

2026 Bond Measure

A new skilled nursing facility for Clatsop County - on the ballot November 3, 2026

Measure seeks approval for Clatsop Care Center Health District to issue up to \$34 million in principal amount of general obligation bonds. Proceeds of the bonds would finance capital costs to provide a new skilled nursing facility and related improvements. District would establish a citizen oversight committee to review spending.

The new facility is expected to:

- Expand affordable healthcare on the North Coast, including short- and long-term care covered by Medicare and Medicaid
- Improve health outcomes by helping patients stay close to home, rather than being placed at a facility in another county
- Increase resident safety in case of emergency, regardless of mobility
- Reduce operating costs and improve efficiency

The current facility opened in 1926 and cared for generations of residents; new facility would sit on land the District already owns.

Protecting Affordable Healthcare on the North Coast

Including services covered by Medicare or Medicaid.

Improving Health Outcomes by Keeping Care Close to Home

A fall, stroke, serious illness, or hospital stay can create an immediate need for skilled nursing care. A new local facility would help North Coast patients stay near their families and the people who know and support them, rather than being placed at another available facility in the Portland Metro area.

Establishing a Citizen Oversight Committee to Review Spending

An independent committee would ensure bond proceeds are used only for the purposes approved by voters. Every resident should also be able to get to safety quickly in an emergency - a building with residents on the first floor makes it easier for staff to reach and evacuate residents during a fire, earthquake, or other emergency.
