

— TELOS STRATEGIC ASSESSMENT

Three weeks to know exactly where AI can unlock your scale.

You're running an operation where the business runs through your systems, and you know parts of it are slower and more manual than they should be. We map those workflows, identify where AI and automation create the highest return, and give you a prioritized plan with numbers behind it. **Delivered by a team that builds, not just advises.**

\$75–125K

In identified savings and automation opportunities from a single three-week engagement. Workflow analysis, written 90-day roadmap with ROI projections, and quick wins implemented during the assessment.

PLATFORM MODERNIZATION · SELECTED ENGAGEMENT

— WHAT YOU GET

AI opportunity map

Where you're losing time and margin, including where AI isn't the answer. Ranked by ROI.

Systems reality check

What your tools actually do vs. what you think they do, and where data is leaking between systems.

Live quick wins

At least one workflow improved during the three weeks. Real change before the engagement ends.

Written 90-day plan

What to automate, what to buy, what to leave alone — with ROI projections. Every step is your decision.

— HOW WE WORK

WEEK 1

Listen and map

Interviews with your operators and team leads. We observe real workflows to identify what's actually happening.

WEEK 2

Model and evaluate

We map your highest-priority workflows, including what needs to happen before AI adoption.

WEEK 3

Decision and plan

Clear recommendations and a 90-day plan you can execute on your own or with Telos alongside you.

— SELECTED ENGAGEMENTS

OPERATIONS ASSESSMENT

a-connect (global consulting platform).

Process gaps and integration improvements shipped during a three-week engagement.

Outcome: streamlined operations with a phased modernization path.

FINTECH OPERATIONS

Flourish Fi (a Telos Labs company) drives engagement and loyalty workflows for Carrefour and other regulated financial partners.

Behavioral mechanics built on regulated rails.

REGULATED AI

Contract intelligence platforms for Law Insider and SimpleDocs. Production AI for high-stakes legal workflows.

AI scoped to ship under audit, not demo.

— NEXT STEP

A 30-minute call to scope the assessment for your business. **Fixed price.** We confirm fit, share the SOW format, and align on the access needed for week one.

— SCOPE YOUR ASSESSMENT

Ready to find out where your operation is leaving scale on the table? Let's scope three weeks for your team.
