“WATCH THE WEATHER”

The Honorable Minister Louis Farrakhan

INTRODUCING WEATHER WATCHMEN

A CALL TO CARE. A CALL TO ACTION.

“Brother Farrakhan has instructed us to Watch The Weather. There has been an increase of severity in the weather and just as he told us, The Worst Is Yet To Come. It's time that we become Weather Watchmen.”

WE WATCH.
WE WARN.
WE PROTECT.

I WATCH.

I check the forecast every day and monitor local conditions.

I WARN.

I send alerts and updates to my family when severe weather is possible.

I PROTECT.

I help keep my family safe before, during, and after severe weather.

TOGETHER, WE CAN KEEP OUR
FAMILIES AND COMMUNITY SAFE.

Be informed. Be prepared. Be a Weather Watchmen.

#WatchTheWeather

I AM A WEATHER WATCHMEN

◆ WE WATCH. WE WARN. WE PROTECT. ◆

“Staying informed today helps protect our people and our way of life tomorrow.”

As a Weather Watchmen, I help my Isleta Pueblo, my extended relatives, and all the Pueblos stay informed and safe.

ONE COMMUNITY. MANY PUEBLOS. STRONGER TOGETHER.

ISLETA PUEBLO

SANTA ANA PUEBLO

SANDIA PUEBLO

LAGUNA PUEBLO

ACOMA PUEBLO

ZUNI PUEBLO

We look out for one another. When severe weather threatens, we share information and watch over each other.

Together, our Pueblos are prepared and resilient.

HOW I HELP MY COMMUNITY

I WATCH

I monitor weather forecasts and trusted sources every day.

I WARN

I send alerts to my family, relatives, and neighbors.

I SHARE

I share information so everyone can make safe decisions.

I PROTECT

I help keep our elders, children, and culture safe from harm.

ISLETA PUEBLO

< TO: Family & Extended Relatives

Severe thunderstorms possible this evening in our area. Heavy rain, lightning, and strong winds may cause flooding. Please stay alert and be safe.

We watch. We warn. We protect.
—Your Weather Watchmen

5:47 PM

1. WATCH
2. WARN
3. SHARE
4. PROTECT

A simple message can make a big difference.

WHEN WE STAY INFORMED,
WE STAY PREPARED.
WHEN WE WORK TOGETHER,
WE ALL STAY **SAFE**.

◆ WE ARE WEATHER WATCHMEN. PROTECTING OUR PEOPLE. PRESERVING OUR FUTURE. ◆

Disaster Defined

DISASTER = HAZARDS + PEOPLE & PROPERTY

“As defined by the Stafford Act, any natural catastrophe (including any hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause, any fire, flood or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance...”

FEMA.gov

Report: Texas has most uninsured kids

Workers protest Medicaid cuts last year, which left millions disenrolled and without health coverage.

BY EMILY BRINDLEY
THE DALLAS MORNING NEWS

A new report found that the number of uninsured young children increased significantly between 2022 and 2024, leaving more children under the age of 6 with less certain access to health care. And Texas, the report found, is the state with the highest rate of young children without insurance.

A report published Monday by Georgetown University's Center for Children and Families found that the nationwide uninsured rate for young children — defined as children younger than 6 — grew a full percentage point from 2022 to 2024. That puts the current national uninsured rate for young children at 5.3%, the report said, which is the highest it's been in almost a decade.

ENERGY & ENVIRONMENT

FEMA staff losses leave questions about hurricane season

2 BY RACHEL FRAZIN AND MALLORY WILSON - 06/04/26 6:00 AM ET

Federal Emergency Management Agency (FEMA) staffing losses after a tumultuous year at the agency are raising questions about whether it will be able to effectively respond to this hurricane season.

While the Trump administration has backed off its most controversial ideas — such as [outright eliminating FEMA](#) or cutting its staff by 50 percent — the agency is still facing fewer employees, an uncertain direction and a yet-unconfirmed leader, leaving observers wondering how well it will handle disasters in the months ahead.

Since January 2025, FEMA has lost 5,000 staffers, [according to a letter last month](#) from House Democrats, and it has seen some high-profile resignations — including the [head of its urban search and rescue division](#).

According to FEMA's [website](#), several senior leadership roles are also vacant.

Trump Wanted to Abolish FEMA. His Own Advisers Disagree.

A panel convened by President Trump is said to have rejected the president's idea that the agency should "go away."

 [Account](#)

OPINION // OUTLOOK

Hello, summer heat. Texas needs to get serious about avoiding a water crisis. | Opinion

Corpus Christi's shortages are not an isolated failure but a glimpse of what more of Texas could face without faster, larger and smarter water planning.

By [Michael E. Webber](#)

May 20, 2026

 [Gift Article](#)

HURRICANE SEASON *IS HERE.*

For CenterPoint Energy, preparing
for storms is a 365-day job.

Every day, we're working to strengthen Greater Houston's
electric grid, improve storm resilience, and position our crews
so they are ready to respond safely and efficiently.

THAT MEANS:

Strengthening the grid with
more resilient poles, strategic
vegetation management, and
underground power lines.

Improving storm forecasting
through advanced weather
stations and predictive
weather modeling.

Expanding response capacity
with access to up to 20 times
more frontline workers during
major storm events.

Accelerating restoration through
advanced weather tracking,
damage modeling, and enhanced
crew management tools.

These investments are designed to help reduce outages, restore
power faster, and strengthen the grid for future storms.

ERCOT expects record power demand

Heat, data centers fuel
usage surge, but risk of
blackouts low, state's grid
operator says

ERCOT raises bar for data center hookups

Goal is to distinguish viable projects from speculation proposals

Construction workers wire electricity lines in Dallas TX4 data center's mechanical galley under construction in Garland .

So many data centers are clamoring to connect to the Texas power grid that it's hard to figure out which projects are actually serious, grid officials say.

In response, the Electric Reliability Council of Texas on Tuesday approved sweeping new requirements that data centers will have to meet in order to receive first dibs to connect to the state's power grid.

The new rules set a much higher bar for data centers and other large electricity users to be studied by ERCOT for approval to connect to the grid. For example, project developers would have to pay an upfront deposit covering the cost of grid upgrades, among other requirements, to demonstrate their legitimacy.

Google pledges \$10M for water

BY REBEKAH F. WARD AND MEGAN KIMBLE

STAFF WRITERS

Google will spend \$10 million on water projects in Texas communities where it plans to build data centers, the company announced Wednesday — a first-of-its-kind investment that comes amid growing backlash to the resource-intensive projects.

The company also said it will replenish more water than its data centers consume by 2030, and report usage numbers publicly as part of an effort to craft a “blueprint” for responsible water management. Google has

Mitigation

The sustained capabilities necessary to reduce loss of life and property by lessening the impact of disasters.

The goal of mitigation is to save lives and reduce property damage.

https://emilms.fema.gov/is_0393b/groups/143.html

Mitigation

Power companies harden infrastructure. Cities plan for grid stress. Communities identify backup facilities like shelters or cooling/warming centers.

Saffir-Simpson Hurricane Wind Scale

Category 1 - 5

1

WIND: 74-95 mph

DAMAGE: Very dangerous winds will produce some damage

2

WIND: 96-110 mph

DAMAGE: Extremely dangerous winds will cause extensive damage

3

WIND: 111-129 mph

DAMAGE: Devastating damage will occur

4

WIND: 130-156 mph

DAMAGE: Catastrophic damage will occur

5

WIND: 157 mph or higher

DAMAGE: Catastrophic damage will occur

How to Read the Saffir-Simpson Hurricane Wind Scale

The Saffir-Simpson scale is based on a hurricane's maximum sustained wind speed, and does not take into account other hazards like flooding and tornadoes.

Hurricane Category	Wind Speed	Damage Summary	
1	75-95 mph 119-153 km/h	Some Damage: Minor damage to homes & and short-term power loss	
2	96-110 mph 154-177 km/h	Extensive damage: Major roof damage to buildings & near-total power loss	
3	111-129 mph 178-208 km/h	Devastating damage: Electricity & water unavailable for up to several weeks	
4	130-156 mph 209-251 km/h	Catastrophic damage: Severe damage to homes, with long-lasting power outages & road blockages	
5	157 mph+ 252 km/h+	Catastrophic damage: High % of homes destroyed; area uninhabitable for weeks or months	

HURRICANE CATEGORIES — EXPLAINED —

CATASTROPHIC

CATEGORY 5 157+ mph
CATASTROPHIC

REMEMBER: CATEGORY ONLY MEASURES
WIND SPEED, NOT STORM SURGE,
FLOODING, OR RAINFALL

Category	Wind Speed (mph)	Damage at Landfall	Storm Surge (feet)
1	74-95	Minimal	4-5
2	96-110	Moderate	6-8
3	111-129	Extensive	9-12
4	130-156	Extreme	13-18
5	157 or higher	Catastrophic	19+

Inland Flooding

It doesn't take a major hurricane to cause major impacts to an area. Even relatively weak tropical systems can produce vast amounts of rainfall well inland from the coast, leading to devastating flooding.

Storm Surge along the Coast

Your Location

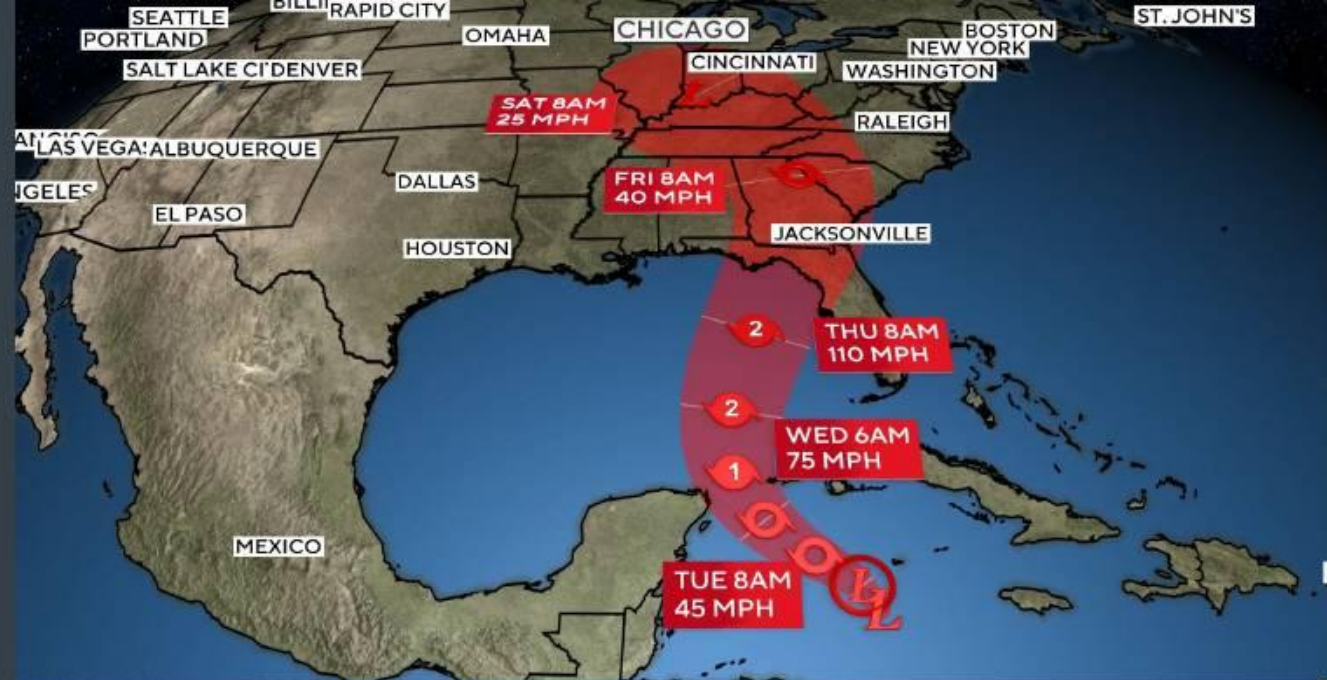

Flooding from Heavy Rain

INLAND FLOODING

weather.gov/flood

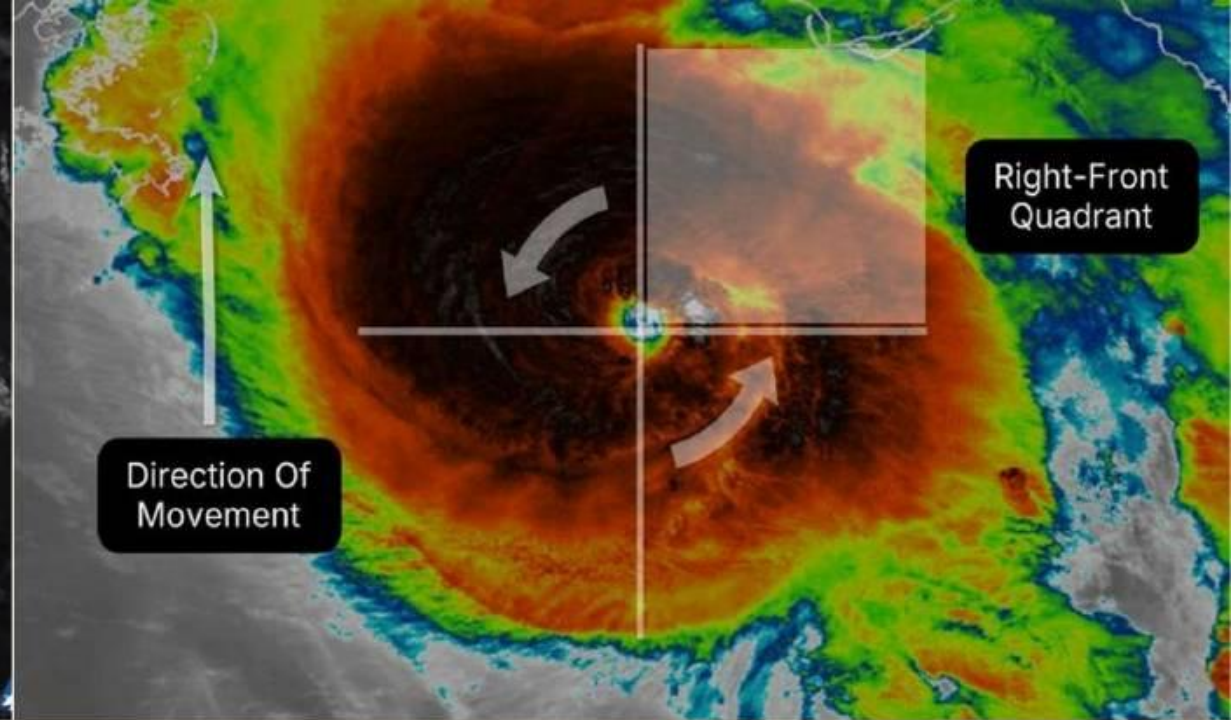

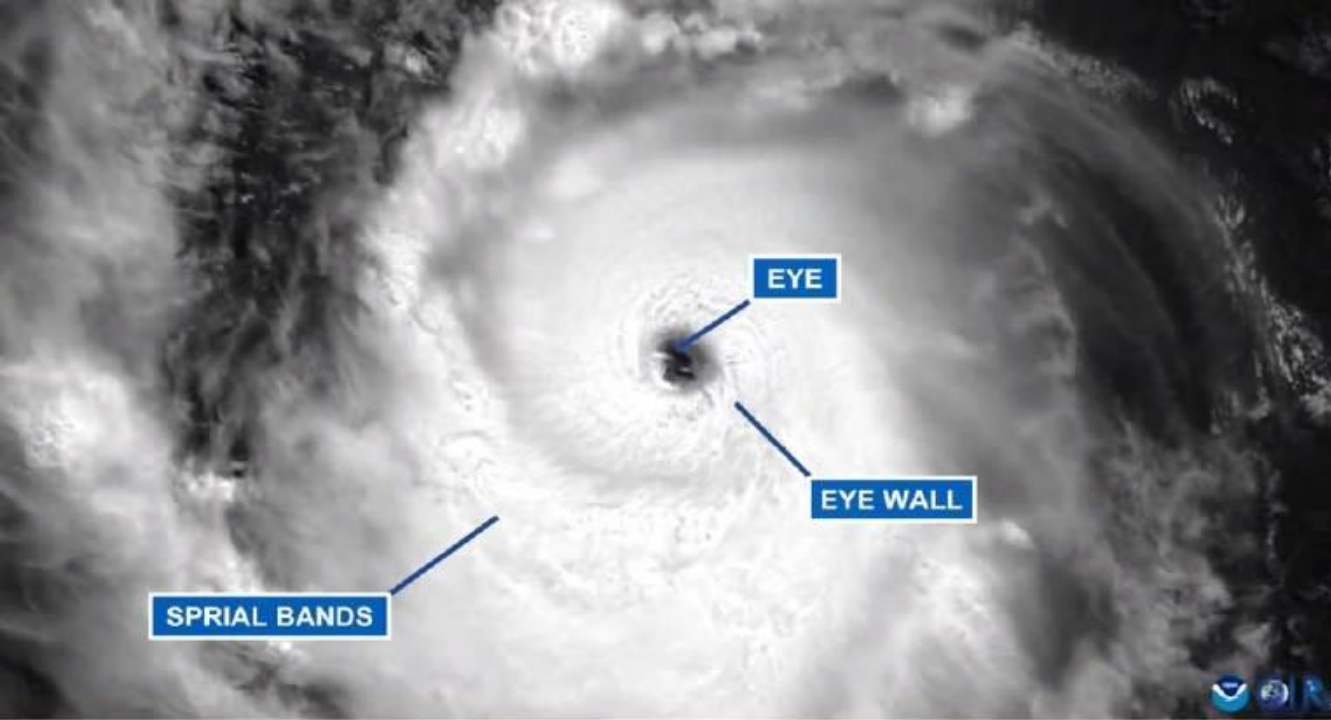

ASHEVILLE, NC
HURRICANE HELENE
2024

CHICAGO WEATHER

Chicago weather: Remnants of Helene to bring 50+ mph winds, rain to Illinois

As Helene, now a tropical storm, moves across Georgia, the outer bands of the storm were expected to move as far north as southern Illinois and southwest Indiana by Friday afternoon

Response: During the Hurricane
The Goal: Survival through discipline.

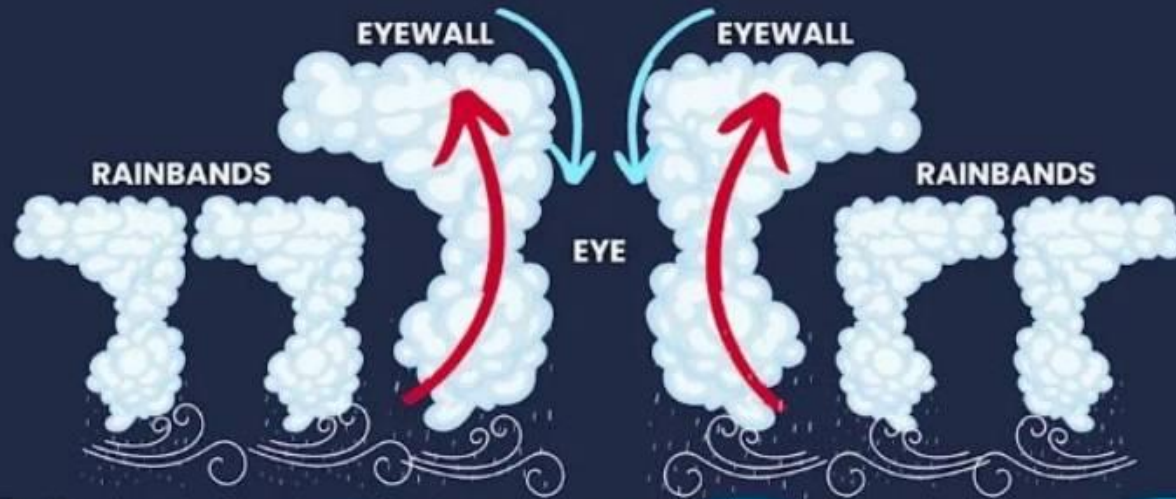

- **The Eye: Warning!** If the wind stops suddenly, you are in the eye. Do not go outside. The "back side" of the storm often brings the most violent winds from the opposite direction.

Generator Safety: This is a critical gap.

- **Rule:** Generators must be 20 feet away from the house.
- **Why:** Carbon Monoxide is the "silent killer" of hurricane season, often claiming more lives than the wind itself.
- **Flood Survival:** If water rises in your home, move to the highest floor – but never go into a closed attic. If you must go to the roof, bring a tool (like an axe) to break through.

RECOVERY

The necessary capabilities to assist communities affected by an incident to recover effectively.

<https://training.fema.gov/emiweb/is/icsresource/assets/glossary%20of%20related%20terms.pdf>

Recovery

- Files insurance claims
- Helps neighbors clean up
- Reviews what failed and improves plans
- Supports emotional recovery of family and community

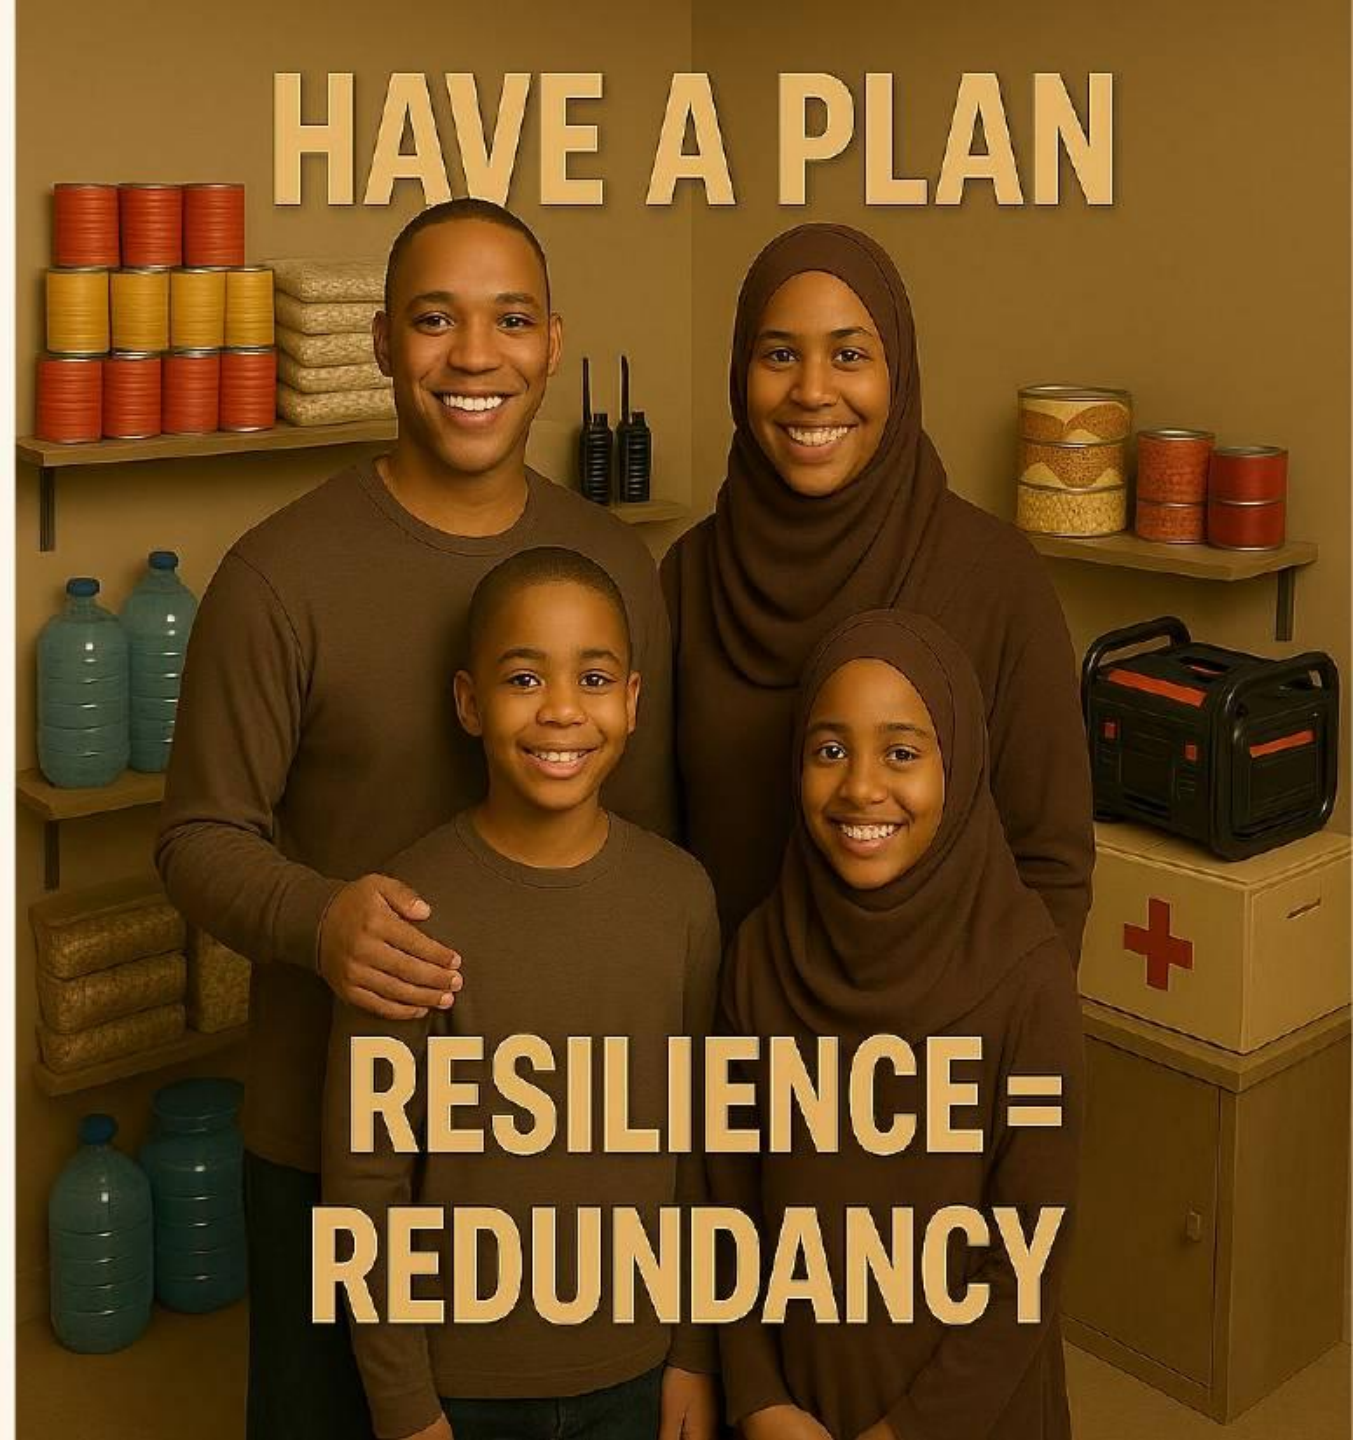

Preparedness: Before the Hurricane

The Goal: Practicality over Panic.

Preparedness Pillar	Key Action Items
Property	Document everything. Take a video of every room/appliance for insurance <i>before</i> the season starts.
The Kit	The "Rule of Three": 3 days of supplies for evacuation; 2 weeks for staying home. Don't forget a manual can opener.
The Plan	Establish an Out-of-State Contact . Local lines get jammed; long-distance texts often go through more easily.
Documents	Keep digital copies in a "Cloud" folder and physical copies in a "Dry Bag." Include: Passports, insurance policies, and pet immunization records.

Pet Preparedness: Many public shelters do not accept pets. **YOU** must identify "pet-friendly" hotels or boarding facilities in advance.

**BACKUP PLANS FOR PLANS

EVACUATE**

STORM PLANNING TIMELINE

A few days out

If the forecast calls for severe weather in a few days, start preparing now.

Make sure that you have emergency supplies

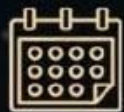

Know your safe places

Have a family communication plan

The day before

The day before, forecast accuracy continues to improve.

Adjust plans

Make sure your phone can receive WEAs

Ensure your shelter is clean and accessible

The day of

Remain vigilant and aware of any active Watches. A Warning may be issued at a moment's notice!

Remind your family of the communication plan

Know how to evacuate and/or get to safety from wherever you are

When a Warning is issued, you may only have seconds to take action!

Recovery

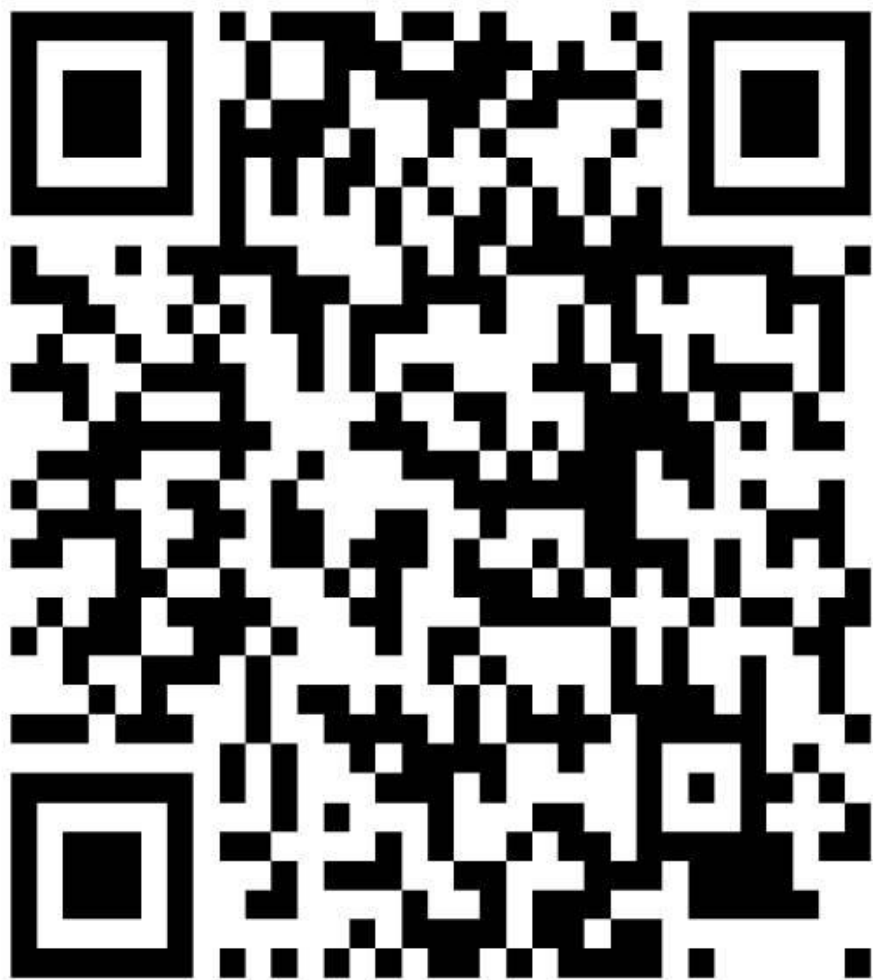

Power is restored, food losses are addressed, and systems evaluate what needs improvement before the next outage.

Weathering The Storm: Disaster Preparedness - How To Survive The Fall of America
Author: David M. Johnson, Publisher: Amazon.com

Recovery: After the Hurricane
The Goal: Avoiding the "Second Wave" of injuries.

The "First 72" Rule: In a major disaster, emergency services may be overwhelmed. You are your own "First Responder" for the first 72 hours.

- **Chain Saw Safety:** A leading cause of post-storm ER visits. If you aren't trained, don't use one.
- **The Insurance "First Call":** Contact your agent immediately, even if you don't have the full scope of damage yet. Claims are often processed in the order they are received.
- **Mental Health:** Acknowledge "Disaster Fatigue." Remind participants that it is normal to feel overwhelmed and to seek community support.

Costco Business Center

Open to all Costco members, but designed with businesses in mind.

Open early! Monday - Sunday: 7 a.m. - 6 p.m.

Shop in warehouse and online at [CostcoBusinessDelivery.com](https://www.CostcoBusinessDelivery.com)*

High-quality products at a great value. More than 60% of our items are different than those found at a typical Costco.

- Wide variety of candy and snacks
- Expanded selection of beverages
- Individually packaged items for resale
- Restaurant supplies and disposables
- Commercial appliances
- Broad range of meat and produce in food service quantities

Warehouse Payment Options - Costco accepts all Visa® cards, as well as cash, checks, debit/ATM cards, EBT and Costco Shop Cards.

Products and Instant Savings - Instant Savings are valid only March 2 - 29, 2026, at Costco Business Center unless otherwise indicated. Selection may vary by location. A valid Costco membership is required. State law may require sales tax to be charged on the pre-discounted price if the product is subject to sales tax. These items, if any, are in addition to the amount that you are paying for the product. Quantities are limited. Item limits apply, per member. Instant Savings limited to inventory available from manufacturer. No rain checks will be issued for out of stock items. All Instant Savings are off the regular walk-in or delivered price. All Instant Savings are available for delivery unless indicated.

Delivery orders must be placed online at [CostcoBusinessDelivery.com](https://www.CostcoBusinessDelivery.com) or SameDay CostcoBusinessDelivery.com to receive Instant Savings. Not all Instant Savings are available on Costco.com and may not be combined with any other Instant Savings or coupons. Tobacco items are for resale only and are not available for delivery. Member must have a current Cigarette and Tobacco Certificate on file with Costco to purchase tobacco items. No cash redemption value.

Pricing - All prices listed on CostcoBusinessDelivery.com and SameDay CostcoBusinessDelivery.com are delivered prices. Warehouse prices are lower. Pricing may vary by location in AK, HI, PR, Costco Business Center, Costco.com and CostcoBusinessDelivery.com.

Corrections of Errors and Omissions - We reserve the right to correct any errors and/or omissions found in this book.

*Delivery is not available in Haverhill, MA, except through SameDay CostcoBusinessDelivery.com.

MEMBER-ONLY SAVINGS

Instant Savings on pages 3-13 are available at Costco Wholesale and Costco Business Center.

SAVE \$550 + Costco.com
