Visitor Information

Welcome to the Pavilion Experience Centre

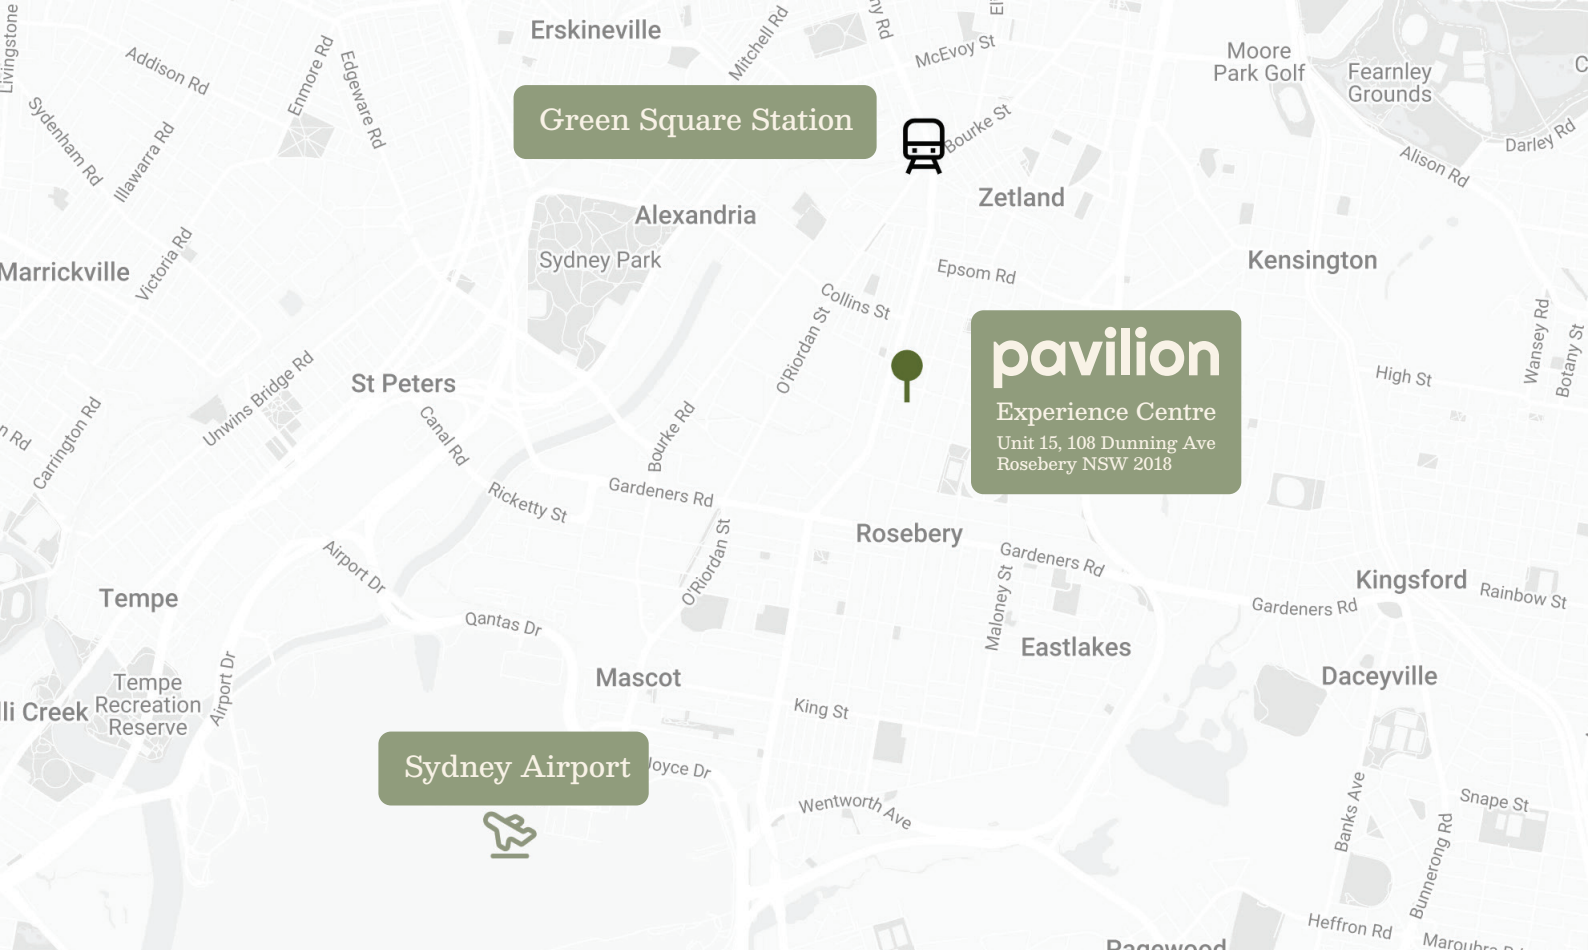

We are delighted to welcome you.

The Pavilion Experience Centre has been created as an immersive space where designers, operators and project teams can experience retirement living furniture in the environments it was designed for.

Rather than simply viewing products, we invite you to explore complete living settings, discover materials and finishes, and discuss how thoughtful furniture can create places people genuinely want to call home.

Whether you're planning a new village, refurbishing existing spaces or simply seeking inspiration, we look forward to sharing ideas with you.
