

Initial Sign Up

NOTE: You must register from your **home IP address**. Our system captures your IP at the point of sign-up, so please ensure you are connected to your home network when creating your account. Do not use a VPN, mobile data, or any other connection in place of your home internet during registration.

Step 1: Get your sponsor's referral link. Please follow proper sponsorship protocol.

Step 2: Go to your sponsor's link in your web browser of choice.

Step 3: You should now arrive at ClickBaitPays. Near the top right of the page, you will see an icon with 3 horizontal lines. Click this icon to open the menu.

Step 4: Click "**Join Now**" in the menu that comes up.

Step 5: You will now be taken to the registration page. If you have a VPN running, please turn it off before continuing.

Step 6: Please whitelist our support email address to ensure you receive your Welcome email and future communications:

support@clickbaitpays.me

Each email provider requires different steps to whitelist an address. If you are unsure, search for instructions specific to your provider. We recommend Gmail.

Step 7: Double check that your sponsor's username appears at the top of the registration form.

Step 8: Fill out the registration form.

NOTE: Username: Minimum 7 characters. Letters and numbers only — no special characters.

Password: Minimum 8 characters. Must include at least one uppercase letter, one lowercase letter, and one number.

Step 9: After filling out the form, click the "**Join ClickBaitPays**" button.

Step 10: You will receive a Welcome email to your registered address within a few minutes, confirming your account's activation. If you don't see it right away, check your spam or junk folder.

NOTE: This email is simply to welcome you. You do not need to click anything in it to verify your account.

Account rules: Each person is permitted one account only. A maximum of 3 accounts are allowed per household/IP address, each with its own email address. All accounts in a household must be sponsored by the **same original sponsor** — not by one another. Example: if Alice sponsored you, Alice must also sponsor any other members of your household. You cannot sponsor someone you live with.

Step 11: On the registration page you will see a welcome message. Click the “**Login here**” link to proceed to the Login page.

Logging In

Step 1: Type in your username and password and click **Login**.

Step 2: Click the “**Click Ad**” button to open the login ad. You must view this ad for **30 seconds** before closing the tab and clicking **Go to Dashboard**.

Step 3: You will be taken to the **How It Works** page. Please read this page and the FAQ — found in the left menu — to familiarize yourself with ClickBaitPays.

Step 4: Select your preferred Ad Campaign level so you know how much cryptocurrency to deposit. You can have up to **3 Ad Campaigns** active per account simultaneously.

Ad Campaign Levels

IMPORTANT: Purchasing an Ad Campaign is exactly that — a **purchase of an advertising service**. This is **not** an investment, financial product, or securities offering of any kind, shape, or form.

Level	Total Purchase	Ads / Day	You Earn / Click	Campaign Completes At	Your Earnings (90%)
1	14 USDT	3	0.48 USDT	19.08 USDT	17.17 USDT
2	84 USDT	3	2.83 USDT	113.00 USDT	101.70 USDT
3	165 USDT	3	5.40 USDT	216.00 USDT	194.40 USDT
4	330 USDT	5	6.48 USDT	432.00 USDT	388.80 USDT
5	660 USDT	6	10.80 USDT	864.00 USDT	777.60 USDT
6	1,320 USDT	10	12.96 USDT	1,728.00 USDT	1,555.20 USDT
7	2,640 USDT	20	13.50 USDT	3,600.00 USDT	3,240.00 USDT

NOTE: Total Purchase includes the one-time activation fee for that level. Your sponsor receives 10% of the campaign completion value. All payments are processed within up to 7 days.

WARNING: A 10% withdrawal fee applies to all earnings withdrawals, regardless of campaign level.

Subsequent Purchases

IMPORTANT: Purchasing an Ad Campaign is exactly that — a **purchase of an advertising service**. This is **not** an investment, financial product, or securities offering of any kind, shape, or form.

NOTE: The table below applies to **subsequent Ad Campaign purchases only** — any purchase after your first at a given level. The one-time Activation Fee is **not** charged on these purchases. The **Subsequent Purchase Cost** column shows exactly what you will pay.

Level	Campaign Cost	Activation Fee (First Purchase Only)	Subsequent Purchase Cost	Ads / Day	You Earn / Click	Completes At	Your Earnings (90%)
1	13 USDT	1 USDT	13 USDT	3	0.48 USDT	19.08 USDT	17.17 USDT
2	77 USDT	7 USDT	77 USDT	3	2.83 USDT	113.00 USDT	101.70 USDT
3	150 USDT	15 USDT	150 USDT	3	5.40 USDT	216.00 USDT	194.40 USDT
4	300 USDT	30 USDT	300 USDT	5	6.48 USDT	432.00 USDT	388.80 USDT
5	600 USDT	60 USDT	600 USDT	6	10.80 USDT	864.00 USDT	777.60 USDT
6	1,200 USDT	120 USDT	1,200 USDT	10	12.96 USDT	1,728.00 USDT	1,555.20 USDT
7	2,400 USDT	240 USDT	2,400 USDT	20	13.50 USDT	3,600.00 USDT	3,240.00 USDT

Activation Fee Reference

NOTE: Activation Fees are a **one-time charge per level**, paid only on your first purchase at that level. With the exception of Level 1, each fee is equal to 10% of that level's campaign cost.

Level	One-Time Activation Fee	Notes
1	1 USDT	—
2	7 USDT	10% of campaign cost
3	15 USDT	10% of campaign cost
4	30 USDT	10% of campaign cost
5	60 USDT	10% of campaign cost
6	120 USDT	10% of campaign cost
7	240 USDT	10% of campaign cost

Funding Your Account

Step 1: Once you have selected your preferred Ad Campaign(s), it is time to fund your account. On the left menu, click **Deposit**.

Step 2: Under **Make A Deposit**, enter the amount in USDT you would like to deposit. You will have the option to fund with several types of cryptocurrency. The minimum deposit is **10 USDT**.

Step 3: Click **Deposit Funds**. You will be taken directly to NOWPayments to complete your deposit.

Step 4: Click the **Choose asset** dropdown to select the cryptocurrency you would like to deposit. NOWPayments supports Bitcoin (BTC), Litecoin (LTC), Ethereum (ETH), Tron (TRX), Ripple (XRP), and hundreds more.

WARNING: Your selected cryptocurrency must exactly match what you intend to send. A mismatch will likely result in a permanent loss of funds. Example: If you select Ethereum (ETH), do not send Tether (USDT).

Step 5: After selecting your cryptocurrency, NOWPayments will display an estimate of the amount you need to send.

Step 6: Click **Next step**.

Step 7: NOWPayments will display the exact amount to send and the wallet address to send it to. The following is an example only — your actual values will differ:

Amount: 0.00024851 BTC

Address: bc1q36ngch858kff04z5g6yz7nftqqnwxp8qjpxlq

WARNING: NOWPayments generates a **unique wallet address for every deposit**. Do not reuse a wallet address from a previous deposit — always complete a new deposit request to receive a fresh address. Sending funds to an old address may result in a loss of funds.

Step 8: NOWPayments will also generate a **10-digit Payment ID** for your transaction. Make a note of this ID. If you ever need to contact Support about a deposit, this Payment ID will help us locate your transaction quickly.

Step 9: Open your cryptocurrency wallet and navigate to your chosen cryptocurrency.

Step 10: Click the **Send** button in your wallet.

Step 11: Copy the amount shown on the NOWPayments page and paste it into the amount field in your wallet.

Step 12: Copy the wallet address shown on the NOWPayments page and paste it into the **To / Address / Send To** field in your wallet.

Step 13: Double check that the amount, wallet address, and cryptocurrency all exactly match what NOWPayments shows you.

WARNING: A mistake here will likely result in a permanent loss of funds. Always verify all details before sending.

Step 14: Click **Send** in your wallet to submit the transaction.

Step 15: Wait for NOWPayments to detect and credit your transaction. Depending on the cryptocurrency, this can take anywhere from 10 minutes to a few hours. If your account has not been credited after 12 hours, please contact Support via Telegram with your username and Payment ID.

Starting Your Ad Campaign

Step 1: Once your payment is processed, NOWPayments will return you to ClickBaitPays. On the left menu, go to **Buy Ad Campaigns**.

Step 2: Select your preferred Ad Campaign level and click **Buy This Ad Campaign**.

Step 3: Enter the **Ad Title** and **URL** for your ad. Most members use their referral link from another program. Alternatively, you may choose a charity to advertise, or sign up for an affiliate product on ClickBank to promote.

Step 4: Double check that your ad details are correct and that you have sufficient funds in your account balance.

Step 5: Click **Confirm Purchase**.

Step 6: After purchasing, you will be prompted to pay the one-time **Activation Fee** for that level to activate your earnings.

Step 7: To purchase additional Ad Campaigns, return to **Buy Ad Campaigns** and repeat Steps 1–6.

Viewing Ads

Step 1: With your Ad Campaign(s) purchased and your Activation Fee paid, you are ready to start earning! On the left menu, go to **Click Ads**.

Step 2: Below your Ad Campaign information, you will see the ads available to click. The number of available ads depends on your campaign level. Each ad opens in its own new tab — view each ad for **15 seconds**, close the tab, then click **Proceed**. Each Ad Campaign has its own set of ads.

Step 3: After clicking all ads across all of your active Ad Campaigns, you are done for the day.

NOTE: Ads reset daily at Midnight Panama Time (EST / UTC-5).

Common Questions & Answers

Q1. What tokens/crypto are supported?

A: ClickBaitPays supports a wide range of cryptocurrencies, including but not limited to: Bitcoin (BTC), Litecoin (LTC), Dogecoin (DOGE), Solana (SOL), Binance Coin (BNB), and hundreds of others. A complete list is available on the NOWPayments deposit page.

Q2. What is the native cryptocurrency used by ClickBaitPays?

A: For accounting purposes, ClickBaitPays uses **USDT-ERC20** (also referred to as USDT-ETH, or USDT on the Ethereum Chain). This is the unit you will see when entering a deposit amount, regardless of which coin or token you choose to send.

Q3. How long does it take for my deposit to be credited?

A: This depends on the cryptocurrency you deposited and how busy its blockchain network is at the time. Please allow up to **12 hours** for your deposit to be processed. If it has not been credited after 12 hours, please contact Support so we can investigate.

Q4. How do I Pay It Forward (PIF) another member?

A: Follow these steps:

1. On the left side menu, under **Financial**, click **Pay It Forward**.
2. Under the **Send Funds** menu, enter your recipient's username and the amount in USDT you wish to send.
3. Click **Send Funds**.

Your recipient may need to refresh their page for their available balance to update.

NOTE: Funds sent via Pay It Forward cannot be withdrawn or transferred to another member. They must be used to purchase an Ad Campaign.

Q5. How do I view my ads?

A: Follow these steps:

1. On the left side menu, go to **Click Ads**.
2. Below your Ad Campaign card, you will see a list of ads. Click the top ad.
3. You will be taken to a page with a countdown and a "**Click Ad**" button. Click it to open the ad in a new tab and start the countdown.
4. After **15 seconds**, close the tab (or press the back arrow on mobile), then click the green **Proceed** button.
5. The next ad at the top of the list is your next click. Repeat for all ads your campaign level requires.

If you have more than one active Ad Campaign, you will see multiple tabs above your Ad Campaign card. Click an unhighlighted tab to switch to another campaign and complete your clicks for that campaign.

Q6. How many Ad Campaigns can I purchase at one time?

A: You can have **3 active Ad Campaigns** per account at a time, regardless of level. For example, you could have 3 Level 4 campaigns active, or one each of Levels 4, 5, and 6 — both scenarios count as 3 active campaigns. Once a campaign retires after 12 days, you may purchase a new Ad Campaign using your available balance.

Q7. How long does it take for funds to move from my In Earned Wallets to my Available Balance?

A: After the 12 days of clicking for your Ad Campaign are complete, the funds in your **In Earned Wallets** balance are transferred to your **Available Balance** after a fixed 7-day period. Once available, you may use those funds to PIF another member, purchase a new Ad Campaign, or request a withdrawal. Note that a **10% fee** applies to all withdrawals.

Q8. How can I request a withdrawal?

A: You may submit one withdrawal request per week. Follow these steps:

1. On the left side menu, under **Financial**, click **Withdraw**.
2. Under **Request Withdrawal**, enter the amount in USDT you wish to withdraw. A 10% withdrawal fee will be deducted from this amount.
3. Select the cryptocurrency you would like to receive your withdrawal in.
4. Enter your **Security PIN**.
5. Click **Submit Withdrawal**.

NOTE: We strongly recommend withdrawing to a **noncustodial wallet** such as Exodus or MetaMask, rather than directly to an exchange wallet such as Binance or Coinbase. Exchanges may reject or delay incoming transfers, and in some cases funds sent to an exchange deposit address may be lost. A noncustodial wallet ensures you have full control over your funds. Withdrawals are processed **manually by the admin team** and are completed within **24 hours** of submission.

Q9. What cryptocurrencies are supported for withdrawals?

A: ClickBaitPays supports the following cryptocurrencies for withdrawals: Bitcoin (BTC), Ethereum (ETH), Litecoin (LTC), Binance Coin (BNB), Tron (TRX), Ripple (XRP), Stellar (XLM), Polygon (POL), and Solana (SOL). After selecting your preferred cryptocurrency, paste in the wallet address for that currency.

WARNING: Ensure the wallet address you enter is valid for the cryptocurrency you selected. For example, an Ethereum address cannot receive Bitcoin — entering a mismatched address may result in a permanent loss of funds. ClickBaitPays is not responsible for losses resulting from incorrect wallet addresses.
