- painted faceframes are made with the finest quality solid wood.

We begin by using using a combination of automatic sanding machines and hand detailing to ensure a smooth finish.

Clear primer is applied and an automatic sanding machine is used to ensure an even and smooth surface.

The first base coat is the applied and then dried using a specialized drying machine.

The base coat is then sanded and vacuumed to remove any excess dust.

We then apply our second base coat and then dried using a specialized drying machine.

We then sand the surfaces until smooth and consistent.

Our final topcoat is applied to maximize resistance to scuffing, moisture, fading and most household chemicals.

The cabinets are then inspected and additional touch-ups are made where needed.

Cabinet Depot believes in transparency. Our cabinets are manufactured under fully inspection of our owned quality control team step by step from sorting raw materials to inspecting the door finish piece by piece and making it possible to ensure the best quality possible!

We use a combination of the latest technology and hands-on approaches to ensure good quality cabinets to our clients.

Our cabinets are all constructed with EPA TSCA Title VI Compliant Birch Plywood and High-Quality High-Density Fiberboard.

Our cabinets are constructed with best quality wood materials and built to last.

Where functionality, quality and affordability meet.

Our cabinets come in standard cabinet sizes, growing in increments of 3".

All of our base cabinets are 24" in depth and are 34 1/2" in height.

Our upper cabinets are all 12" in depth and come in three standard cabinet heights—30", 36" and 42".

We have a wide variety of products from pantries, wine racks, open shelving units, stackable cabinets, glass cabinets, trims, corbels, posts, etc.

Our cabinets can be easily modified which makes them semi-customizable cabinets. This will give you the opportunity to fulfill any of your clients requests.

MAINTENANCE AND CARE

General Information:

- ▶ Keep all cabinet surfaces dry at all times.
- ▶ Cabinetry surfaces should be dried immediately with a soft, microfiber cloth after cleaning.
- ▶ As with all solid wood products, drastic changes in temperature or humidity can be harmful to the cabinet finishes and overall structure.

Basic Cleaning:

- ▶ After installation wipe the interior and exterior of the cabinets with a soft damp cloth and dry immediately with another clean, soft cloth.
- ▶ For routine cleaning, use soft, clean cloth dampened with warm water—If the water alone does not clean cabinets completely, mix a mild dishwasher soap with the water.
- ▶ Wipe up food spills and water spots promptly with a damp cloth or sponge and dry the surface immediately.
- ▶ For best results, a blotting motion rather than a wiping motion to remove the substance.

Cleaning of Glass Door Inserts:

- ▶ Use an ammonia-free glass cleaner with a soft, clean microfiber cloth.
- ▶ Spray a glass cleaner on a clean microfiber cloth or paper towel.
- ▶ Avoid spraying the glass cleaner directly on the glass—this is to prevent glass cleaner running into the joints of the cabinets.

Things to Avoid:

- ▶ These products and ingredients can damage the cabinetry. Please avoid use of the following:
 - ▶ Scouring Pads
 - ▶ Steel Wool
 - ▶ Ammonia
 - ▶ Nail Polish Remover
 - ▶ Paint Thinners
 - ▶ Bleach
- ▶ Never leave a cloth saturated with cleaner or water on any cabinet surface.
- ▶ Avoid using an excessively damp cloth over exterior and interior of cabinetry.
- ▶ When using small kitchen appliances that produce heat and/or steam always pull them away from the underside of cabinetry to prevent damage to the cabinets.
- ▶ Always remember to turn on the ventilation while cooking.

* Adjustable Base Shelf is 1/2" Depth, can request a full depth 3/4" as a modification

WARRANTY

5 Year Cabinet Warranty

Cabinet Depot warrants to the original consumer purchaser that cabinetry, door hinges, and drawer glides will be free from defects in material and workmanship under normal use and service for a period of Five (5) years from purchase date (Proof of Purchase is required). This warranty is not transferable and only applicable to product used for residential purposes. Representatives of this cabinet line do not have the authority to change or enlarge this warranty.

This warranty does not cover normal wear and tear, damage or defects caused by accidents, misuse, abuse, or lack of necessary maintenance; nor does it cover alteration, modification, improper installation, improper handling / storage, environmental conditions, nor any labor expenses.

Vendor, at our option, may elect to repair or replace with a functionally equivalent product any product covered by this warranty. Some replacement parts are subject to availability and may differ from original parts received. Return of defective product may be required for a replacement to be issued. Repair parts or replacement parts are at the expense of the vendor, but customer shall bear all other expenses. These expenses may include, but are not limited to, cost of removal and re-installation of product, labor expenses, etc.

Just as no two trees are alike, no two pieces of wood are alike. The variation in color and grain pattern in wood adds to its natural beauty and is not considered an imperfection. Environmental factors, including but not limited to artificial / natural light, moisture, cleaners, smoke, etc., may cause the darkening or mellowing of a cabinet over time. This is a natural process and can be expected. This warranty does not cover the natural aging or darkening / mellowing of wood color, the inherent growth characteristics of, or variation in wood.

It is the nature of wood to expand and contract to varying degrees depending on climate conditions. As a result, cabinet lines with painted surfaces may show fractures in the paint at joints. This is normal and is not considered a defect.

This warranty is not transferable. All implied warranties are limited in duration to the shorter of the period provided by law or the period of this warranty. To the extent permitted by law, this warranty excludes special, incidental, or consequential damages. Some states do not allow the exclusion or limitations of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

To exercise this warranty, please contact the sales representative from whom you purchased the product. Report, in writing, all defects claimed and include proof of purchase documentation and pictures.
