Professor is highly knowledgeable & gives good advice on the skills we need & the jobs we should go for after college. He's very understanding & he does a great job preparing us for all the materials.

I think he is a very good professor. He likes to spend his time with his students and helps or helped us with real life business problems. 😊

Prof Aryarad was a great Prof to have this semester. He understood the class and made the class not seem stressful at all! Assignments and HW had more than enough time to be completed and tests were take home to accommodate students. I learned a lot in the class while also not being stress.

Great semester a bit confused at first but after making the class is great.
