

Windsor™ Lighted Vanity Mirror

Elevate your space with the Windsor™ lighted vanity mirror — a sculptural statement inspired by refined contemporary design. Featuring a fluid, organic form and integrated halo illumination, Windsor™ delivers a warm ambient glow, enhancing luxury and comfort across hospitality and residential environments. Manufactured using 480-hour CASS-tested, lead-free, copper-free, corrosion-resistant glass with a **5-year limited warranty**.

Lighting Performance

- **853 lm/ft** initial output
- **90+ CRI** for natural colour rendering
- **44 LEDs per foot** — high-density strips
- **140 lm/W** efficacy
- **52,000 hrs** LED lifespan (L70)
- Standard CCT: **3000K**

Tunable White & Dimming

Touch-controlled tunable white with 0–10V, DALI, or phase/triac dimming options.

Smart Options

PIR motion sensor night light, integrated LED clock display, and Bluetooth audio.

Key Features

- Uniform perimeter wall-glow illumination
- Shadow-free, diffused linear LED distribution
- Energy-efficient, replaceable LED system
- Corrosion-resistant, environmentally responsible construction
- Designed for ease of installation
- Suitable for hospitality and residential applications

Colour Temperature

Available in 2700K, 3000K, 3500K, 4000K, and 5000K to suit any environment.

Heated Demister

Optional heated demister pad and custom sizing available on request.

UK Compliance & Installation

The WindsorTM is designed and supplied in full accordance with applicable UK standards, ensuring safe and compliant installation across a range of bathroom environments. All electrical work must be carried out by a qualified electrician in line with current UK regulations and local building requirements (Part P).

Electrical & Compliance

- Designed to **BS 7671 (IET Wiring Regulations, 18th Edition)**
- Compatible with **220–240V, 50Hz** UK electrical systems
- Minimum **IP44 rating** for bathroom use
- Suitable for **bathroom Zones 2 and outside zones**
- Class I or Class II construction (model dependent)
- Must comply with **Part P** building regulations

Installation Details

- 220–240VAC hardwired connection
- Rear cable entry or concealed connection
- Secure wall-mounting system
- Compatible with standard on/off or dimming wall controls
- Orientation fixed as per supplied configuration
- Wiring requirements vary by selected options

5-Year Limited Warranty

Backed by a comprehensive 5-year limited warranty for peace of mind.

- ❗ Installation must be carried out by a qualified electrician in accordance with **BS 7671** and manufacturer instructions. Always consult local building regulations before installation.
