RESTORING HOPE MINISTRIES

RHSBC
RESTORING HOPE SCHOOL OF BIBLICAL COUNSELING

CALM THE STORM. STRENGTHEN ATTENTION.

BrainPaint® neurofeedback as an adjunctive support through Restoring Hope Ministries

A calm mind can create more room for listening, learning, and healing.

1. WHAT IT IS

Neurofeedback uses real-time feedback to help people practice regulation and attention.

2. WHY PEOPLE SEEK IT

- Stress and overwhelm
- Attention and focus
- Recovery support
- Regulation and resilience

3. HOW WE USE IT

At RHM, neurofeedback is used thoughtfully as an adjunctive support alongside counseling and biblical counseling — not as a replacement for relational care.

4. ASK ABOUT ACCESS

Ask about church-partner pathways and scholarship options that may help reduce cost for eligible participants.

Dr. Jeffrey W. Gross

President, RHSBC | Lead Counseling Pastor, RHM

"Walk alongside.
Speak truth in love.
Point to Christ.
Keep hope alive."

Adjunctive services do not replace emergency, medical, or independently indicated mental health care.
