## A Simple Guide to How Your Order Is Placed

**Quotes.**
**Send us your initial measurements, chosen door type, glass option, and location, and we'll prepare a free quote for you.**

**Quick Contact. Get in touch by completing the form, emailing us, texting us, or giving us a call.**

**Decision. After we send you the first price estimate, we move on to the measurement stage. During the visit, our experts will check what can be done and suggest the best approach.**

## SWING DOORS

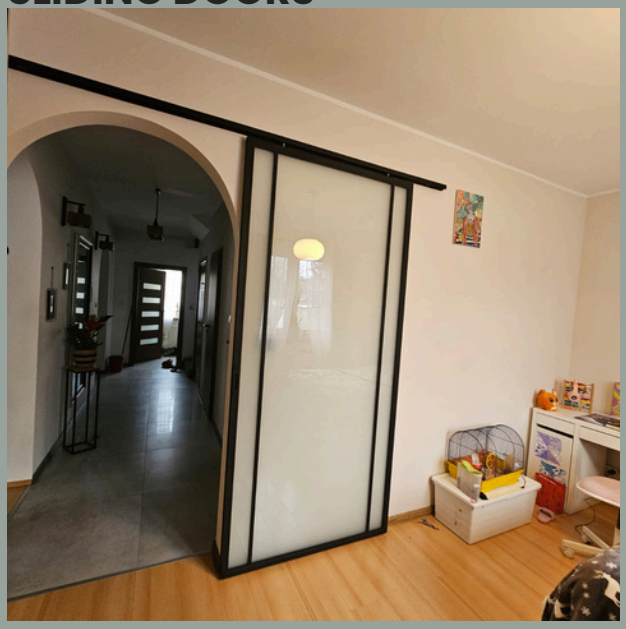

**Loft Single-Leaf Door**

**A classic and versatile model. Slim steel frames paired with clear glass let natural light flow through while keeping rooms defined and private.**

**Use: living rooms, offices, kitchen entrances, wardrobes.**
**Options: custom divisions, clear, frosted, or tinted glass.**

## SLIDING DOORS

**Sliding Door on a Track**

**A blend of smart function and modern style. The sliding system saves space, avoids clashes with furniture, and works well where a traditional door cannot open fully.**

**Use: hallways, bedrooms, kitchens, small rooms.**
**Options: steel track, loft-style handles, various heights and widths.**

## PIVOT DOORS

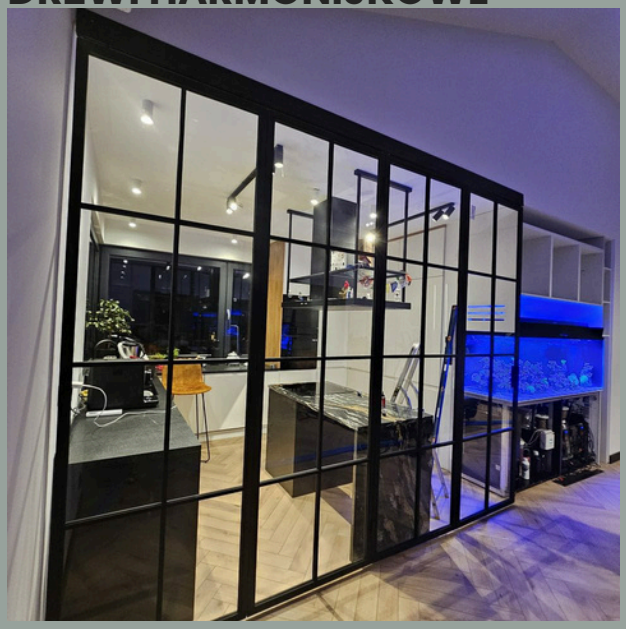

**Pivot Doors**

**A premium revolving system that brings elegance and ease to any room. The gentle, silent movement makes it a standout element in modern spaces.**

**Use: living areas, showcase entrances, luxury apartments.**
**Options: concealed pivot, wide leaf designs, clean layouts.**

## DRZWI HARMONIJKOWE

**Eurovista Folding Doors**

**Functionality wrapped in a light, loft-style design**

**Eurovista folding doors are a smart solution wherever space matters without giving up a refined look. Their slim steel frame and glass panels fold smoothly, creating a wide opening even in compact rooms.**

## VESTIBULES

**Eurovista Vestibules**

**Smart protection with a modern, loft-inspired look**

**Eurovista vestibules are made-to-order steel-and-glass structures that blend practical shielding with a clean, stylish appearance. They work well in both private homes and commercial buildings, improving warmth and blocking wind at the entrance.**

## PARTITIONS WITH DOORS

**Eurovista partition walls with doors**

**Smart and stylish space division**

**These steel-and-glass Eurovista systems let you organise interiors in a practical way without losing an open, modern feel. They work well for dividing rooms, corridors or work zones while bringing a subtle industrial look.**

# GLASS

**Glass plays a central role in Eurovista’s loft-style designs. It brings lightness and a modern touch while emphasizing the industrial style of the doors. Choosing the right glass improves both the look and the usability of the room.**

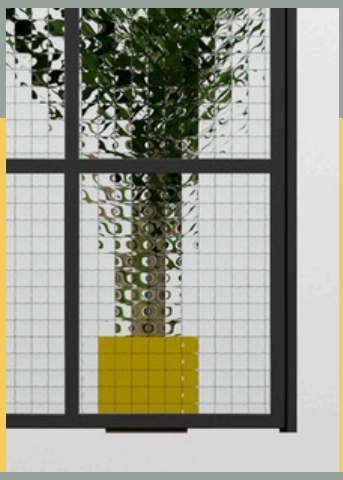

## CLEAR

Our most popular fill is available in LAMINATED and TEMPERED options. It delivers clear visibility without distortion. Choose from two colors: STANDARD FLOAT or OPTIWHITE. FLOAT thickness ranges from 4–12 mm, and OPTIWHITE from 4–10 mm.

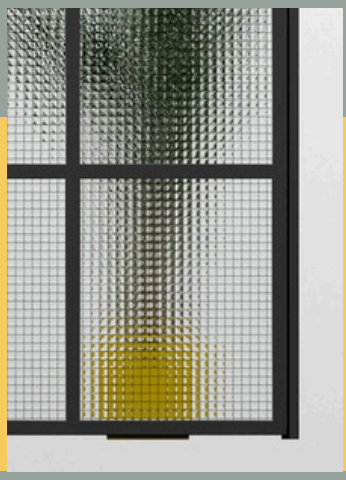

## SUN SHADDED GLASS

This body-tinted glass comes in STANDARD and TEMPERED versions. Colours include brown, grey, and black (venus black). The level of clarity varies with thickness. It keeps the view true to life. Brown and grey range from 4–10 mm, black from 4–8 mm.

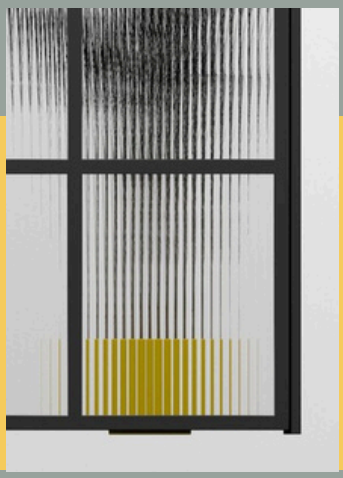

## REIFORCED MAXI

Rolled glass with an uneven surface and an embedded steel mesh with openings about 25x30 mm. Clear with a slight green tint, gently distorts the view. Thickness: 6 mm. Cannot be tempered, polished, beveled, or drilled.

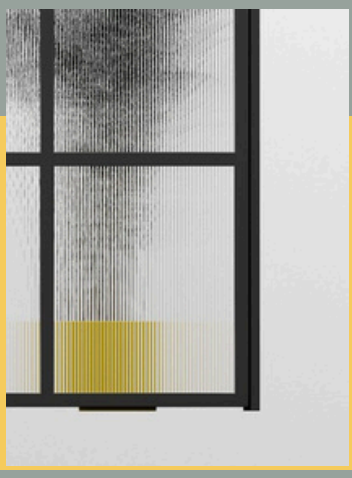

## REINFORCED MINI

Rolled glass with an uneven surface and an embedded steel grid with roughly 13x13 mm openings. Clear with a slight green tint, gently distorts the view. Thickness: 6 mm. Cannot be tempered, polished, beveled, or drilled.

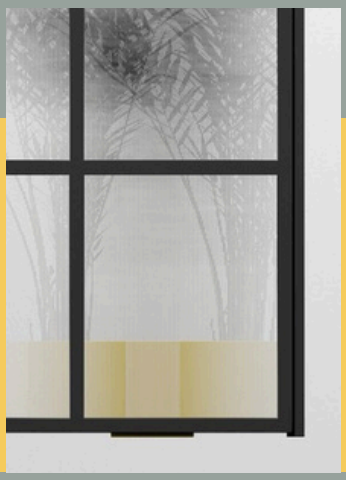

## FLUTED GLASS

A widely used decorative glass available as standard or tempered. Very clear. The matte option creates image distortion (every second stripe). Stripe width: 12 mm. Thickness: 4 mm. Max dimensions: 2130 × 1610.

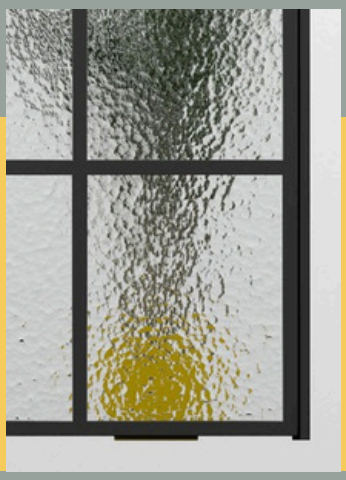

## VISIOSUN

The most popular decorative fill is available in standard and tempered versions. Medium transparency, image distortion. Stripe width: 6 mm. Thickness: 4 and 8 mm. Maximum size: 3210 x 2000.

## STRIATED

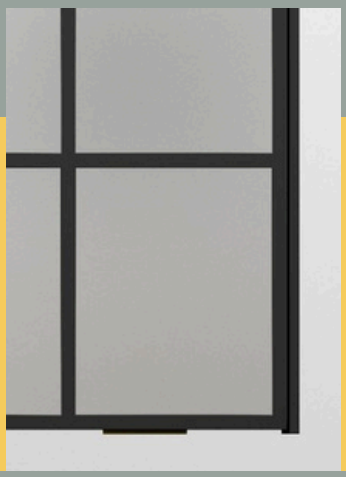

Comes in STANDARD and TEMPERED types. Reduced transparency, image distortion, and challenging cleaning due to the surface pattern. Stripe width: 3 mm. Thickness: 4 mm. Maximum size: 2160 x 1650.

## CAT PAW PRINTS

Offered as standard or tempered; features low transparency and image distortion.

Available in clear and orange. Not suitable for grinding or beveling. Thickness: 4 mm. Maximum size: 2160×1650.

## FROSTED GLASS

- Offered in laminated and tempered versions
- Laminated glass – milky film layer
- Tempered glass – satin look
- No transparency
- Smooth, velvety feel
- Thickness 4–12 mm

## MIRROR

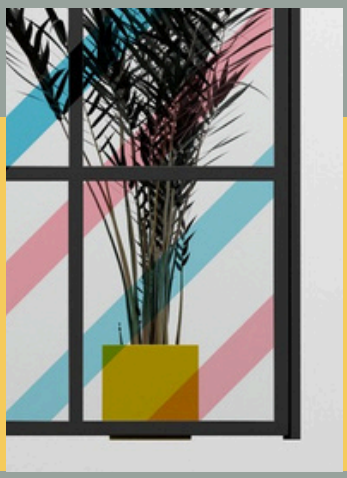

Offered in a laminated version in silver, brown, graphite, and aged colors.
Fully non-transparent, double-sided, image remains undistorted.
Thickness: 6–8 mm.

## LAMINATED

- Available in a laminated option with a rich range of colorful films
- option for toughened glass; some patterned glass can be laminated

clarity level of the chosen film

## PRINTED

- Print on film and lamination: possibility to print designs on a film, which is then laminated between glass panels.
- Direct printing: ability to print any design directly on tempered glass.
- Print format: designs must be provided in the appropriate format for printing.
- Glass thickness: depends on the selected films and glass panels.
- Transparency: available in clear or semi-transparent versions, depending on the materials used.

**LOFT PARTITION**
**RAL COLOR 1036**
**GLASS: FLUTES**

**Sliding Door with Lock**
**RAL 9005 Color**
**Laminated Glass**

# Textures & Finishes

a

The finish of the surface strongly affects the final look of the door and the atmosphere it creates indoors. We provide a range of textures that bring out the character of the design and the steel frame. Every option is made with powder coating for long-lasting quality, scratch resistance, and deep color.

## STANDARD COLORS

## ADDITIONAL OPTIONS

# Handles & Knobs

Details make the difference — they shape the final look of Eurovista doors and bring out their unique style. We offer both standard and custom-made handles, with optional door levers to suit your design.

Made from premium steel and finished with a powder-coating method, our handles offer strong protection against scratches, corrosion, and regular use. They complete the look of your doors and stay looking great for years.

*Bringing your loft dreams to life!!*
