THERE'S MORE ROOM
IN YOUR LIFE
THAN YOU THINK.

01

WATERFRONT ADU

Great Lakes Guest House

Lake Erie, Ohio | 2026 | 450 SF

A beautiful addition for family, guests and opportunity.

A 450-square-foot modular guest residence designed and built for a Lake Erie property. The navy-blue cottage provides flexible living space for family, guests, and potential short-term rental use. The project received heightened attention and inspections from local township authorities due to its waterfront location.

- 450 SF detached guest residence
- Modular construction with crane placement
- Concrete crawlspace foundation
- Designed to complement existing residence
- Completed 2026

02

OFF-GRID RESIDENCE

Aspen Off-Grid Passive Home

Aspen, Colorado | 2026 | 512 SF

Engineered for independence. Built for the mountains.

A 512-square-foot factory-built residence designed for remote living in the Aspen area. Constructed by our own crews and transported and placed by Wolfe House Movers, this home integrates independent power, water, and wastewater systems to support off-grid use.

- 512 SF off-grid residence
- Builder: Betters Construction Solutions
- Transportation and placement: Wolfe House Movers
- Solar power and battery storage
- Backup generator

- Water collection system (method not specified)
- Potable water, gray-water, and black-water systems
- Passive-design principles
- Completed 2026
