Environmental Policy

LMXLED Ltd | Trading as LUMAX Lighting

Our commitment

LUMAX Lighting, the trading brand of LMXLED Ltd, is committed to conducting business responsibly and minimising the environmental impact of its activities wherever reasonably practicable. We promote resource efficiency and energy-efficient LED lighting, while seeking continual improvement in our environmental performance.

Our environmental commitments

- Promote energy-efficient, reliable LED lighting solutions and consider durability and product service life when selecting products.
- Seek to prevent pollution, reduce waste and avoid unnecessary consumption of materials and energy.
- Encourage reuse, recycling and responsible disposal of packaging and electrical equipment, in line with applicable requirements.
- Consider environmental performance in procurement and encourage responsible practices throughout our supply chain.
- Seek practical opportunities to reduce unnecessary packaging and emissions associated with transportation and business operations.
- Comply with environmental legislation and other applicable requirements relevant to our operations and products.
- Encourage employees to understand and support their environmental responsibilities.

Responsibility and continual improvement

The Directors are responsible for overseeing this policy. Environmental considerations are included in relevant operational and procurement decisions, with opportunities for improvement identified through periodic review.

Review and approval

This document is subject to director approval and will be reviewed at least annually or following significant relevant changes.
