

How a Home Reminders Partnership Works

For Home Warranty Companies

1. What is it?

Home Reminders is a homeowner maintenance service that creates a personalized maintenance schedule for each home and sends timely reminders when routine maintenance is due.

As a sponsoring Home Warranty Company, you provide Home Reminders as an added benefit to your homeowners. We manage the platform, reminders, customer support, and ongoing maintenance content.

2. How does it work?

Sponsorship Model

The Home Warranty Company sponsors Home Reminders for participating households through an annual agreement. Home Reminders provides the service directly to homeowners throughout the sponsorship period.

Who Does What?

Home Warranty Company	Home Reminders	Homeowner
Sponsors participating households	Creates personalized maintenance schedules	Provides information about the home's systems, appliances, and filters
Selects eligible homeowners	Sends timely maintenance reminders	Receives reminders throughout the year
Introduces Home Reminders as a member benefit	Provides customer support	Completes routine maintenance
Maintains its existing customer relationship	Continuously improves the platform and Maintenance Library	Protects one of their biggest investments

3. How is a partnership priced?

Partnership pricing is based on the number of participating households and reflects enterprise volume pricing. Pricing differs from consumer subscriptions offered through Home-Reminders.com.

Sponsored Households	Annual Price
500–2,500	\$45 per household
2,501–10,000	\$40 per household
10,001–50,000	\$35 per household
50,000	Custom pricing

4. What's the next step?

Every Home Warranty Company begins with a conversation.

We'll learn about your goals, explore how Home Reminders can support your homeowners, and, if there's a good fit, design an implementation plan that aligns with your organization.

There's no long-term commitment required to begin the discussion.
