about Alice

Alice is the founder of "L'atelier ada", an art studio based in Arezzo, Tuscany. She creates painting series using various techniques, including oil, acrylic, charcoal, texture, and materic elements.

Alice incorporates her passion for poetry into her artwork by leaving unpublished poems behind each painting. Recently, she has begun to integrate these verses directly into the canvas, subtly hidden within the brushstrokes. Within Alice's artistic philosophy, there is a profound connection to travel, sustainability and nature. Nature, in particular, has been a central focus of her recent research, inspiring paintings where herbal plants are applied directly onto the artwork. This close relationship with nature serves as a constant muse, influencing and shaping her creative process. In her brush strokes there's the resume of today's society chaos. Everything is fast. But if you look closely, we are lucky enough to still catch small glimpses of beauty.

Alice started exposing in 2024 with [The Holy Art Gallery](#) (Paris, New York, London), [Its Liquid Group](#) (Rome) and [Art a Porter](#) (Torino).
