We Embrace a Safe Space

Every Saturday our team convenes. We are a community of people with the fire inside them to serve others and bring people together. We learn about "the why" behind our cause and purpose. We embrace collaboration, humility, precision, patience, and empathy. Every week we have one to one coaching from a mentor.

You Decide on Your Cause

We Help you think about, decide, and share why your cause is the right cause for you at this moment.

We Help Refine Your Steps

We help you create and share a 30 second written description of your cause and transform this introduction into a single sentence designed to inspire many.

**We Help Everyone Receive the
Right Kind of Feedback**

We help you share your cause with one to three people and receive feedback in writing. We use this feedback to make your idea stronger.
