Laser Safety Curtain

LMS-LASER-SAFETY-CURTAIN

Flexible laser-work screening for separating a controlled work area. Available in a standard 1.5 × 2 m size, with custom dimensions and mounting requirements handled through a quotation.

- Flexible screening
- Custom sizes on request

Technical specifications

Wavelength range	316–11000 nm
Barrier marking	316–1030 nm DIR AB6 + IR AB7; >1030–1400 nm D AB5 + IR AB8; 1400–11000 nm DI AB3 LP
Standard size	1.5 × 2 m
Referenced standards	EN 12254; IEC 60825-4

Selection & use

Curtain selection and installation depend on laser power, beam geometry and exposure duration. Include gaps, overlaps, mounting and reflected radiation in the assessment. A curtain does not by itself make an installation Class 1.

For your quotation: Specify width, height, mounting, overlaps and whether a supporting frame is required. Mounting hardware and frames are included only when stated in the offer.
