International Market Activation & Compliance Schedule

Document version	0.9
Draft date	16 September 2026
Scope	Internal/admin policy for activating and deactivating non-UK markets.
Status	Draft – not effective until market activation

Operational rule

Building a market in the system does not make it live. A market should progress Draft → Stripe verification → Testing → Ready → Live, and public booking should remain disabled until mandatory checks are complete.

1. Mandatory market activation gates

- Market/currency/fee configuration approved
- Stripe Connect supported for intended Host country and funds flow
- Test Host identity onboarding completed
- charges_enabled verified
- payouts_enabled verified
- End-to-end payment test passed
- Customer cancellation/refund test passed
- Host cancellation/full-refund test passed
- Tax/VAT/sales-tax position reviewed
- Marketplace seller/trader/tax-reporting obligations reviewed
- Privacy notice/addendum approved
- Consumer cancellation/withdrawal terms reviewed
- Local parking/property restrictions reviewed
- Customer-facing language and disclosures approved
- Support/complaints route configured
- Test records removed or isolated
- Admin monitoring and reconciliation verified

2. Initial international market register

Market	Code	Currency	Status	Legal pack	Tax/reporting	Live booking
Ireland	IE	EUR	Draft	EU/EEA Addendum + Ireland review	DAC7/VAT review	Disabled
France	FR	EUR	Draft	EU/EEA Addendum + France review	DAC7/VAT/local parking tax review	Disabled
Germany	DE	EUR	Draft	EU/EEA Addendum + Germany review	DAC7/VAT/local review	Disabled
Spain	ES	EUR	Draft	EU/EEA Addendum + Spain review	DAC7/VAT/local review	Disabled
Italy	IT	EUR	Draft	EU/EEA Addendum + Italy review	DAC7/VAT/local review	Disabled
Netherlands	NL	EUR	Draft	EU/EEA Addendum + Netherlands review	DAC7/VAT/local review	Disabled
United States	US	USD	Draft	US Addendum + state schedule	Federal/state tax + 1099-K/payment reporting review	Disabled

3. Test evidence to retain

- Test Host connected account ID (masked where appropriate)
- Market/currency used
- Booking reference
- Stripe Checkout Session and Payment Intent/Charge references
- Host transfer reference
- Webhook delivery status
- Refund/reversal references
- Date/time tested
- Admin/reviewer who approved Ready/Live
- Legal/tax review record and version of market addendum

4. Market deactivation

Admin should be able to stop new bookings in a market without deleting historical records. Existing confirmed bookings should be handled under the terms that applied when booked, subject to mandatory law. Where a regulatory, payment or safety issue arises, PrePark may pause Host onboarding and/or new bookings while preserving access to existing booking support.
