JUNIORS STUDIO

The 150 m² studio is designed for small and medium-sized productions and forms part of a larger production and workshop compound. When required, productions can expand into additional areas with storage, office space and workshop capacity.

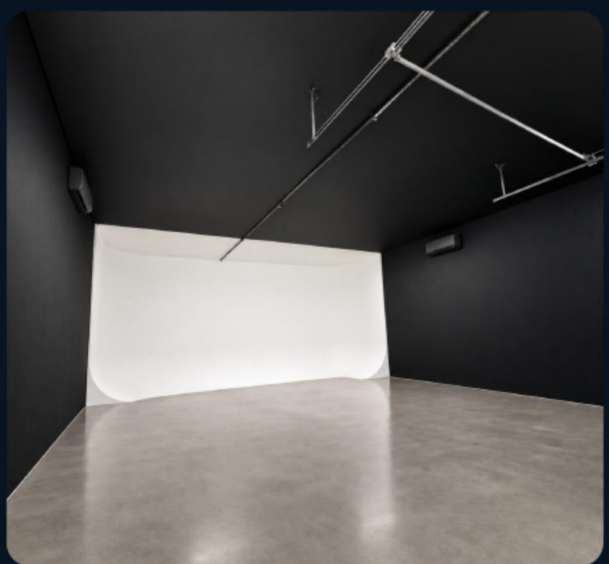

02 / CYCLORAMA

10 m cyclorama

A permanent 10-metre-wide cyclorama with a 1.2 m radius. The smooth floor-to-wall transition creates a clean infinity background, supports even lighting and allows for wide framing.

More than just studio space.

The studio can be hired independently, or productions can take advantage of the wider production infrastructure available within the compound.

01 Set design & construction

Set design and set construction are available through Leo Films. From simple builds to complete production environments, additional support can be arranged depending on the project. Productions are also welcome to bring their own designers, construction crews and suppliers.

02 Custom fabrication

Custom fabrication is available through 168° Lab, located close to the studio. Services include 3D printing, CNC machining, laser cutting, laser engraving, prototypes, props, custom components, masks and sculptures.

03 Production office & support

An on-site production office is available. Additional containers, storage spaces and office spaces can be rented for production, storage or support use. Catering is also available upon request.

BEYOND THE STUDIO

Juniors Studio is part of a larger production and workshop compound. Additional spaces can be used for storage, construction, preparation or other production requirements as needed.

EVENTS

A space for events, too.

Juniors Studio is also available for events, workshops, presentations, corporate gatherings and special occasions. The space can be adapted flexibly to suit each event.
