AURISCA

Anti-Pollution Face Gel

Detoxifies & repairs | Brightens & evens skin tone

A modern daily face gel designed to hydrate, brighten and help protect skin exposed to urban environmental stress. Aloe vera, niacinamide, vitamin C, green tea, moringa, licorice, ferment lysate and multi-weight hyaluronic acid work together to support a smoother, calmer and more radiant complexion.

WHY CHOOSE AURISCA

Helps defend against urban pollution and environmental stress

Delivers multi-level hydration for soft, supple and comfortable skin

Antioxidant botanical blend helps reduce the impact of free radicals

Brightens the complexion and supports a more even-looking skin tone

Supports the skin barrier with niacinamide and ferment-derived care

Soothing aloe, licorice and allantoin help calm visible discomfort

DIRECTIONS & IMPORTANT INFORMATION

Apply an adequate amount to a clean face and neck and massage gently until fully absorbed. For external use only. Avoid contact with eyes. Discontinue use if irritation occurs.

AURISCA INGREDIENT GUIDE

A purposeful blend for hydration, brightening, antioxidant defence and skin-barrier support.

Aqua

Base and solvent that carries the water-soluble ingredients.

Aloe Barbadensis Leaf Juice - 10%

Hydrates and soothes dry, sensitive or stressed skin.

Glycerin - 4%

Humectant that attracts water and helps maintain skin hydration.

Niacinamide - 5%

Supports the skin barrier, brightens and helps balance visible oiliness.

Caprylic/Capric Triglyceride - 5%

Lightweight emollient that softens skin and improves spreadability.

Cetearyl Alcohol - 3%

Fatty alcohol that conditions skin and gives the gel-cream body and stability.

Glyceryl Stearate - 2.5%

Emulsifier and emollient that supports a smooth, moisturising texture.

Sodium Ascorbyl Phosphate - 1%

Stable vitamin C derivative providing antioxidant and brightening support.

Camellia Sinensis Leaf Extract - 2%

Green-tea antioxidant that helps soothe and defend against environmental stress.

Moringa Oleifera Seed Extract - 1%

Antioxidant botanical that helps condition skin and support anti-pollution care.

Lactobacillus Ferment Lysate - 2%

Postbiotic ingredient that supports barrier comfort and skin resilience.

Licorice Root Extract - 1%

Soothes skin and helps improve the appearance of uneven tone.

Tocopherol - q.s.

Vitamin E antioxidant that helps protect the formula and condition skin.

Biosaccharide Gum-4 - 1%

Film-forming anti-pollution polymer that helps limit particle adhesion.

Sodium Hyaluronate - 0.20%

Salt of hyaluronic acid that binds water for lasting surface hydration.

Hyaluronic Acid - 0.10%

Hydrating polymer that supports a plumper, smoother skin appearance.

Allantoin - q.s.

Comforting skin protectant that helps soothe and soften.

Parfum - q.s.

Provides the product fragrance.

Phenoxyethanol - q.s.

Preservative that helps protect the product from microbial contamination.

Ethylhexylglycerin - q.s.

Preservative booster with mild humectant and skin-conditioning properties.

FORMULA NOTE

q.s. means quantity sufficient: the amount required to achieve the intended formulation function and final batch quantity.
