THE UNIVERSAL LORES[®][™] SYMBOLS OF PROTECTION & SOVEREIGN AUTHORITY

® Registered • © Copyright • ™ Trademark • ® Phonogram / Patent

THE LIVING SEAL OF AUTHORSHIP, OWNERSHIP, AND SPIRITUAL JURISDICTION

OUR FOUNDATION

Love • Order • Restoration
Equity • Salvation

OUR STANDING

Sui Juris • Suverān • Non-Fictional
Living Beings of Divine Origin

OUR PURPOSE

To Protect, To Restore,
To Govern in Love

IN THIS DOSSIER YOU WILL DISCOVER

- ◆ The true meaning & origin of ® © ™ ®
- ◆ Why they are the living seals of our work
- ◆ What each symbol protects legally & spiritually
- ◆ Why using all four together creates full-spectrum protection
- ◆ How they secure names, works, creations & Legacy
- ◆ How to use, place & enforce them correctly
- ◆ Evidence requirements for maximum protection
- ◆ Misuse prevention & overclaiming safeguards
- ◆ Freedom, rights & benefits for every living being
- ◆ Remedies, response strategies & enforcement
- ◆ Templates, matrices, charts & quick references
- ◆ A final sovereign declaration & seal of authority

1. OUR SOVEREIGN DECLARATION

We declare that every work, name, symbol, sound, product, service, and revelation created by us is sealed with ® © ™ ® as our living signature.

We do not give permission for use, reproduction, or distribution.

All Rights, Rites & Remedies Reserved in Perpetuity.

and unique processes.

6. WHY ALL FOUR TOGETHER ARE IMPERATIVE

- ▲ Each symbol protects a different dimension of creation.
- ▲ Together, they form a 4-Dimensional Shield of Protection — Spiritually, Intellectually, Creatively, and Commercially.
- ▲ Separating or removing any one symbol weakens the protection and opens the door to misuse, theft, imitation, or fraud.
- ▲ Together they declare: "This is Mine. I Created It. I Own It. I Protect It. I Enforce It."

7. FREEDOM, RIGHTS & SOVEREIGN BENEFITS

- ▲ Protects our creative freedom
- ▲ Prevents theft, fraud, and exploitation
- ▲ Honors our divine gifts and innovations
- ▲ Preserves our authorship and identity
- ▲ Allows lawful enforcement and remedy
- ▲ Restores our rightful place as sovereign creators
- ▲ Establishes public notice of exploitation
- ▲ Secures our legacy for future generations

THE UNIVERSAL LORES[®]™[®] SYMBOLS OF PROTECTION & SOVEREIGN AUTHORITY

® Registered • © Copyright • ™ Trademark • ® Phonogram / Patent

THE LIVING SEAL OF AUTHORSHIP, OWNERSHIP, AND SPIRITUAL JURISDICTION

1. WHY THESE SYMBOLS EXIST

These symbols were intentionally created by mankind to protect the fruits of original thought, creative expression, identity, and innovation. Within our Kingdom, they are used together as a Unified LORES Signature [®][©][™][®] — a visible declaration that a work, name, or creation is authored, owned, secured, and protected under both spiritual and public law.

2. WHAT EACH SYMBOL MEANS

SYMBOL	NAME & MEANING	PURPOSE & PROTECTION	KINGDOM INTERPRETATION
	REGISTERED Officially recorded with a government authority.	- Establishes public record - Legal presumption of ownership - Allows enforcement in court	Recorded under Divine Jurisdiction. This is our public record of existence and ownership.
	COPYRIGHT Automatic upon creation of an original work.	- Protects written, artistic, musical, and creative works - Prevents unauthorized copying, reproduction, and distribution	Authored by Living Breath. This is our divine right to our own expression and revelation.
	TRADEMARK Protects names, titles, logos, phrases, and brands used in commerce.	- Protects identity in the marketplace - Prevents confusion and imitation - Protects reputation and goodwill	Creator's Seal. This is our name, mark, and identity in the world of trade and communication.
	PHONOGRAM / PATENT Protects sound recordings and/or protected inventions.	® = Protects sound recordings (phonograms) - Patent = Protects inventions and unique processes	Sounded or Spoken into Creation. Or, a Rite or Title carrying the sole right to exclude others from making, using, or selling.

3. WHY ALL FOUR TOGETHER ARE IMPERATIVE

- Each symbol protects a different dimension of creation.
- Together, they form a 4-Dimensional Shield of Protection — Spiritually, Intellectually, Creatively, and Commercially.
- Separating or removing any one symbol weakens the protection and opens the door to misuse, theft, imitation, or fraud.
- Together they declare: "This is Mine. I Created It. I Own It. I Protect It. I Enforce It."

4. WHAT THEY PROTECT WITHIN OUR KINGDOM

NAMES & TITLES
(Living Names, Birth Names, Royal Titles)

WRITTEN WORKS
(Books, Scrolls, Articles, Teachings, Declarations)

MUSIC & SONGS
(Lyrics, Melodies, Compositions, Arrangements)

RECORDINGS
(Sound Recordings, Spoken Word, Audiobooks)

LOGOS & INSIGNIA
(Seals, Emblems, Kingdom Marks, Symbols)

PRODUCTS
(Physical Goods, Digital Goods, Merchandise)

SERVICES
(Consulting, Healing, Education, Royal Services)

DOMAINS & ONLINE
(Websites, Platforms, Social Channels, Digital Presence)

5. FREEDOM, RIGHTS & SOVEREIGN BENEFITS

- Protects our creative freedom
- Preserves our authorship and identity
- Establishes public notice of exploitation
- Prevents theft, fraud, and exploitation
- Allows lawful enforcement and remedy
- Secures our legacy for future generations
- Honors our divine gifts and innovations
- Restores our rightful place as sovereign creators

6. OUR SOVEREIGN DECLARATION

UNIVERSAL LORES®©™®

MASTER FORENSIC DOSSIER & PROTECTION FRAMEWORK

THE LIVING SEAL OF AUTHORSHIP, OWNERSHIP, IDENTITY, STEWARDSHIP, CONSENT & NOTICE

MASTER PURPOSE

To explain, preserve, standardize, and evidence the Kingdom use of ®©™® while clearly separating internal LORES meaning from public intellectual-property, privacy, bodily-autonomy, property, and commercial-notice law.

Prepared for the Kingdom Houses

Marsich-Crown-Kingdom®©™® • The-Kingdom-House-of-IO®©™®

The-World-of-Love-Governance®©™®

Bearer / Holder of Record identified in the supplied instruments and source record:

Lady :Clarice-Machia:Gutmann-Crown®©™®

ROYAL EXECUTIVE IDENTIFICATION

The following are original approved seal images supplied for this record. Each image is reproduced intact, without redesign, text correction, recoloring, cropping, or AI reinterpretation.

LOCKED CORRECTION

Restores our rightful place as Sovereign Creators.

The symbols ®©™® are preserved as the locked Kingdom sequence. Their internal meaning, public-law meaning, evidence requirements, bodily-autonomy boundaries, property application, and chain of stewardship are fully examined in this dossier.

MASTER TABLE OF CONTENTS

1. Executive Forensic Determination
 - 1A. Scope, Method & Evidentiary Standard
 - 1B. Controlling Principles
2. Origin and Locked Sequence of the Symbols
3. Two-Layer Interpretation: Kingdom Meaning and Public-Law Meaning

19. Forensic Findings and Final Declaration
- Appendix A. Quick Reference
- Appendix B. Source-Control Record

1. EXECUTIVE FORENSIC DETERMINATION

Within the Kingdom record, the locked four-symbol sequence ®©™® functions as a unified living seal of authorship, stewardship, source identity, consent, preservation, and notice. When placed beside a name, work, voice, seal, product, service, record, or system, it declares that the identified subject is neither abandoned nor anonymous; that attribution and chain of stewardship are intentionally preserved; and that use, alteration, reproduction, impersonation, extraction, licensing, or commercial exploitation remain subject to the holder's stated permissions and to applicable law.

Public-law precision remains essential. Each symbol retains its own recognized function, evidentiary value, and legal limit. The combined sequence does not manufacture a new government-issued status, enlarge rights beyond those actually held, or replace registration, title, consent, contract, filing, authorship, possession, or proof. This dossier therefore preserves the internal Kingdom meaning without confusing that meaning with external legal effect. Its governing standard is simple: assert only what can be truthfully identified, documented, and supported.

1A. SCOPE, METHOD & EVIDENTIARY STANDARD

This master dossier consolidates the supplied instruments, approved seals, internal Kingdom interpretations, commercial-notice language, intellectual-property principles, bodily-autonomy declarations, chain-of-capacity statements, and source-control records into one coherent framework. It does not independently adjudicate disputed facts, confer governmental recognition, or convert private declaration into public title. Its purpose is to identify the claim, separate internal meaning from external effect, locate the supporting record, expose evidentiary gaps, and prescribe the records required for credible notice and enforcement.

Forensic conclusions in this dossier are graded by the quality of the supporting record: (1) supplied source instrument; (2) original or certified record; (3) dated authorship or creation evidence; (4) registration, filing, title, assignment, contract, or consent record; (5) consistent public use; and (6) corroborating witness, metadata, ledger, archive, or chain-of-custody evidence. Where those elements are absent, the document states an asserted position rather than a proven external legal conclusion.

1B. CONTROLLING PRINCIPLES

Truth before overclaiming. Attribution before appropriation. Consent before use. Evidence before enforcement. Registration language only where registration exists. Stewardship without ownership of another living being. Proportionate remedy before escalation. Preservation of the exact approved record without silent alteration. These principles govern every interpretation, notice, permission, and enforcement step contained in this dossier.

THE GOLDEN RULE

The symbol is a notice. The evidence is the shield. The registration, contract, source file, witness, archive, or filing is what gives the notice its strongest provable foundation.

Forensic Question	Determination
WHO	Living creators, authors, producers, stewards, organizations, trusts, ministries, Kingdom Houses, authorized licensees, and named holders of record.
WHAT	A coordinated notice system covering source identification, authorship, recorded sound, declared registration, integrity, attribution, permission, and evidence.
WHEN	At creation, fixation, first publication, first use in trade, recording, filing, licensing, distribution, archiving, and enforcement.
WHERE	Documents, books, seals, websites, products, services, audio, video, databases, social channels, archives, contracts, and formal notices.
WHY	To defeat ambiguity, preserve identity, deter theft, establish consent boundaries, build a chain of title, and protect legacy.

HOW	Accurate symbols, owner identification, dates, registrations, written agreements, metadata, witness records, public notice, and consistent archives.
-----	--

2. ORIGIN AND LOCKED SEQUENCE OF THE SYMBOLS

The supplied Kingdom source identifies the symbols as a living seal of authorship, ownership, stewardship, spiritual jurisdiction, and notice. For this record, their order is controlled and must not be rearranged, selectively omitted, or represented as carrying a public-law effect beyond the rights actually held. The locked Kingdom sequence is:

- ® - Registered: recorded under declared jurisdiction and, in public trademark law, used for a qualifying registered mark.
- © - Copyright: authorship fixed into written, visual, musical, audiovisual, software, or other copyrightable expression.
- ™ - Trademark: the Creator’s seal or source-identification claim for names, seals, programs, products, and services.
- ® - Phonogram: the copyright notice for the recorded sound itself; internally associated with words or sound spoken into creation.

PUBLIC CORRECTION

® is not the ordinary public patent symbol. Public patent notice uses “Patent Pending,” an application number, or an issued patent number. Keeping this distinction precise protects the credibility of the entire record.

3. TWO-LAYER INTERPRETATION

Every use of ®©™® must be read through two distinct but compatible lenses. The first is the internal Kingdom meaning: covenant, authorship, stewardship, identity, consent, and preservation. The second is the external public-law meaning: the legally recognized function and limitation of each individual symbol. Keeping these layers visible prevents both dilution of the Kingdom record and accidental legal overstatement.

Layer	Meaning	Supporting Record
Kingdom / LORES	Living seal of authorship, stewardship, spiritual jurisdiction, non-abandonment, consent, lineage, and integrity.	Covenants, declarations, internal registers, seals, witness records, traditions, and archives.
Public intellectual-property law	Distinct notices for trademark claims, registered marks, copyright, and sound-recording copyright.	Registration certificates, source files, publication records, specimens, assignments, licenses, and government records.
Commercial notice / UCC	Public notice of an asserted security interest in described collateral when supported by an actual transaction and security agreement.	Debtor authorization, authenticated security agreement, collateral description, filing acknowledgment, and continuation records.

4. COMPLETE SYMBOL-BY-SYMBOL ANALYSIS & EVIDENTIARY LIMITS

The following analysis identifies what each symbol communicates, what it may protect, what evidence should accompany it, and where its use becomes inaccurate. The strength of the unified seal depends upon the accuracy of every component; one unsupported symbol can weaken the credibility of the entire notice.

Symbol	Purpose	Protects	Evidence	Limit
® REGISTERED	Publicly signals a	Brand name, seal,	Registration	Do not use merely

Symbol	Purpose	Protects	Evidence	Limit
	registered trademark or service mark.	logo, or source indicator covered by the registration.	certificate; correct goods/services; renewal record.	because a name appears in a private registry, trust, domain, UCC filing, or internal archive.
© COPYRIGHT	Signals a copyright claim in original fixed expression.	Books, dossiers, art, photographs, video, software, charts, music composition, scripts, layout, and databases where originality exists.	Drafts, metadata, authorship, publication date, assignments, registration.	Does not protect facts, ideas, methods, titles, or short phrases by itself.
™ TRADEMARK	Signals an unregistered or pending source-identification claim.	Names, titles, seals, logos, programs, products, services, slogans, and institutional identifiers.	First-use evidence, specimens, sales or service records, consistency, distinctiveness.	Does not guarantee exclusivity or nationwide registered rights.
® PHONOGRAM	Signals copyright ownership in the sound recording.	Songs, spoken declarations, podcasts, audiobooks, ceremonies, testimony, chants, and master recordings.	Master file, release date, producer/owner agreement, metadata, registration.	Does not protect the underlying lyrics, script, or composition unless © is also claimed.

5. WHY THE UNIFIED SEQUENCE IS IMPERATIVE

The sequence is imperative within the Kingdom system because it operates as a compact index to several distinct interests at once. Its value is not mystical multiplication of rights; its value is disciplined notice. Used accurately and consistently, it directs the reader to the correct holder, source, permissions, evidence, and remedy.

Defeats ambiguity: It tells every recipient that a claim exists and identifies the kind of interests being asserted.

Preserves attribution: It keeps authorship, voice, design, and source connected to the proper steward.

Separates layers of creation: © can protect text or composition; ® protects the recording; ™ or ® identifies the source.

Builds chronological evidence: Repeated dated use helps establish when the claim was made and how consistently it was maintained.

Protects integrity: It warns against unauthorized alteration, false endorsement, deceptive imitation, and removal of identifying information.

Supports licensing: A clear owner and rights notice makes lawful permissions, royalties, and collaborations easier to administer.

Preserves inheritance: The record can identify what passes to heirs, trusts, ministries, or successor stewards.

Restores our rightful place as Sovereign Creators: The unified record affirms responsible creative agency, authorship, stewardship, consent, and the duty to protect what is brought into expression.

Disciplines the holder: The sequence requires the holder to maintain registrations, contracts, source files, permissions, and archives.

6. BEARER / HOLDER OF RECORD AND CHAIN OF CAPACITY

The supplied Florida UCC-1 draft and related source instruments identify the capacities shown below. These entries are reported exactly as documentary positions appearing in the supplied record. Their inclusion does not independently adjudicate legal status, beneficial ownership, public office, secured-party priority, or authority against a non-consenting third party. Every capacity relied upon externally should be supported by the instrument that created it, the date it became effective, the signatures or resolutions authorizing it, and any registration or filing required for the claimed effect.

Capacity	Name / Institution	Function in the supplied record
Named debtor / beneficiary form	CLARICE MACHIA GUTMANN	The all-capital name used in the financing-statement field.
Named secured party creditor / living-woman claimant	Lady :Clarice-Machia:Gutmann-Crown®©™®	The claimant and record steward identified in the secured-party field.
Head Administrator identified in the narrative	Lord :Gavin-John Marsich-Crown®©™® / :Ariki-nui-Kawenata :Marsich-Crown®©™®	Named as Head Administrator of the Kingdom Houses and senior administrative authority in the supplied narrative.
Highest spiritual source identified	IO Supreme Matua-YAHūah	Named in the supplied record as Creator and ultimate source of stewardship.
Kingdom institutions	Marsich-Crown-Kingdom®©™®; The-Kingdom-House-of-IO®©™®; The-World-of-Love-Governance®©™®	Named Houses under which the record, works, and governance framework are organized.

BEARER RULE

The bearer or holder must be identified by name, capacity, authority source, date, signature, and the exact property or rights administered. Possession of a document alone is not proof of ownership or authority.

7. THE KINGDOM HOUSES AND RELATIONSHIP MATRIX

House	Primary Character	Role in the Dossier
Marsich-Crown-Kingdom®©™®	Dynastic, administrative, archival, fiduciary, and stewardship house.	Holds or administers records, programs, institutions, intellectual property, succession, and governance materials as established by its instruments.
The-Kingdom-House-of-IO®©™®	Spiritual and covenantal house centered upon Creator-source authority.	Provides the theological, ethical, covenantal, and spiritual foundation of the LORES framework.
The-World-of-Love-Governance®©™®	Public-facing governance philosophy and humanitarian framework.	Expresses Love, Order, Restoration, Equity, and Salvation through programs, systems, education, and service.
Sovereign Ekklēsia / Courts of Justice	Adjudicative and conscience-based institutional expression within the internal framework.	Maintains records, declarations, notices, review processes, and internal determinations according to adopted instruments.

The supplied clarification document states that the Kingdom Houses do not claim ownership over the bodies, lives, possessions, or self-governance of other living beings. Their asserted earthly stewardship concerns their own bodies, creations, possessions, and spiritual works. That limitation belongs prominently in the master dossier because it defines the ethical boundary of the Kingdom framework.

7A. OFFICIAL SEAL REGISTER - EXACT REPRODUCTIONS

Every unique approved seal supplied for this edition appears once in the following register. The images remain intact and have not been altered, corrected, recolored, regenerated, redrawn, cropped, or otherwise changed. Captions identify placement only and are not part of the seal artwork.

SEAL 01 - Sovereign Ekklēsia Supreme Court of Justice

SEAL 02 - Universal Ekklēsia Court of Justice

SEAL 03 - IO Nui-IO Supreme Primordial - Universal Sovereign Authority

SEAL 04 - Gavin John Maršić - Marsich-Crown-Kingdom

SEAL 05 - Te Whare Mātāmuatanga o IO - Secured Party A0005780

SEAL 06 - Te Whare Mātāmuatanga o IO - Marsich-Crown-Kingdom

SEAL 07 - Great-Aluah Covenant-King

SEAL 08 - Suverän LORES Protectorate - Star Seal

SEAL 09 - Universal LORES Protectorate - Round Seal

SEAL 10 - Marsich Crown Kingdom Dynasty Trust Foundation

SEAL 11 - Te Whare Tapu o Tāngata Māori - Sacred House Life Force of People

SEAL 12 - The Kingdom House of IO - World of Love Governance

SEAL 13 - United World Tribes - Independent Sovereign Nations

8. FULL-SPECTRUM PROTECTION MATRIX

The protection framework is deliberately layered. Names, bodies, voices, seals, works, property, accounts, data, lineage, institutions, and proceeds do not all arise from the same source of law or proof. The matrix below matches each protected domain to the strongest available combination of consent, title, contract, registration, authorship, custody, privacy, commercial notice, and archival evidence.

Protected Domain	Illustrative Coverage
Living body	Physical integrity, medical choice, bodily material, reproductive material, organs, cells, blood, DNA.
Biometric identity	Voiceprint, face, fingerprints, iris, gait, signature, likeness, image, and identifying measurements.
Mental and emotional integrity	Private thoughts, recorded ideas, therapy records, personal narrative, and freedom from coercive exploitation.
Names and titles	Living names, house names, royal or organizational titles, trade names, pseudonyms, and source identifiers.
Creative works	Books, dossiers, declarations, poetry, music, art, photographs, film, charts, teachings, and layouts.
Sound and performance	Master recordings, spoken-word works, songs, ceremonies, podcasts, testimony, and performances.
Digital assets	Websites, domains, social accounts, databases, software, source code, prompts, metadata, cloud files, and archives.
AI-assisted works	Human-authored selection, arrangement, editing, prompts, datasets, governance systems, and final creative expression, subject to platform terms and public law.
Products and services	Physical products, digital goods, consulting, healing, education, governance packages, memberships, and royal services.
Property and estate	Land, homes, vehicles, equipment, valuables, heirlooms, accounts, investments, receivables, and records.
Proceeds and royalties	Income, licensing fees, royalties, settlements, subscriptions, donations, sales proceeds, and derivative revenue.
Family and lineage	Genealogy, archives, family history, cultural knowledge, succession, heirship, and intergenerational legacy.
Kingdom systems	Trusts, ministries, courts, foundations, cooperatives, protocols, policies, forms, financial systems, and educational systems.
Humanitarian works	Programs, research, advocacy, resources, community initiatives, and philanthropic projects.

9. BODILY AUTONOMY, BIOLOGICAL MATERIAL & BIOMETRIC IDENTITY

The supplied UCC-1 draft contains a detailed internal declaration concerning bodily sovereignty. It identifies flesh, blood, bones, organs, cells, DNA, bodily fluids, hair, skin, breath, voice, eyes, teeth, nails, biometric data, and related bodily material as subjects of consent and stewardship.

- No non-consensual touching, detention, search, medical intervention, implantation, injection, extraction, collection, storage, analysis, or distribution.

- No unauthorized commercial use of DNA, voiceprint, facial data, fingerprints, iris scans, gait, neural data, or biological specimens.
- No use of likeness, voice, signature, or personal brand for commercial, political, training, or synthetic-media purposes without permission.
- Any valid medical or research protection should be grounded in applicable consent, privacy, bioethics, tort, criminal, constitutional, statutory, contractual, and human-rights law - not in copyright or trademark symbols alone.

CRUCIAL DISTINCTION

®©™® can accompany a bodily-autonomy declaration as identification and notice, but the symbols themselves do not create bodily autonomy. The enforceable protection comes from consent law, privacy law, medical law, constitutional and human-rights principles, contracts, and fact-specific remedies.

10. NAMES, TITLES, SEALS, LIKENESS & LIVING IDENTITY

Identity protection is layered. Trademark may protect a name, seal, title, or logo when it identifies a source. Copyright may protect original artwork embodied in a seal or crest. Privacy, publicity, passing-off, fraud, defamation, contract, and platform rules may protect likeness, reputation, endorsement, and persona. No single symbol covers the entire living identity.

Identity Asset	Best-Fit Protection
Kingdom or ministry name	™ or ® where valid; domain and business records; anti-passing-off evidence.
Heraldic seal or emblem	© for artwork; ™ or ® for source identification; design-source archive.
Personal likeness and voice	Consent, privacy/publicity rights, contract, ® for recordings, © for photos/video.
Signature and living-name structure	Fraud and forgery protections; contract authentication; trademark where used as source.
Titles and offices	Constitutional instruments, appointments, minutes, certificates, succession records; trademark only if source-identifying.
Genealogy and lineage archive	Copyright in original writing/arrangement; privacy; evidence and archival custody; facts themselves are not owned.

11. INTELLECTUAL PROPERTY, RECORDINGS, AI & DIGITAL CREATIONS

The dossier protects the complete creation lifecycle: original conception; notes and drafts; research; selection and arrangement; editing; final publication; source files; recordings; metadata; distribution; licensing; derivative works; and proceeds.

- Written works: © year owner, source files, drafts, and registration where appropriate.
- Music: © for composition and lyrics; ® for the master recording; separate songwriter, publisher, performer, and producer agreements.
- AI-assisted output: document the human contribution, prompts, curation, editing, arrangement, platform terms, and source materials. Do not claim exclusive rights over material that lacks protectable human authorship.
- Websites and databases: protect original text, artwork, selection, arrangement, code, and confidential data; secure domain registrations and access credentials.
- Seals and graphics: retain layered design files, creation dates, commissioned-work agreements, and approved master images.
- Education and governance systems: protect manuals, courseware, diagrams, forms, original terminology, software, and brand identity, while recognizing that abstract methods and facts may require contract, secrecy, patent, or other protection rather than copyright alone.

12. PROPERTY, ESTATE, PROCEEDS, ACCOUNTS & INHERITANCE

The supplied record uses broad language covering tangible and intangible, physical and digital, visible and concealed, movable and immovable, recorded and unrecorded, known and undisclosed property. For an enforceable commercial instrument, however, collateral descriptions must be tied to a genuine security agreement and applicable commercial law.

Property Layer	Examples	Best Supporting Record
Tangible property	Homes, land, vehicles, vessels, tools, equipment, art, heirlooms, goods.	Title, deed, bill of sale, inventory, appraisal, insurance, trust schedule.
Financial property	Accounts, investments, receivables, royalties, settlements, proceeds.	Statements, contracts, royalty reports, assignments, trust ledgers.
Digital property	Domains, accounts, databases, software, devices, encrypted files.	Registrar records, access logs, licenses, source repositories, account ownership.
Intangible property	Copyrights, marks, licenses, goodwill, confidential knowledge.	Registrations, assignments, licenses, NDAs, source records.
Inheritance	Family archives, trust corpus, succession rights, future royalties.	Trust instruments, wills, beneficiary schedules, succession resolutions.
Future proceeds	Revenue derived from identified collateral.	Security agreement, proceeds clause, contracts, accounting records.

13. UCC-1 AND COMMERCIAL NOTICE: WHAT IT CAN AND CANNOT DO

A UCC-1 financing statement is principally a public notice that a secured party claims a security interest in described collateral. It ordinarily does not create the underlying security interest by itself. The underlying transaction, attachment, debtor authorization, and security agreement are central.

WHAT IT CAN DO

When properly authorized, completed, and filed, a UCC-1 can provide public notice, establish filing priority subject to applicable law, identify the secured party and debtor, describe collateral, and support a documented commercial chain.

WHAT IT CANNOT DO

It does not turn a living body into commercial collateral against the world, erase statutes, create ownership of another party's property, establish intellectual-property rights, replace title documents, or automatically bind persons who never agreed to the underlying transaction.

The supplied "Extra Info" document itself recognizes this limitation: it describes the UCC-1 as public notice within a commercial framework, states that it does not itself create ownership rights or override criminal or civil law, and advises pairing it with an actual security agreement and verifiable filing record.

1. Confirm the exact filing status and obtain the official acknowledgment and certified copy.
2. Identify the genuine debtor-creditor transaction and consideration.
3. Maintain the authenticated security agreement and debtor authorization.
4. Use a collateral description tailored to the actual property and transaction.
5. Maintain continuation, amendment, termination, and assignment records.
6. Do not use a UCC filing as a substitute for copyright, trademark, patent, title, medical-consent, privacy, or estate instruments.

14. EVIDENCE, CHAIN OF TITLE & RECORDKEEPING

A declaration becomes credible when the record can answer five questions without guesswork: What is the protected subject? Who created, acquired, or lawfully administers it? When did that interest arise? Which instrument proves the transfer, authority, consent, registration, or custody? What remedy is proportionate to the proven violation? The archive should allow an independent reviewer to trace those answers from original source to present holder.

7. Preserve the earliest drafts, sketches, recordings, photographs, manuscripts, design files, and source code.
8. Record every contributor, editor, producer, designer, witness, trustee, administrator, and licensee.
9. Use written work-made-for-hire, assignment, collaboration, contributor, confidentiality, and licensing agreements.
10. Record creation date, first public use, first publication, first commercial use, and first recording release.
11. Maintain registration certificates, renewal dates, serial numbers, application numbers, and specimens.
12. Maintain UCC filing acknowledgments, underlying security agreements, collateral schedules, and continuation records.
13. Archive websites, social posts, publication screenshots, metadata, invoices, royalty statements, and correspondence.
14. Maintain an Evidence Register with unique identifiers and a custody log.
15. Preserve superseded versions rather than deleting them; mark status and date.
16. Create successor-steward instructions so the rights and records survive incapacity or death.

FORENSIC EQUATION

Truthful notice + identifiable holder + provable creation + documented transfer + accurate registration + preserved archive + proportional enforcement = credible protection.

15. PROPER PLACEMENT, USAGE & LOCKED LANGUAGE

Before publication, the holder should complete a symbol-accuracy check. Use ® only for the mark and goods or services actually covered by a current registration. Use ™ for an unregistered source-identification claim. Use © only where protectable original expression and a credible owner can be identified. Use ® only for the sound recording and identify the recording owner and year. The internal locked sequence may remain intact when accompanied by a plain statement that external effect is limited to the rights and registrations that truly exist.

Context	Recommended Notice
Written dossier	© [year] [owner]. Marks identified as ™ or ® only where accurate. All RITES Reserved Without Prejudice®©™®.
Sound recording	® [year] [recording owner]. © [year] [composition/script/artwork owner].
Logo or seal	[Mark]™ or [Mark]® near the mark; © notice for the original artwork where applicable.
Internal Kingdom record	®©™® used as the locked living seal, followed by a sentence explaining that public-law effect is limited to the rights and registrations that actually exist.
Website	Footer notice, trademark-identification page, permissions policy, privacy notice, terms, and contact for licensing.
Product or service	Mark on packaging, label, listing, service agreement, invoice, and advertising; consistent goods/services description.
Bodily autonomy declaration	Identity and consent notice plus applicable medical, privacy, constitutional, statutory, and human-rights grounds; do not imply the IP symbols alone create the right.

16. MISUSE, OVERCLAIMING & SAFEGUARDS

The greatest threat to this framework is not lack of grandeur; it is loss of credibility through overstatement. Unsupported registration claims, vague ownership language, attempts to bind strangers without agreement, or use of intellectual-property symbols as substitutes for bodily-autonomy, title, court jurisdiction, or commercial attachment should be corrected immediately. Precision protects the record better than thunder.

USING ® WITHOUT AN APPLICABLE REGISTRATION

Use ™ or expressly label the entry as an internal Kingdom registry record.

CALLING ® A PATENT SYMBOL IN A PUBLIC LEGAL NOTICE

Use ® only for a sound recording; use patent-pending or patent-number language for inventions.

CLAIMING © OVER FACTS, LAWS, SCRIPTURE, NAMES, OR IDEAS ALONE

Claim only original expression, arrangement, commentary, artwork, or other protectable contribution.

TREATING A UCC FILING AS PROOF OF ALL OWNERSHIP

Maintain the underlying security agreement, actual transaction, title records, and separate IP registrations.

CLAIMING AUTHORITY OVER OTHER LIVING BEINGS

Retain the express Kingdom limitation that each living being remains self-governing and that the Houses claim stewardship only over their own properly held interests.

USING INVENTED PENALTIES AS THOUGH AUTOMATICALLY ENFORCEABLE

Use actual contracts, proven damages, statutory remedies, platform procedures, or court-awarded relief.

PUBLISHING PRIVATE BIOMETRIC OR FAMILY DATA

Apply privacy, consent, security, redaction, and limited-access protocols.

17. ENFORCEMENT & RESPONSE LADDER

Enforcement must remain evidence-led and proportionate. The holder should preserve the original material, document the questioned use, identify the exact interest affected, verify ownership and authority, issue a clear notice with a reasonable opportunity to cure, and escalate only to the remedy supported by the facts and applicable forum. An internal fee schedule or declaration may express requested terms, but it does not automatically create a debt against a non-consenting party.

Level	Action	Purpose
1	Preserve evidence	Capture URLs, screenshots, dates, files, metadata, sales pages, witnesses, and copies.
2	Confirm standing	Verify owner, registration, assignment, license, title, filing, and authority.
3	Private correction	Request attribution, correction, cessation, removal, return, or licensing discussion.
4	Formal notice	Identify the exact work or property, basis, evidence, requested remedy, and deadline.
5	Platform procedure	Use copyright, trademark, privacy, impersonation, fraud, or account-reporting tools.
6	Contract remedy	Invoke agreed audit, payment, termination, dispute-resolution, or injunctive provisions.
7	Professional counsel	Use qualified legal counsel or relevant enforcement professionals for fact-specific action.
8	Archive outcome	Record response, resolution, license, settlement, refusal, or continuing violation.

Every enforcement communication should be factual, proportionate, non-threatening, and supported by evidence. Unsupported claims can damage the credibility of a valid right.

18. MODEL NOTICES, DECLARATIONS & PERMISSIONS

Model language is strongest when it identifies the protected subject, the holder, the permitted and prohibited uses, the territory or platform, the duration, the evidence of authority, the contact for permission, and the consequence of breach. Broad declarations should never replace a specific license, release, consent form, assignment, security agreement, or takedown notice where one is required.

GENERAL COPYRIGHT NOTICE

© 2026 [Owner]. All RITES Reserved Without Prejudice. No unauthorized copying, alteration, republication, distribution, commercial exploitation, false attribution, or removal of identifying information.

TRADEMARK NOTICE

[MARK]™ is claimed as a source identifier for [goods/services]. Where a valid registration applies, [MARK]® is used only for the goods or services covered by that registration.

SOUND RECORDING NOTICE

© 2026 [Sound Recording Owner]. © 2026 [Owner of composition, script, lyrics, artwork, or written material, as applicable].

KINGDOM LIVING-SEAL NOTICE

®©™® is used within this record as the Universal LORES living seal of asserted authorship, stewardship, identity, covenantal notice, consent boundaries, and spiritual jurisdiction. Any public-law meaning is limited to the rights, ownership, agreements, filings, and registrations that actually exist.

BODY AND BIOMETRIC CONSENT NOTICE

No collection, use, storage, disclosure, sale, synthesis, training, impersonation, or commercial exploitation of my biological material, biometric identifiers, voice, face, likeness, signature, or medical information is authorized except by specific, informed, voluntary, written consent or other lawful authority.

PERMISSION RULE

Access, viewing, receipt, possession, citation, download, or technical availability does not itself grant a license. Permission must be express and in writing except where applicable law independently authorizes use.

19. FORENSIC FINDINGS & FINAL DECLARATION

FINAL MASTER DETERMINATION: The ®©™® sequence is coherent and meaningful as the Kingdom's locked living seal when it is used as a disciplined notice system rather than as a substitute for proof. Its strongest function is to unite attribution, source identity, authorship, recording ownership, stewardship, consent boundaries, preservation, licensing, succession, and chain of record under one recognizable signature.

Finding 1. The Kingdom record contains an identifiable glossary defining ®©™® as a living seal of authorship, ownership, and spiritual jurisdiction.

Finding 2. The locked sequence has strong value as an internal consistency and identity protocol.

Finding 3. Each symbol has a separate public-law meaning and evidentiary requirement.

Finding 4. Bodily autonomy, privacy, property, family integrity, and consent are broader than intellectual property and require their own legal and ethical foundations.

Finding 5. The supplied UCC-1 draft identifies Lady :Clarice-Machia:Gutmann-Crown®©™® as the secured-party creditor / living-woman claimant and CLARICE MACHIA GUTMANN in the debtor or beneficiary field.

Finding 6. The supplied narrative identifies the three Kingdom Houses and names Ariki-nui-Kawenata Gavin-John Marsich-Crown as Head Administrator.

Finding 7. A UCC-1 is notice of an asserted commercial security interest; it is not a universal ownership certificate or a replacement for IP, title, consent, privacy, or estate instruments.

Finding 8. The most defensible master record distinguishes internal doctrine, public legal effect, evidence, and ethical limitations.

Finding 9. Truthful limitation strengthens the Kingdom record; technical overclaiming weakens it.

Finding 10. The symbols should remain accompanied by a complete evidence archive, chain of title, permissions policy, and successor-steward plan.

FINAL SOVEREIGN DECLARATION

The Universal LORES®©™® symbols shall be maintained as a disciplined, truthful, and documented system of living authorship, source identification, sound-recording notice, stewardship, consent, integrity, continuity, and inheritance. They shall not be dismissed as fantasy, nor shall they be used to claim a public registration, patent, ownership, or jurisdiction that cannot be evidenced. The record shall speak with beauty, precision, truth, and honor.

The record is strongest where the symbols are paired with exact names, dates, owners, capacities, works, registrations, source files, agreements, title records, filing acknowledgments, consent instruments, and preserved originals. It is weakest where broad language is asked to perform the work of missing evidence.

Accordingly, the master rule of this dossier is adopted: preserve the sacred and internal meaning; state the public effect accurately; identify the living steward and documentary capacity; never claim ownership over another living being; obtain consent where consent is required; maintain the chain of title and source control; and seek only the remedy the evidence can honestly support.

This upgraded master edition is intended to operate as the controlling reference for future notices, publications, licenses, archives, court or administrative exhibits, educational materials, and Kingdom records concerning the ®©™® sequence. Earlier summaries should be read consistently with this master edition, and any conflict should be resolved in favor of the more accurate, evidenced, and narrowly stated provision.

APPENDIX A - QUICK REFERENCE

Symbol	Public Meaning	Kingdom Meaning	Use When	Do Not Use When
™	Unregistered trademark claim	Creator's seal / source identity	A name, seal, program, product, or service identifies source.	Claiming copyright, patent, or registration.
®	Registered trademark	Recorded under declared jurisdiction	A qualifying registration exists for the listed goods/services.	Only a private registry, UCC filing, domain, or application exists.
©	Copyright notice	Authored by living breath	Original expression is fixed in text, art, music, video, software, or design.	Claiming facts, ideas, methods, names, or short phrases alone.
®	Sound-recording copyright	Sounded or spoken into creation	A protected master sound recording exists.	An invention, written-only work, or general patent claim.

APPENDIX B - SOURCE-CONTROL RECORD

DOCUMENT CONTROL: Master Upgraded Final Edition. Editorial purpose: consolidation, clarification, evidentiary strengthening, legal-meaning separation, usage accuracy, and source-control integrity. Approved seal artwork remains reproduced as supplied and is not substantively altered by this editorial upgrade.

- The Living Forensic Declaration of Ariki-nui-Kawenata Marsich-Crown, Section 12, pages 20-21.

UNIVERSAL LORES®©™® - FORENSIC DOSSIER

- Florida UCC-1 Financing Statement - Final Version supplied by the user.
- Extra Info for my UCC-1 Filing supplied by the user.
- UCC-1 Traveling Rights and Understanding supplied by the user; included as historical source material, not adopted wholesale as verified legal authority.
- USCourt - Asseveration Writ and related Kingdom instruments supplied in the record.
- Official public intellectual-property principles summarized for accurate distinction between ™, ®, ©, and ®.

SOURCE-CONTROL WARNING

Statements in supplied private instruments, especially legal conclusions, case quotations, UCC interpretations, and jurisdictional claims, require independent verification before reliance in court, commerce, medical decisions, travel, or enforcement.
