IB Roof Systems®

# SPECIFY PERFORMANCE.

## Specify Roofing Systems Engineered for Long-Term Building Performance.

When architects and specifiers design for lifecycle value, energy efficiency, code compliance, and long-term durability, every roofing detail matters. IB Roof Systems delivers complete commercial roofing assemblies engineered for superior performance on commercial, industrial, institutional, and civic buildings with confidence.

From high-performance PVC and TPO membranes to restoration coatings, edge metal systems, and complete roof assemblies, IB provides specification-driven solutions designed to reduce risk, improve building performance, and simplify project coordination.

### Need Long-Term Roofing Performance?

IB roofing systems are engineered for durability, weather resistance, and long-term watertight protection.

### Looking to Reduce Callbacks & Risk?

Heat-welded seams, integrated accessories, and complete roofing assemblies improve installation consistency and long-term reliability.

### Designing for Energy Efficiency & Sustainability?

Reflective membranes and restoration systems help reduce rooftop heat gain and support energy-efficient building design strategies.

### Need a Complete Roofing Assembly?

IB offers compatible system components designed to work together.

### Working on Restoration or Recovery Projects?

Acrylic and silicone restoration systems help extend roof life while reducing disruption, tear-off costs, and landfill waste.

## COMPLETE COMMERCIAL ROOFING SOLUTIONS

High-Performance Roofing Systems for Architects & Specifiers

**Single-Ply Roofing Systems**
- High-Performance PVC Roofing Systems
- Premium TPO Roofing Systems
- Heat-Welded Seam Technology
- Reflective Cool Roof Membranes
- Complete Roofing Assemblies Available

**Roof Restoration Systems**
- Acrylic Roof Restoration Systems
- Silicone Roof Coating Systems
- Cost-Effective Roof Recovery Solutions
- Extend Existing Roof Lifecycles
- Reduce Tear-Off & Disposal Costs

**Roofing Accessories & Components**
- Roofing Perimeter Edge Metal Systems
- Integrated Flashing & Drainage Solutions
- Curbs, Penetrations & Prefabricated Accessories
- Insulation & Cover Board Assemblies
- Complete System Compatibility

## QUICK PERFORMANCE SNAPSHOT

| FEATURE | IB PVC | IB TPO | RESTORATION SYSTEMS |
|---|---|---|---|
| Reflective Cool Roof Technology | Yes | Yes | Yes |
| Heat-Welded Seams | Yes | Yes | N/A |
| ASTM Compliant Systems | Yes | Yes | Yes |
| Large Commercial Applications | Ideal | Ideal | Ideal |
| Ponding Water Resistance | Exceptional | Excellent | Excellent |
| Energy Efficiency Support | Excellent | Excellent | Excellent |
| Restoration Capability | Yes | Yes | Primary Function |
| Warranty Options Available | Up to 30 Years" | Up to 25 Years" | System Dependent* |

*Based on approved assemblies, specifications, and project conditions.

## NATIONWIDE REACH. LOCAL SUPPORT.

With a network of qualified partners across the U.S., IB Roof Systems delivers responsive service wherever your business is.
