NOTODDEN ICAO: ENNO

EUROPE'S PREMIER AVIATION & AFF SANDBOX

# Notodden Test Arena

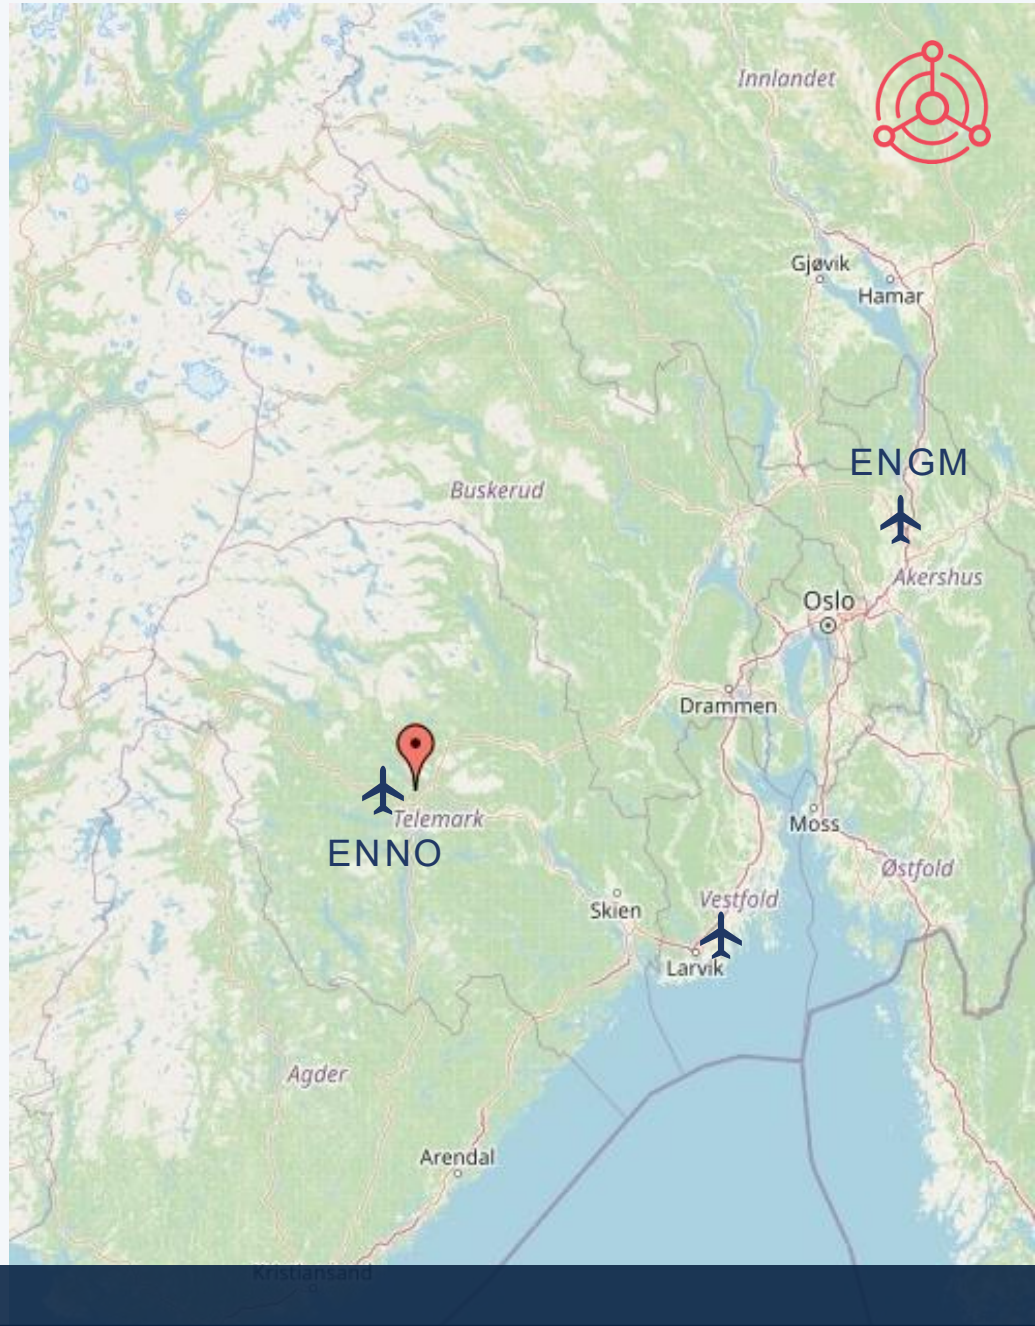

Unlocking next-generation aerial firefighting, amphibian operations, and aviation innovation in the heart of Norway.

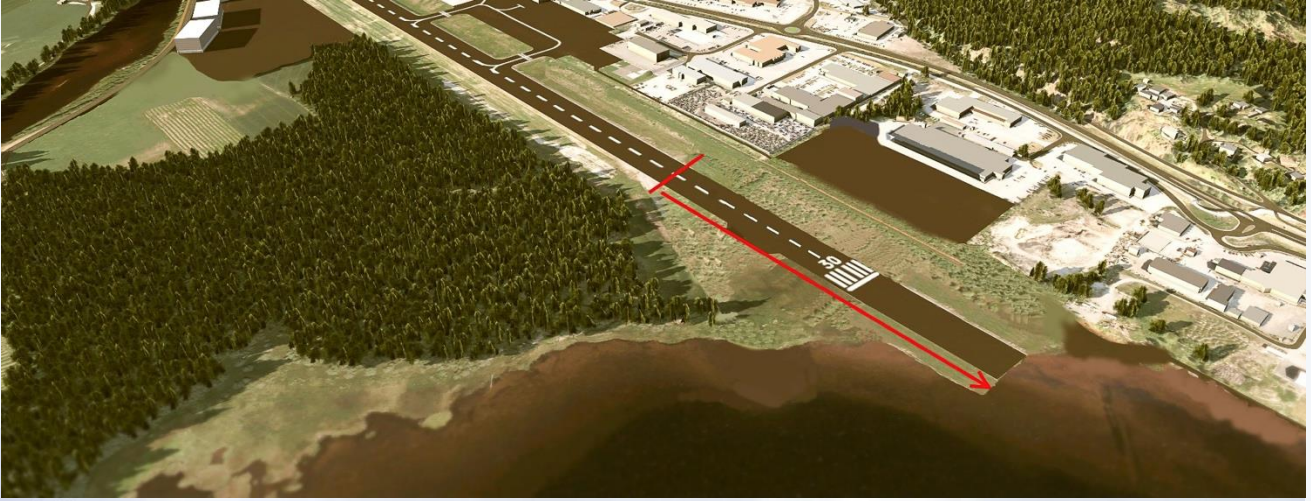

# Two hours from Oslo. A world apart.

*The perfect balance of rugged Norwegian wilderness and uncompromised modern accessibility.*

- **1,5 HRS** — Direct drive from Oslo — your team is on the tarmac before lunch.
- **UNESCO** — Located inside a UNESCO World Heritage city - Notodden.
- **2 MIN** — Full city center and amenities sit two minutes from the runway.
- **ON-SITE** — High-quality accommodation in the immediate vicinity.

R U N W A Y · R A M P · L A K E

ENNO · Notodden Test Arena

# The European Unicorn.

# 1 of 2

*airports in all of Europe with a direct runway-to-water amphibian ramp.*

- **Long, robust hard-surface runway**
  Built for everything from light amphibians to firefighting tankers.
- **Direct ramp to Lake Heddalsvannet**
  Drive off the runway end straight into open water.
- **Seamless land–water transition**
  Run multi-mode test campaigns without ferrying aircraft.

# Fly whenever. However.

## 24 / 7 OPERATION

### 24.000 Movements pr year limitation

This ensures unrestricted 24/7 access, allowing you to execute intensive flight schedules without delays, flexibility for day and night operations, maximizing your productivity and testing efficiency.

## AFIS & JET A-1

### Fully Manned Tower

Our dedicated AIFS team ensures seamless coordination and maximun safety for all operations. We provide real-time airspace managment tailored to your mission needs.

## LONG RUNWAY & IFR

### Airport Facilites & Advanced Approaches

Our 1700-meter asphalt runway accommodates a wide range of aircraft types. Combined with a long asphalt runway, we offer an ideal environment for advanced flight profiles

## CERTIFIED MRO

### Flyteknisk Notodden MRO

Authorized Diamond Aircraft dealer, renowned for their expertise in composite materials and recognized as Europe's most experienced seaplane specialists.

# The AFF Epicenter.

*Built around the people who actually fight Norway's fires.*

**ON THE RUNWAY**
Norway's leading forest fire department is strategically based at ENNO.

**DRIVES INNOVATION**
Heavy investment in crew competence and active R&D partnerships.

**LIVE-FIRE TESTING**
Real-world development for forest fire preparedness on-site.

# Train where it's hardest.

## Demanding IFR approaches

Deeply challenging instrument approach procedures — perfect for advanced training and certification.

## One demanding envelope

Mountains, sea, lakes and dense forest — all from a single tarmac.

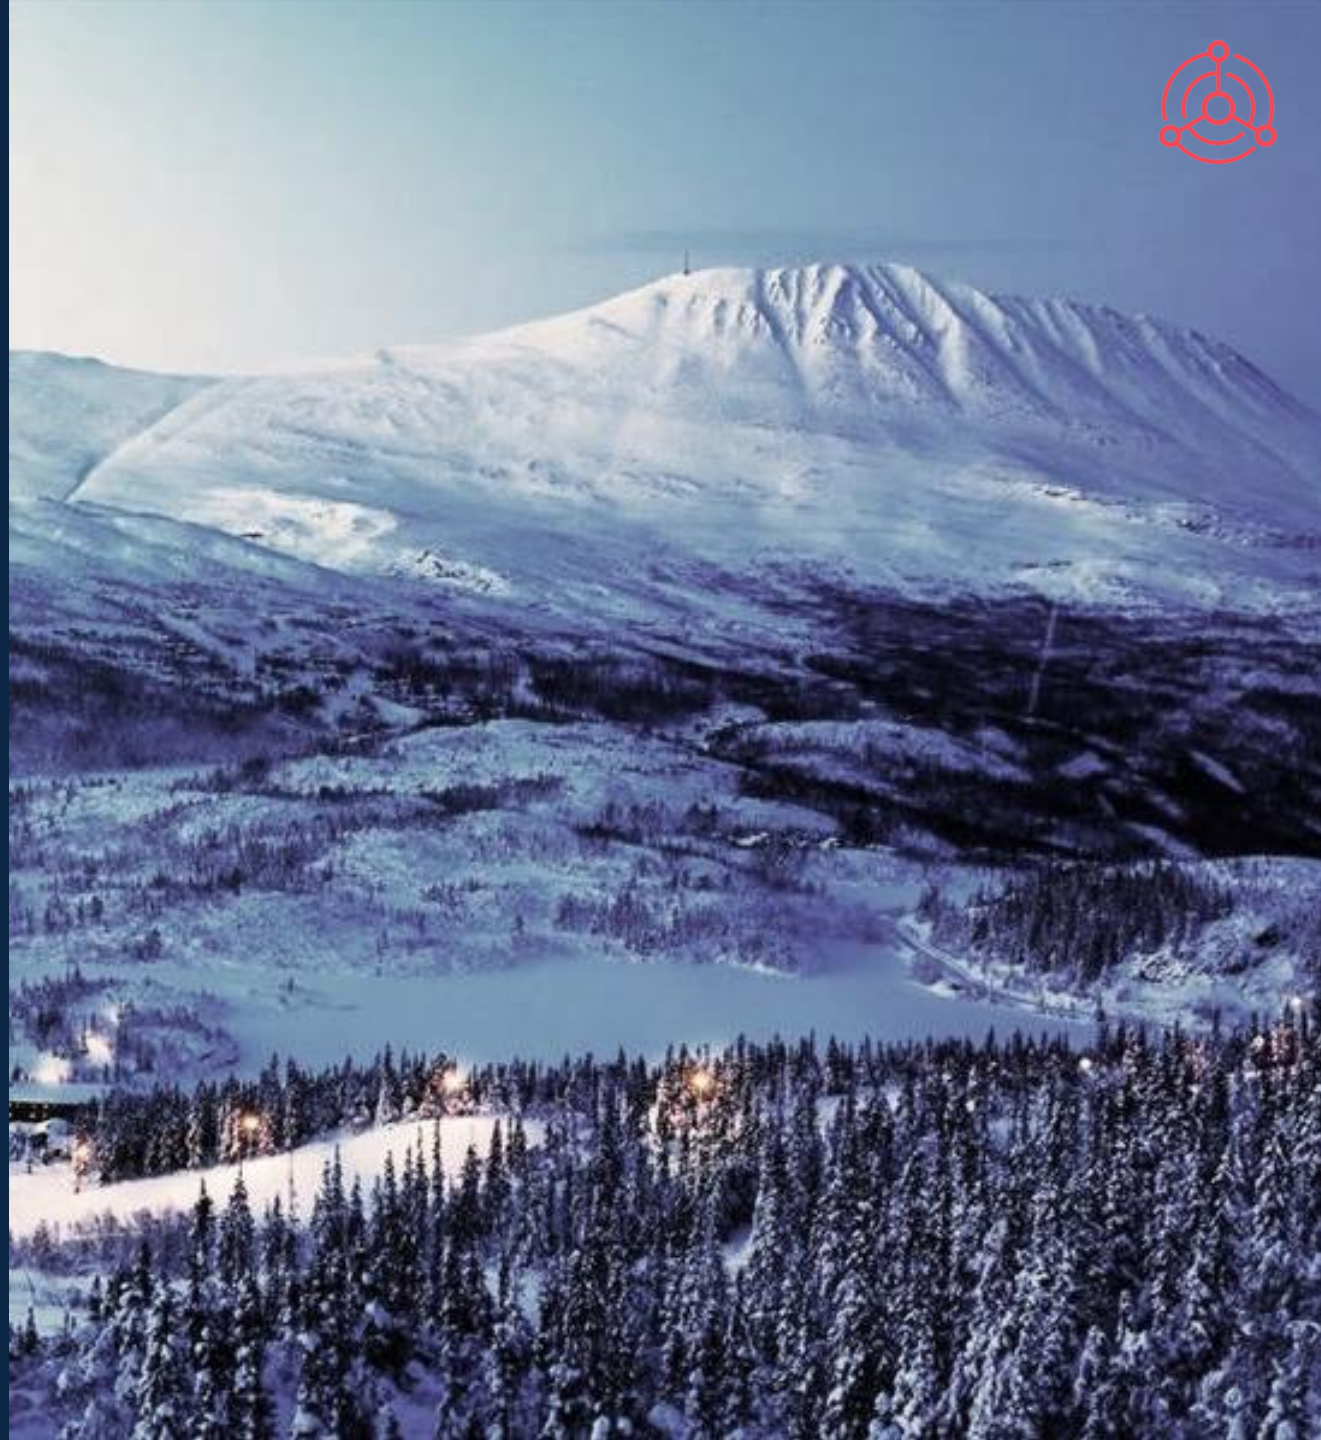

# The ultimate icing proving ground.

GAUSTATOPPEN

## *On the doorstep.*

- Optimal cold-weather conditions for critical icing testing.
- Mirrors the Folgefonna model — where Airbus runs its icing certification campaigns.
- Hard winters with predictable, repeatable testing windows.

# You fly.
# We maintain.

***Flyteknisk Notodden AS:***
***Comprehensive mechanical MRO — directly on-site.***

- **Europe`s most experienced seaplane MRO**
  Unmatched technical knowledge for seaplane maintenance in Europe.
- **Authorized aircraft dealer**
  Renowned for its expertise in advanced composite maintenance
- **Full Maintenance, Repair & Overhaul**
  Heavy maintenance services available without leaving the arena.
- **No relocation downtime**
  Test campaigns continue uninterrupted — fix it where you fly it.
- **Integrated with operations**
  Maintenance teams embedded alongside your crews on the tarmac.

# You're in good company.

*ENNO is the gravitational center of a Nordic aviation cluster — operators, innovators, defense primes, and seaplane certifiers all in one place.*
*https://www.notoddenlufthavn.no*

**NSAR**
NORDIC SKY AERIAL RESPONSE

Nordic Sky Aerial Response — based at ENNO. Pioneering aerial firefighting innovation in Northern Europe.

**BUSINESS-FRIENDLY BY DESIGN**

Municipality and county council actively facilitate corporate establishment.

| | |
|---|---|
| **EDGE PERFORMANCE** | Performance & propulsion innovation |
| **OPTIME SUBSEA** | Aviation tech & systems |
| **KONGSBERG GROUP** | Global defense & aerospace prime — next door |
| **DORNIER SEAPLANE** | Already runs seaplane certification at ENNO |
| **BERGET** | Aviation mechanics and electronix |
| **NOTODDEN TECHOLOGY GROUP** | Global defense & aerospace technology |
| **HYDROPARKEN** | Norwegian engineering and innov. hub |

09 · THE INVITATION

# Bring your fleet.
# Your R&D.
# Your future.

*Partner with us to shape the next chapter of European aerial firefighting and aviation.*
