COMPANY OVERVIEW

Established in 2015, Evesh Investments Cc is a forward thinking, energetic and dynamic construction company that specializing in Civil Construction, Mechanical Construction, Electrical Engineering and Water Projects. We add value by creating ideal outcomes for both property owners and tenants, where they love the transformation of their property and maximize the financial returns achieved.

Although the company is situated in Windhoek, we operate as far afield as nationwide, we are always available with the necessary skills, knowledge and equipment to meet any requirement in the field of general construction, civil construction, mechanical construction and electrical engineering.

Safe working conditions are a very high priority to us not only for our employees, but also for our customers. This not only enables us to deliver a dynamic and professional service to our customers, but also gives the client the assurance that their interest is served by members and staff personally to complete projects on time and to the required quality standards.

Evesh Investments is aligned with all project stakeholders through open communication to ensure we add value and exceed our client's expectations. While our years of experience and expertise as building contractors mean we can tackle even the largest contracts with complete confidence, we are also equally adept at handling the smallest jobs. Nevertheless, no matter how big or small the project, our customers are rest assured that it will be completed on time, within their budget and to the satisfaction of even the most exacting clients.

VISION

The vision of Evesh Investments is to provide quality services in civil and construction industries, with safe methods at the cost effective to the client and be dynamic leaders committed to quality and a good service delivery that exceeds our client's expectations.

MISSION

Evesh Investments intend to improve the standard of living by empowering disadvantaged communities by providing employment and skills development to people in the communities where Tenders are awarded. It is also our mission to improve the standard of civil and construction quality in our country by using skilled and competitive employees.

VALUE

Creating an environment for innovation and quest to render the world-class services. A belief that loyalty provides sustainability for a secure future for its people and members.

OBJECTIVES & GOALS

- To transform unskilled labours to skilled
- To provide the expected quality and safe environment
- To add value to clients money by implementing easy and less expensive methods of construction to put Evesh Investments to higher levels and increase the existing staff.
- To create and maintain a culture of good quality within the company and beyond
- To meet all legal requirements, We also promote strict adherence to quality, health and safety standards
- To ensure that quality control mechanisms are being sufficiently and effectively applied at all times.
- To ensure that all consultants, suppliers, sub-contractors and others who are involved in our projects meet the required quality standards.
- To seek feedback from our clients and consultants as to the level of quality delivered.

SKILLS

CONSTRUCTION AND PROPERTY RENOVATIONS

Our strength in delivery is largely attributable to our core team’s dire need to deliver top quality services.

We deliver construction projects to multiple sectors including multi-unit residential, office, industrial, retail, hospitality, aged care, child care. Evesh has a team of construction professionals with extensive experience in small to large complex projects.

We also deliver on the construction and/or rehabilitation of irrigation canals, construction and rehabilitation of sewage works Supply, construction, erection, rehabilitation and maintenance of concrete, PVC and pressed steel panel water reservoirs

Our delivery is successful due to strong leadership from our construction team getting involved at the early stages of the project to identify the project risks. This allows the design to be procured and delivered to the exacting standards.

OWNERSHIP & MANAGEMENT

Founder & Managing Director, Landuleni Shihwandu

L. Shihwandu started the company with a dire recognition of social responsibilities in the community and the focus on our clients, the business team and the future development of our country by implementing new engineering strategies with staffs that are experienced in the construction and property industry. Mr Shihwandu understands most of our client's needs by aligning building and land owners business objectives to structure the ideal outcome for all parties.

Mr Shihwandu graduated from the University of Science and Technology (NUST) with a BTech Degree in Accounting and Finance and Master Degree in Business Administration-Finance from University of Namibia.

ORGANOGRAM

TRANSPORT & COMMUNICATION

To maintain an effective communication and transportation we provide our workforce with reliable transport. This enables us to increase production level and meet set targets. We got 1 (one) small truck and two (2) bakkies for transportation of our workers and material from construction sites. We still aiming to improve effectiveness and efficiency through procurement of more machinery and vehicles.

SAFETY

Ensuring the safety and wellbeing of our employees is of vital importance to us, which is why we go the extra mile to ensure that our employees always have their safety wear on. With hazards such as bricks falling from great heights and poisonous fumes always present, the construction environment poses constant potential health threats.

To reduce the chances of occupational injury, we provide safety wear to all our employees and ensure that, through our site managers, safety specifications are observed and met at all times. The site manager conducts routine checks throughout the day to make sure that employees are safe at all times and that there is no risk posed to their health or safety.

TRAINING

We continuously empower people through practical, on-site training, and also provide employment opportunities to people living in the surrounding areas of our sites.

"The future is under construction and we're building it."
