

One Card. One Certification Number. A More Connected Record.

Independent Trust Infrastructure for Graded Trading Cards.

The **Global Trading Card Registry (GTCR)** gives collectors and the trading card industry an independent way to register, check, protect, and maintain information associated with graded trading cards throughout their lifecycle.

REGISTER. VERIFY. PROTECT. TRANSFER.

REGISTER

Create a record for your graded cards.

Voluntarily register graded cards using their grading-company certification numbers to establish a continuing registry record.

VERIFY

Run a GTCR Trust Check.

Search a certification number for registration, lost/stolen, dispute, recovery, provenance, and other GTCR status.

PROTECT

Report lost or stolen cards.

Put the hobby on notice when a graded card is lost or stolen — and update its status if the card is recovered.

TRANSFER

Let the record follow the card.

When supported, transfer a GTCR registration when a card is sold, traded, or gifted, preserving continuity.

WHY USE GTCR?

- ✓ Free public GTCR Trust Checks
- ✓ Voluntary graded-card registration
- ✓ Lost & stolen card protection
- ✓ Tools for collectors & industry partners
- ✓ Privacy-first ownership information
- ✓ Registry transfer capabilities
- ✓ Developing card provenance records
- ✓ Independent infrastructure powered by CTCA

BEFORE YOU BUY, SELL OR TRADE A SLAB...

CHECK IT FIRST.

Scan the code to run a GTCR Trust Check.

www.thegtcr.com

SCAN TO CHECK

THE CARD IS PUBLIC. THE COLLECTOR IS PRIVATE.

GTCR surfaces useful information about a graded card and its registry status without publicly exposing the identity of the registered collector by default. A GTCR registration documents information associated with a graded card and its certification number; it does not establish or determine legal ownership or title.

Building a Safer, Smarter, Stronger Hobby

GTCR is being built as a neutral trust layer connecting collectors, dealers, grading companies, marketplaces, technology platforms, insurers, card shows, and other industry participants.

One card. One record. Across the hobby.

REGISTER. VERIFY. PROTECT. TRANSFER.
