Sent with the current
transformer

CEILING MOUNTING GUIDE

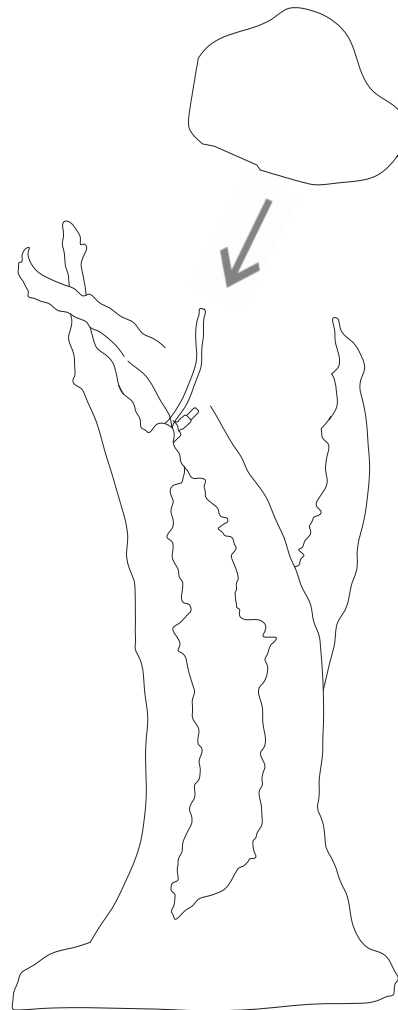

MORE DETAILS ON THE NEXT PAGE

STEP 1

FRONT VIEW

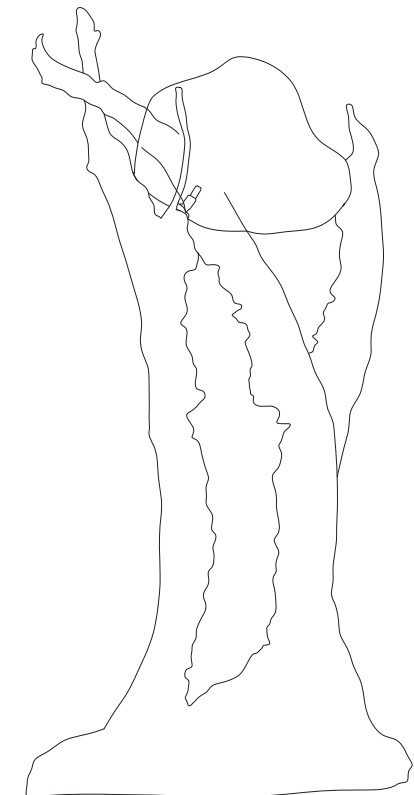

Insert the bulb into the small threaded tube that contains the socket, then screw it in until it is fully secure.

STEP 2

FRONT VIEW

Position the glass globe in front of the fixture and gently slide it into place, following the direction shown.

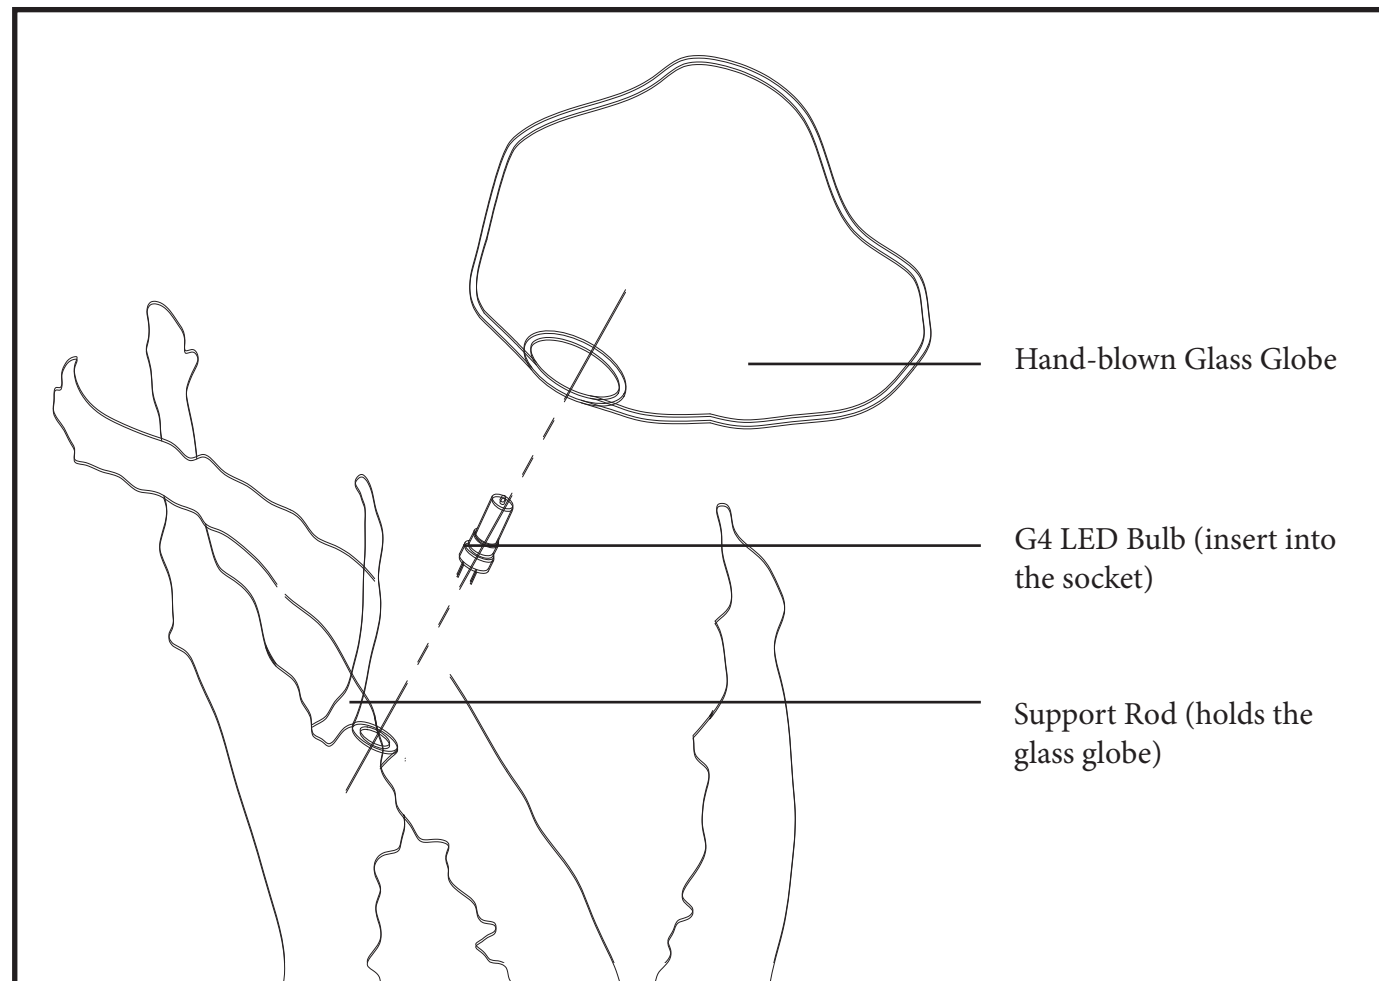

STEP 3

FRONT VIEW

The glass globe is held in place only by the support rod. No additional clips or fasteners are needed. Make sure the globe is properly positioned before use.

CEILING MOUNTING GUIDE

The luminaire must be connected to the electrical supply by a qualified electrician.

The glass globe is held in place solely by the support rod. Once properly aligned, it remains securely in position without any additional clips or fasteners.

Align the two pins of the G4 LED bulb with the socket. Gently push the bulb into the socket until it is fully seated. Do not force or twist the bulb.

Switch off the power supply before carrying out any work.
