

An Aryans Group Venture

C A T A L O G U E

MECHATRONICS SOLUTIONS.
TINTING SOLUTIONS.
END-OF-LINE SOLUTIONS.

**Since 2012, Aryans Powertech
has been engineering progress
through intelligent solutions.**

We are experts in mechatronics, delivering advanced solutions that power automation, motion, and control across industries.

Our core offerings include loading & unloading systems, robotic solutions, gearboxes, slip rings, and linear motors—designed for precision, reliability, and performance.

We also provide tinting solutions, including professional installation and AMC services, ensuring long-term performance and peace of mind.

Engineering excellence. Trusted solutions.
Powering industries.

OUR COMPANIES

DIVERSE EXPERTISE. SHARED VISION.

Advanced solutions in robotics and tinting technologies for industrial automation and beyond.

Industrial automation solutions provider with 30+ years of experience and 1000+ customers across 7+ segments.

Empowering individuals through skill development, training and placement initiatives across India.

Leading and diversified project company delivering engineering, procurement, and maintenance solutions.

Committed to rural development and community welfare through education, healthcare and empowerment.

Aryans Powertech, advanced solutions in robotics and tinting technologies for industrial automation and beyond.

WHY

Why we exist

To innovate for a smarter, more efficient tomorrow.

We exist to solve real-world industrial challenges through robotics and tinting technologies that enhance productivity, quality and sustainability. Our goal is to help industries stay ahead in a rapidly evolving world.

HOW

How we serve

By combining technology, expertise and a customer-first approach.

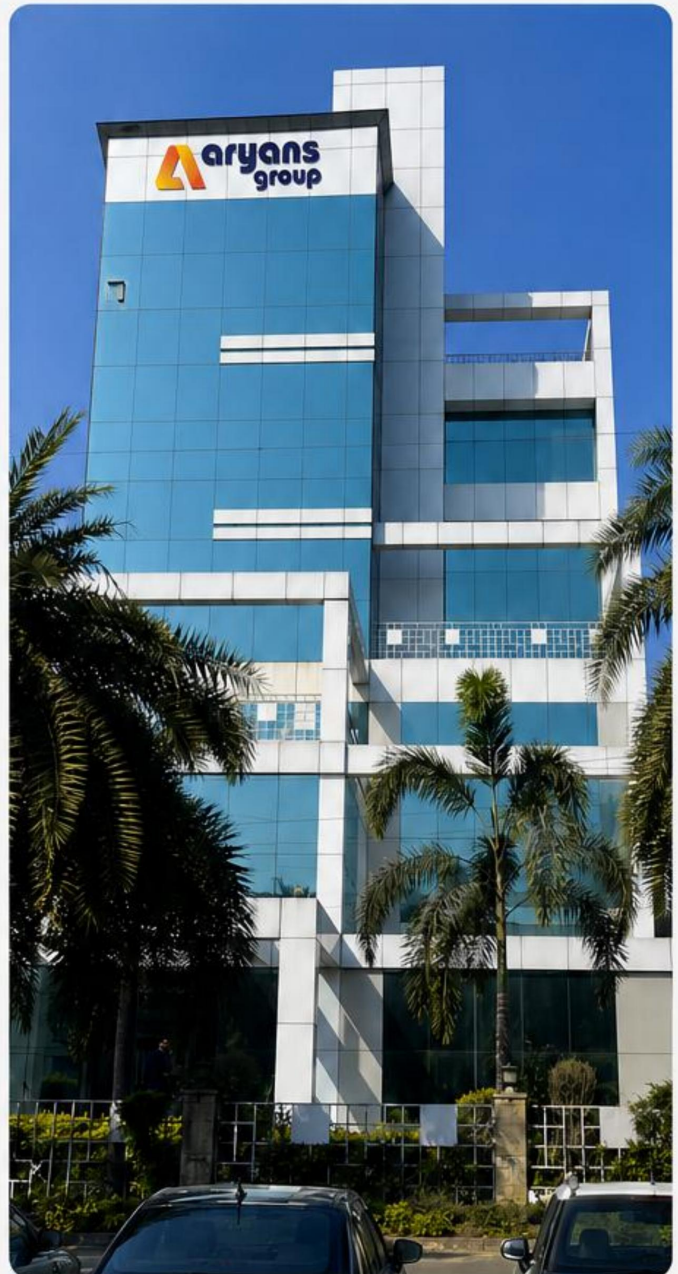

We understand your processes, co-create the right solution and deliver with precision. From concept to commissioning, we ensure reliability, performance and long-term support at every step.

WHAT

What we deliver

Robotics and tinting technologies that drive efficiency and add value.

We deliver advanced robotic systems, automation solutions and precision tinting technologies designed to improve performance, ensure consistency and create a competitive edge for industries across sectors.

Our Corporate Office

STRONGER TOGETHER.

We are proud to announce that
**Aryans Powertech is the
Official Distributor of
Reckers Automation
for PAN India.**

Bringing world-class automation solutions closer to industries across the nation with trusted products, expert support and pan-India presence.

Reckers Automation is a trusted name in industrial automation, control and engineering solutions with over **30+ years** of industry experience and a legacy of delivering reliable, innovative and performance-driven products.

OUR KEY PRODUCT PORTFOLIO

RECSLIP

SLIP RINGS

Reliable transmission of power, signal and data in continuous rotary applications.

RECMO

GEAR BOX & GEAR MOTOR

High precision servo gearboxes built for accuracy, efficiency and long-lasting performance.

RECLIN

LINEAR MOTOR

Advanced linear motors for smooth, high-speed and precise linear motion.

INTELLIGENT TINTING SOLUTIONS.

Precision, Performance, Perfection.

At Aryans Powertech, we deliver advanced tinting solutions that bring accuracy, efficiency and consistency to every colour you create.

IN PARTNERSHIP WITH

We are proud to partner with Fast & Fluid Management (FFM) – a leading OEM of high-performance paint dispensers under IDEX Corporation.

This partnership enables us to bring world-class tinting technology and reliable systems to the Indian market, backed by expert support and service.

Installation at Nerolac Paints outlet, North India

SALES

We are the authorized channel partner for the sales of Fast & Fluid (FFM) dispensers in North India.

INSTALLATION

Our skilled team ensures seamless installation, calibration and commissioning for optimal performance.

AMC SERVICES

We offer comprehensive Annual Maintenance Contracts (AMC) to ensure long-term reliability and uptime.

EXPERT SUPPORT

From application training to technical support, our experts are always ready to assist you.

TRUSTED BY LEADING PAINT COMPANIES

PRECISION. PERFORMANCE.

High-performance dispensing and mixing solutions for consistent, efficient and flawless results.

TINTING DISPENSER

ACCURATE DISPENSING

Precision dosing for perfect colour matching.

EASY TO USE

User-friendly interface for smooth operation.

RELIABLE & DURABLE

Built for continuous use with long-lasting performance.

LOW MAINTENANCE

Minimal upkeep for maximum productivity.

GYROMIXER

UNIFORM MIXING

Ensures homogeneous mixing for consistent results.

POWERFUL PERFORMANCE

High-speed rotation for faster and better mixing.

LOW NOISE OPERATION

Engineered for quiet and smooth performance.

ROBUST & EFFICIENT

Sturdy build with advanced mixing technology.

& AFTER SALES

TINTING DISPENSER

Advanced dispensing system designed for accurate tinting and fast, reliable performance with minimal wastage.

GYROMIXER

High-speed mixing solution that delivers consistent, bubble-free results for all types of coatings and paints.

CONVEYORS

BUILT TO MOVE. BUILT TO PERFORM.

We design and manufacture a wide range of conveyors that ensure smooth, reliable and efficient material handling for diverse industrial applications.

All our conveyors are **manufactured in-house** with a focus on quality, durability and performance.

BELT CONVEYOR

- Smooth & Silent Operation
- Customizable Length & Width
- Durable Belt Material
- High Load Capacity
- Adjustable Speed Control
- Modular & Expandable Design
- Heavy-Duty Frame Construction
- Easy Maintenance
- Energy-Efficient Drive
- Safety Compliant

ROLLER CONVEYOR

- Efficient Material Flow
- Custom Roller Material
- Motorized or Gravity Options
- Heavy Load Capacity
- Modular Design
- Low Maintenance
- Adjustable Roller Pitch
- Variable Speed Control
- Safety Features
- Quiet Operation

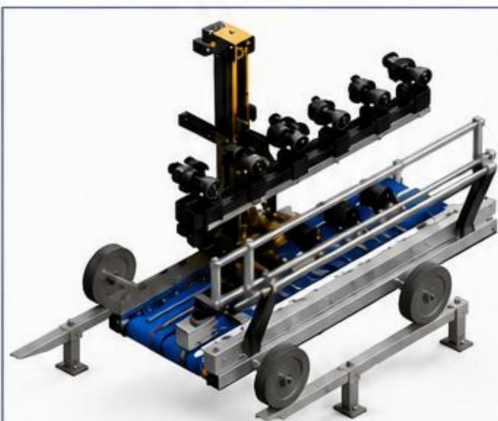

CASE PACKER

- High-Speed Packing
- Compact Design
- Quick Changeover System
- Customization as per requirement
- Touchscreen HMI
- Energy-Efficient Operation
- Integration Ready
- Low Maintenance Requirement
- Customizable Configurations

ADVANCED AUTOMATION SOLUTIONS.

INTEGRATED. INTELLIGENT. RELIABLE.

Engineered to streamline operations and maximize efficiency, our automation solutions are built for precision, reliability and seamless performance.

AUTOMATIC LOADING/ UNLOADING TO & FROM VEHICLE

- Fully Automated Operation
- Precision Positioning System
- Heavy-Duty Construction
- Conveyor Integration
- Advanced Safety Features
- Energy-Efficient Drive System
- Low Maintenance Design
- Custom Layout Options
- Integration Ready
- Shock & Vibration Control

ELECTRICAL & CONTROL PANEL

- Distributes power and controls machine operations
- MCB/Fuse protection
- Contactors & relays – switch loads on/off
- Overload relays – prevent motor overheating
- PLC & HMI – automation control interface
- VFD – controls motor speed

HIGH SPEED AUTOMATIC BAGGING MACHINE

- High-speed bagging for granules, powders & small solids
- Fully automatic – feeding, weighing, filling & sealing
- Accurate & fast with precision load cells
- Easy control with PLC & HMI
- Durable stainless steel construction
- Versatile bags – pillow, gusset & block-bottom
- Industry ready – food, chemicals, seeds & more

TRUSTED BY INDUSTRY. POWERED BY GLOBAL LEADERS.

Our automation and tinting solutions are trusted by leading manufacturers across India and supported by globally recognized technology partners.
