Portfolio: *(Coming Soon)*

PROFESSIONAL SUMMARY

Artificial Intelligence and Cybersecurity student with experience in AI development, web development, digital marketing, and international collaboration. Passionate about building technology that addresses real-world challenges through responsible AI and innovative digital solutions. Selected to participate in the Erasmus+ International Mobility Programme in Romania, where I collaborated with international teams, strengthened intercultural communication skills, and contributed to creative and technical projects. Experienced in developing AI-powered applications, creating digital experiences, conducting research, and working effectively across multidisciplinary teams.

EDUCATION

Africa International University (AIU)

Diploma of Science in Artificial Intelligence & Cybersecurity

2025 – Present

Relevant Coursework:

- Artificial Intelligence
 - Machine Learning
 - Python Programming
 - Linux Essentials
 - Networking
 - Cybersecurity
 - Data Analysis
-

MODCOM Institute of Technology

Diploma in Software Development

Relevant Areas:

- Frontend Web Development
 - Mobile Development
 - Databases
 - Software Engineering
 - Cybersecurity Fundamentals
-

INTERNATIONAL EXPERIENCE

Erasmus+ International Mobility Programme

Romania | 2026

- Selected to participate in a two-month Erasmus+ international exchange programme.
 - Collaborated with participants from diverse cultural and academic backgrounds.
 - Participated in Shakespeare workshops, performances, and intercultural learning activities.
 - Strengthened communication, teamwork, adaptability, and leadership skills through international collaboration.
 - Contributed to the development of the Erasmus Shakespeare project website documenting activities and international engagement.
 - Gained practical experience working within multicultural teams while representing Africa International University.
-

AI Study Support Chatbot

- Developed an AI-powered chatbot to provide personalized academic support and improve access to educational resources.
- Applied prompt design and AI concepts to deliver structured, user-friendly responses.

Machine Learning for Healthcare

- Developed introductory machine learning models using healthcare datasets.
- Explored data preparation, model evaluation, and ethical AI considerations.

Automotive Data Analysis

- Analyzed automotive datasets to identify trends and generate actionable insights.
- Applied data cleaning and visualization techniques to support decision-making.

Point of Sale (POS) System

- Developed a POS system for managing transactions and inventory.
- Strengthened software development, testing, and problem-solving skills.

RESEARCH, HACKATHONS & PROFESSIONAL DEVELOPMENT

- Participated in multiple Artificial Intelligence hackathons focused on collaborative problem-solving and innovative technology solutions.
- Contributed to research activities exploring Artificial Intelligence and global relations.
- Attended AI, technology, and professional development conferences to strengthen technical knowledge and industry awareness.
- Continuously engage in self-directed learning through technical projects, online courses, and emerging technology research.

TECHNICAL SKILLS

Programming

- Python
- HTML
- CSS
- JavaScript

Artificial Intelligence

- Machine Learning Fundamentals
- AI Chatbot Development
- Prompt Engineering
- Data Analysis
- Responsible AI Concepts

Cybersecurity

- Linux
- Networking Fundamentals
- Cybersecurity Fundamentals
- Security Best Practices

Web Development

- Responsive Web Design
- Bootstrap
- Frontend Development

Tools & Platforms

- GitHub
- Visual Studio Code
- Canva
- Microsoft Office Suite
- Google Workspace
- Adobe

CERTIFICATIONS

- Erasmus+ Certificate of Completion
- Erasmus+ Certificate of Participation
- IBM SkillsBuild – Artificial Intelligence Fundamentals
- IBM SkillsBuild – Artificial Intelligence Fundamentals with Capstone Project
- Cisco Networking Academy – Linux Essentials
- Cisco Networking Academy – Introduction to Cybersecurity
- Python for Beginners
- Alison – Diploma in Events Management

VOLUNTEER EXPERIENCE

Global Centre for Risk and Innovation (GCRI)

Media Volunteer

- Supported media and communication activities.
- Assisted with digital content creation and public engagement initiatives.

Children's Home

Volunteer Tutor

- Mentored children through academic support and educational activities.

- Encouraged learning, confidence, and personal development.
-

Church Community Outreach

Volunteer

- Supported community programmes, media activities, and event coordination.
-

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Erasmus+ International Mobility Participant
 - Shakespeare International Theatre Participant
 - Drama Club Member – Africa International University
 - Theatre & Film Performer
 - AI Research Enthusiast
 - Web Development & Digital Marketing Practitioner
