FiberGutter Introduction

FiberGutter: The Industry Leader in Gutter Solutions

FiberGutter is a premier manufacturer, distributor, and installer of high-performance fiberglass gutter systems for residential, municipal, and commercial projects.

Our mission is to provide a long-lasting, high-functioning, and sustainable rain gutter solution that outperforms all other products on the market.

Backed by nearly a century of combined experience in the marine and construction industries, FiberGutter is engineered for unmatched durability and performance. With state-of-the-art manufacturing facilities in Pennsylvania and Massachusetts, we ensure precision, consistency, and superior quality in every product we produce.

While we can't predict the future, one thing remains certain—when a product carries the FiberGutter name, it represents unparalleled quality, cutting-edge innovation, and exceptional performance.

About FiberGutter

FiberGutter: The Ultimate Gutter Solution

What is FiberGutter?

FiberGutter is an advanced fiberglass gutter system engineered using high-performance polyester resin and manufactured through a precision pultrusion process. Years of research and development have resulted in a product that is smoother, more consistent, more durable, and more cost-effective than traditional hand-fabricated fiberglass gutters.

Why Choose FiberGutter?

- Aesthetic Appeal – Designed to replicate the classic look of traditional wood gutters.
- High Capacity – Comparable to other materials in water-carrying efficiency.
- Low Maintenance – Requires minimal upkeep beyond routine cleaning, with optional cover solutions available.
- Unmatched Strength – The strongest gutter system available, ensuring long-term durability.
- Exceptional Longevity – Backed by a 50-year warranty, delivering long-term peace of mind.

Where to Buy FiberGutter

FiberGutter is available through a nationwide dealer network and can also be purchased directly by contractors and homeowners outside of dealer coverage areas. We ship throughout the United States, Canada, and the Caribbean and offer a network of approved installers who have been professionally trained in the complete installation process.

FiberGutter Accessories

Part: FG2P10 Instant Fiberglass Adhesive, Two Part, Adhesive Kit

2P-10 is used to temporarily hold together end caps seams and miters before the GutterGlue is applied.

This is a great tool to simplify your installation. 2P-10 is a two-part ten-second adhesive. Just apply the adhesive, then spray the activator and stick it together for a strong, permanent bond.

Part: FG2G220 GutterGlue

GutterGlue is used to seal miters, seams, endcaps and outlets. It comes in a kit which contains the glue, tongue depressors, mixing tips, fiberglass Tape (only required for seams and miters) and 36 Grit sandpaper.

Permanent unitizing structural adhesive, UV inhibitors, rapid curing, two-component adhesive formulated and colored for FiberGutter applications, fast setting, easy to apply.

FiberGutter Accessories

Part: FGEC1 **Fiberglass End Cap (FG60)** **(FG75) (4x5)**

The FiberGutter End Cap helps prevent water from escaping from the end of a gutter. The end cap has a white finish and a durable fiberglass construction.

Helps prevent water from escaping from the end of the gutter

- Fiberglass construction
- White Finish
- Paintable

Part: FGEC2 **Fiberglass End Cap FG90 (4x6)**

The FiberGutter End Cap helps prevent water from escaping from the end of a gutter. The end cap has a white finish and a durable fiberglass construction.

Helps prevent water from escaping from the end of the gutter

- Fiberglass construction
- White Finish
- Paintable
- Use at the end if a fiberglass gutter run
- Requires GutterGlue to complete installation

FiberGutter Accessories

FG238

FiberGutter PVC Outlet

The FiberGutter Downspout Outlet can be used to direct water from the gutter into the downspout. Featuring durable PVC construction, this downspout outlet can be used with any type of downspout. GutterGlue and a 2-3/8" Hole Saw is required and to install.

- PVC construction for durability
- Directs water from gutter into downspout
- To install, cut a hole in gutter and insert outlet
- GutterGlue required for installation

FGSCREW3

Structural Fastener

The FiberGutter structural screw is made of stainless steel to provide you with tensile, torque and shear strength. The sharp threads and points bite instantly into the back wall of FiberGutter without having to Pre-Drill. The round head with built-in shield (washer type head) has no sharp edges like conventional lag screws. All structural fasteners carry a lifetime warranty.

Fiberglass Rain Gutter System

Part #	Description	QTY
FG6016	4x5 Fiberglass Gutter (16ft)	
FG6024	4x5 Fiberglass Gutter (24ft)	
FG6040	4x5 Fiberglass Gutter (40ft)	
FG9016	4x6 Fiberglass Gutter (16ft)	
FG9024	4x6 Fiberglass Gutter (24ft)	
FG9040	4x6 Fiberglass Gutter (40ft)	
FG7516	4X5 Fiberglass Gutter w/ 1-3/4" Bed Molding (16')	
FG7524	4X5 Fiberglass Gutter w/ 1-3/4" Bed Molding (24')	
FG7540	4X5 Fiberglass Gutter w/ 1-3/4" Bed Molding (40')	
DSPR-10	3" Plain Round Fiberglass Downspout (10')	
DSPR-EL75	3" Plain Round Fiberglass Elbow (75 Degree)	
FDSTAB1	Downspout Connecting Sleeve 3" Plain Round (Use gutter Glue to connect to pipes and elbows)	
DSHGRD3	3" Plain Round Downspout Hanger (2 hangers per pipe)	
DSSQ-10	3" x 3" Square Fiberglass Downspout (10')	
DSSQ-EL75	3" Square Fiberglass Elbow (75 degree)	
FDSTAB2	Downspout Connecting Sleeve 3" Square (Use gutter Glue to connect to pipes and elbows)	
DSHGSS3	3" x 3" Square Downspout Hanger (2 hangers per pipe)	
FGEC1	4x5 Fiberglass Endcap G-60, G75	
FGEC2	4x6 Fiberglass Endcap G-90	
FG238	PVC Downspout Outlet 2-1/2" (use 2-3/8" hole saw)	
FGGG220	GutterGlue Seaming Kit (2 miters - 2 Outlets - 2 Endcaps)(Gutter glue applicator gun required)	
MT80	GutterGlue Mixing Tips (24 Count)	
ST2GG	2" FiberGlass Woven Seam Tape (50')	
FGDISP-220ML	GutterGlue Applicator Gun (220ml)	
FGRDGG	4 x 5 and 4X6 FiberGutter Leaf Guard RDGG (3' pc) (30 pc per box)	
GRK60S-1	Structural Screw Stainless (50Ct) 2-1/2" x 5/16" (1 screw per 1.5 feet or every rafter tail)	
FG2P10	instant adhesive Holds parts together for easy assembly before gutter glue is applied (2p10)	

Additional items	Typical gutter install will require
Hole saw 2-3/8"	Gutter
Diamond saw blade or nonferrus metal blade 12" 96 tooth	Outlets
Acetone	Endcaps
Rags	Screws
Rubber gloves	Gutter Glue
Sealant to back seal gutter if applicable	Instant adhesive (2p10)
6" Extension for impact gun (makes driving screws easier)	Downspouts
T 30 Bit

Why Choose FiberGutter

Learn why fiberglass gutter is the best choice for your home

www.fiberglassutter.com/about

Fiberglass Gutter & Downspout

FiberGutter® brand Fiberglass Gutter will never chip, dent, corrode, leak or rust.

Unmatched Durability & Strength
The strength of these fiberglass gutters provides unmatched impact resistance and virtually zero expansion and contraction eliminating maintenance, moisture damage, and rotting associated with other gutter materials.

FiberGutter is highly UV stable, and significantly more impact resistant than vinyl, aluminum and copper gutters.

FiberGutter FAQ

What Length is FiberGutter Manufactured?

Our FiberGutter is manufactured in 16', 24', & 40' lengths.

What Other Accessories do I Need with FiberGutter?

We have a complete list of accessories on our [MEASUREMENT FORM](#)

Can my Contractor Install FiberGutter?

Yes, we have painters, exterior contractors, general contractors, carpenters and handymen install FiberGutter. We even have the DIY homeowners purchase gutter and accessories and successfully install it themselves.

How is FiberGutter Attached to the Fascia Board?

The fasteners is a 2-1/2 inch 316 Stainless Fastener that should be screwed into the back of the gutter at every rafter end. NO Brackets to clog the gutter!

What Profiles are Available?

We have the standard 4x5 and 4x6 replicas of the Boston Proper Wood Gutter, and a 4x5 with a 1-3/4" bed-molding attached

You can always install a PVC or wood molding below the gutter at the time of Installation to achieve your desired appearance.

How Do I cut FiberGutter?

We recommend using a Standard 12" Miter Saw with a Carbide Blade or Diamond Blade. See complete [INSTRUCTIONAL VIDEO](#)

What color is the gutter?

The gutter is manufactured in a UV protected white resin and can be painted with any latex paint.

Most contractors will paint the gutter along with the trim. Paint on fiberglass can last 5 times longer than paint on wood

How are the seams assembled?

We have created a system to simplify the entire installation using our proprietary product called GutterGlue.
