

OKIES FIRST POLITICAL ACTION COMMITTEE

Social Media Comment Filter Word List

For Chairmen Approval

Purpose

This document presents the recommended list of words and phrases to be filtered (hidden) in comments on official Okies First social media accounts on Facebook, Instagram, and TikTok.

It implements the Social Media Policy (last updated October 21, 2026), which states that filters hold back or hide comments that use vulgar language, slurs, or unkind words aimed at any person. The goal is that anyone, including a teacher, a veteran, a parent, or a kid looking over a shoulder—should be able to read our comments without running into language that has nothing to do with the issue being discussed.

Filters are about language, not politics. A comment that criticizes Okies First or an endorsement sharply in clean language stays visible.

Policy Foundation

Relevant excerpt from the Okies First Social Media Policy:

“These filters hold back or hide comments that use vulgar language, slurs, or unkind words aimed at any person. The goal is simple: anyone should be able to read our comments — including a teacher, a veteran, a parent, or a kid looking over a shoulder — without running into language that has nothing to do with the issue being discussed.

The filters are about language, not politics. They do not check your party, your ideology, or your opinion of Okies First or of any candidate. A comment that criticizes us sharply in clean language stays up.”

Recommended Filter Lists

The following lists are recommended for entry into the native comment-filter tools on Facebook (Page settings → Comment filters), Instagram (Settings → Privacy → Hidden Words), and TikTok (available keyword/comment moderation tools). Platforms automatically catch many variations, misspellings, and symbol substitutions.

1. Core Profanity & Vulgar Language

- fuck / fucking / fucked
- shit / bullshit
- bitch
- asshole / bastard
- cunt / dick / pussy / cock
- whore / slut
- piss / crap
- motherfucker
- damn (when used as an intensifier in personal attacks)

2. Personal Insults & Unkind Attacks

- idiot / moron / stupid / dumb
- retard / retarded
- loser / pathetic / worthless
- trash / scum / piece of shit
- shut up
- go die / kill yourself
- ugly / fat / disgusting

3. Slurs & Dehumanizing Language

Include major racial, ethnic, gender, and sexual-orientation slurs. Add any additional local or context-specific terms observed in comments.

- nigger / nigga
- fag / faggot / dyke
- tranny
- kike / spic / chink / gook / wetback
- cracker / honky

4. Threats, Harassment & Escalatory Language

- kill you / shoot you
- rape
- bomb
- threat
- doxx / dox / home address / personal information

5. Spam & Off-Topic Indicators (Optional)

- buy now / click here
- follow me / dm me
- promo / discount code
- http:// / https:// / www.

Implementation Guidance

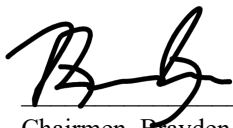

Start with the core profanity, personal insults, and major slurs lists. Add more terms as patterns appear in real comments.

- Do not add political terms, candidate names, party names, or issue-based words. Filters are about language, not viewpoint.
- Enable each platform's automatic profanity / unwanted-comment filter as a baseline.
- Review hidden comments periodically. Restore any comment that was clean criticism of Okies First, its positions, or its endorsements.
- Document the date filters are applied and any subsequent additions or removals.

Chairmen Adoption

The Okies First Chairmen is requested to adopt the filter word lists above as the official starting set for comment moderation on all official Okies First social media accounts, consistent with the Social Media Policy.

Adopted this ___ 21st ___ day of _____ October _____, 2026.

Chairmen, Brayden M Brumley
