Luxury Tents & Habitats

The Serenity Collection

The Serenity Collection embodies the calming heart of Savanna Luxury Tents & Habitats — a refined expression of wilderness comfort crafted for destinations that value balance, beauty, and a gentler kind of luxury.

Designed for thoughtful developers, conservation-focused owners, and operators seeking elevated simplicity, this collection blends graceful architecture, efficient engineering, and a deep respect for the natural environment.

Each habitat is shaped as a harmonious extension of its surroundings: light-touch, elevated where needed, and carefully detailed to deliver a 4-star guest experience that feels peaceful, restorative, and connected to place.

With the Serenity Collection, we introduce a new standard of quiet luxury — where canvas softens into form, where nature guides the design, and where every line and material choice is shaped by the pursuit of balance and wellbeing.

This is more than a considered offering. It is an invitation: to soothe your guests, enrich your property, and redefine what serene wilderness hospitality can be.
