

Simple pricing, full protection.

Every warranty is individually insured and reserved from day one. Attach protection at install and price it straight into your proposal.

PRODUCT	PRICE	WHAT IT COVERS
Limited Lifetime Warranty Residential panels & inverters	\$0.10 per watt	Panels, inverters, optimizers, racking, roof penetrations, labor to \$100/hr — for as long as they own the home.
25-Year Limited Battery Warranty Residential energy storage	\$0.15 per watt of rated capacity	Cells, battery-integrated inverter and gateway, with a one-time full replacement on complete failure.
Small Commercial Limited Warranty 25-year commercial systems	\$0.12 per watt	Panels, inverters, mounting hardware and roof penetrations, with labor to \$150/hr and \$300 diagnostics.
Limited Roof Penetration Warranty 10-year attachment coverage	\$300 flat per system	Lag bolts, flashings and sealants, with parts and labor to restore the roof to watertight condition.
Extended Protection Plan Systems already on the roof	from \$299 flat per system	Panels, inverters, optimizers and racking with a \$0 deductible — one flat price by term length.

How pricing works

- ◆ The four warranties above are priced on system size at install and billed to you as the partner.
- ◆ Set up as a marketing adder in your proposal tool so reps can attach it in the sales flow.
- ◆ Registered and tracked in Spark — monitoring, claims and warranty progression in one portal.

EXTENDED PROTECTION PLAN

1 YR	3 YR	5 YR	7 YR
\$299	\$449	\$599	\$749

Billed to the homeowner — easiest to bundle into another sale, like a battery, inverter swap, or detach and reset.

Flat-rate pricing available for qualifying partners.
