MumNest

VERSION 2.0.0 RELEASE OVERVIEW

Application Name:	MumNest
Deployment Category:	Public Release Outline
Public Target Version:	Version 2.0.0
Document Standard:	Australian English (AU-en)

1. EXECUTIVE SUMMARY

MumNest 2.0.0 is here! This update makes sign-in and everyday settings more reliable, and brings a smarter Dashboard and richer weekly insights all designed to make tracking your baby's sleep, feeds, and nappies even easier.

2. CORE UPDATES & FEATURE SPECIFICATIONS

What's Fixed

Signup Screen Optimization: The signup screen now displays cleanly on all devices, with no more overlap with your status bar.

Export Logs Reliability: Export Logs now works as expected, exporting your records to Excel with a simple progress indicator.

Terms & Legal Access: The Privacy Policy and Terms & Conditions are now easy to find, on the sign-in screen and in Settings.

What's New

Sleep Cycle View: When your baby is asleep, the Dashboard now shows a Light vs Deep sleep wave, so you can pick the safest moment to put them down.

Unfinished Sleep Reminder: If a sleep session is accidentally left open for too long, MumNest now gently reminds you to close it out, keeping your stats accurate.

Hand Preference for Everyone: One-handed logging is no longer limited to breastfeeding—all feeding types can now use and customise this setting.

Auto Dark Mode: Let MumNest automatically switch between light and dark themes based on your local sunrise and sunset.

Insights Page Upgrades: See average daily nappy counts at a glance, plus clearer feeding averages tailored to how you feed your baby.

Richer Pediatrician Export: Your Excel export now includes average daily nappy stats alongside sleep, feeding, and growth data.

Logs, Made Easier to Browse: The Logs page now loads your history in easy-to-browse pages.

Baby Profile Photos: You can now remove a baby's profile photo, not just add one.

> *Thank you for being part of the MumNest journey—we're always listening, so if you have feedback or spot an issue, we'd love to hear from you.*
