

WEATHER INTEL

Quick Review Checklist

Before relying on any WEATHER INTEL forecast, alert, risk assessment, or recommendation, take a moment to complete this review.

Forecast Review

- ☐ I have reviewed the latest weather forecast.
 - ☐ I understand the forecast period being displayed.
 - ☐ I have considered any recent changes in weather conditions.
 - ☐ The forecast is relevant to my project location.
-

Site Validation

- ☐ I have considered current site conditions.
 - ☐ Site conditions are consistent with the forecast information provided.
 - ☐ I have identified any site-specific factors that may affect the forecast outcome.
 - ☐ Existing site controls and mitigation measures have been considered.
-

Activity Review

- ☐ I have confirmed that the weather-sensitive activity applies to my project.
 - ☐ I have reviewed the recommended planning actions.
 - ☐ I have considered alternative work activities if required.
 - ☐ I have assessed any programme or resource implications.
-

Risk Assessment Review

- ☐ I understand the weather risk level being reported.
- ☐ I have considered the potential impact on productivity.
- ☐ I have considered the potential impact on safety.

WEATHER INTEL

Quick Review Checklist

☐ I have considered the potential impact on programme delivery.

Decision Review

☐ I have reviewed all WEATHER INTEL outputs before making a decision.

☐ I have applied professional judgement.

☐ I have considered company procedures and project requirements.

☐ I am satisfied that the information is appropriate for this project.

Final Confirmation

Before proceeding, ask yourself:

"Would I be comfortable explaining this decision to my Project Director, Construction Manager, client, or project team?"

☐ Yes

☐ No

If **No**, undertake further review before proceeding.

Important Reminder

WEATHER INTEL is a decision-support tool designed to assist project teams. Final decisions remain the responsibility of the user and should always be based on professional judgement, site conditions, project requirements, and company procedures.

☒ **Review → Validate → Decide → Act**
